

Garden & Lawn,

James parter &.
RAYNES PARK, LONDON, S.W. 19.

is the way

Seedsmen by Royal Warrant to His Majesty the King.

It has been our privilege for many years to hold the Royal Warrant of Appointment to His Most Gracious Majesty the King, and we have had the honour of regularly supplying His Majesty's Establishments at Windsor Castle, Buckingham Palace, and Sandringham.

Our Trade Marks.—One of the two registered devices in the margin has been for several years affixed to every packet of seeds distributed by us. They are both simple and sufficiently distinct to protect everyone desirous of obtaining "Carters Tested Seeds" as supplied in sealed packets. It is not enough to be told that "these seeds

came from Carters": our name and one of our trade marks must be on the packet or we cannot guarantee that they emanate from our establishment.

This is the 82nd year of our establishment, and we take the opportunity to tender respectful acknowledgments for past favours; and we beg to solicit a renewal of confidence, to merit which our best personal attention shall, as heretofore, be devoted.

A PEACE GREETING.

'the moment of going to press we are thrilled with the glorious news of the cessation of hostilities, the signing of an armistice, and the prospect of a victorious and lasting peace, after the greatest of all world-wars.

Conscious of the fact that these pages travel to every part of the British Dominions over the seas, as well as to many parts of our Allies' countries, we cannot refrain from communicating by these means our deep-felt congratulations to all our friends.

We recall the fact that four years ago, when autocratic militarism threatened to cut off the mother country from her brethren across the seas, we predicted that the British Fleet would keep open the highways across the ocean and enable us to maintain the necessary supplies of seeds to all the far-distant shores where we have for so many years contributed to the necessities of farms and gardens alike, and our predictions have been realised.

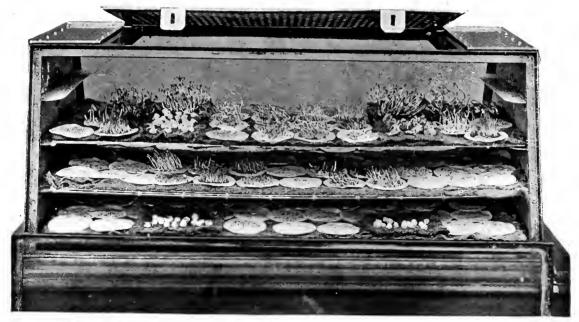

With peace in sight we predict that England will continue to play its part as the nursery and home of the best seeds, alike for food and for flowers. The best food-producing seeds because of the highly-selected strains proved to yield more in quantity and better in quality, year by year, as the work of hybridizing and selecting proceeds—a work which has no limit; and by the same processes to introduce new strains of Flowers, rich in their abundance and variety of colour and fragrance, to beautify the surroundings and homes of our friends in all climes.

England will continue to play her part, and we give place to no one in the importance we attach to this method of utilising the forces of nature for the pleasure and benefit of all classes in all countries—a striking contrast to the way the Central Powers have prostituted the forces of nature in directing them to the destruction of all that is beautiful.

BY THESE MEANS WE SHALL HELP ENGLAND TO GAIN AND DISTRIBUTE THE FRUITS OF PEACE.

We close this greeting to our numerous friends at home and abroad in the words of four years ago: "THE EMPIRE FOR EVER!"

JAMES CARTER & CO.

A No. 1 Carter Germinator, illustrating one of the Indoor Tests in the Laboratories,

CARTERS TESTED SEEDS

OF CHOICE VEGETABLES.

With the introduction of the Testing of Seeds Order, we respectfully refer our customers to our original systems of Testing, as set out in the Special Inset in the centre of this book.

High-class stocks of seeds cost very little more than those of inferior quality. Under the same methods of cultivation crops from Carters Tested Seeds are heavier, of better food value, and infinitely more palatable.

"THE TESTING OF SEEDS ORDER, 1918."

Tests made since the commencement of the last harvest, August, 1918, prove that the germination of the Vegetable Seeds offered in this Catalogue is in every case equal to, if not higher than, the Government standard, for those kinds to which the Order refers, and the analytical purity not less than 97 per cent. We shall advise our customers of any exceptional cases that may occur.

REMITTANCE WITH ORDERS.

Customers give great assistance to the work of our Staff when they enclose a remittance with their esteemed orders.

Duplicate bookings are obviated to a large extent, thereby helping generally in a quicker despatch of all orders.

PRICES

All Vegetable and Flower Seeds in this Catalogue are packed in 6d. 1/- and 1/6 packets.

BROAD BEANS.

FRENCH-Fèves de Marais.

The Cultivation of Broad Beans.—Early Mazagan and Dwarf Fan Beans may be planted in November, and a second sowing made in February, the rows being about 15 in, apart: to be followed by the Long-Podded and Windsor varieties to secure a succession. The later sorts should be about 6 in, from plant to plant, and 3 ft, from row to row. This crop succeeds best on deep rich soil in an exposed position. On light and dry soils it generally gets attacked by the black blight and spoils. When the points suffer from this pest it becomes imperative to pinch them out and burn them.

LONGPOD VARIETIES-WHITE-SEEDED.

NO. 44 **Aquadulce Longpod.**—Ifarly and long-podded. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

43 **Broad Bean, Carters.**—Selected for length of pod and productiveness.

1'er ½-pint, -/8; per pint, 1/3; per quart, 2/3

49 Early Longpod.—Robust habit; pods well. Per ½-pint, -/8; per pint, 1/3; per quart, 2/3

50 Early Mazagan.—One of the earliest; small pods.

Per ½-pint, -/8; per pint, 1/3: per quart, 2/3

45 Johnson's Wonderful.—One of the oldest long-podded varieties. Per ½-pint, -/8; per pint, 1/3; per quart, 2/3

40 Leviathan, Carters.-A champion Exhibition variety. We Leviathan, Carters.—A champion Exhibition variety. We continue to re-select this well-known Broad Bean, the seeds being carefully selected from the finest pods taken from the most prolific plants, so that our customers may feel that they are growing really the very finest Broad Bean in cultivation. It cannot be excelled for table or exhibition. 145 First Prizes reported by customers in two seasons. Exhibited with Carters Vegetables at Cardiff, 1914, and awarded the Gold Medal. "In the matter of earliness and continuous bearing it certainly outclassed its rivals, commencing to yield pods large enough for cooking early in July, and it was from the same row we picked our latest dish on Angust 10th. I feel sure a trial of this variety will not fail to give satisfactory returns."—F.R.C., in The Gardener. (See Photograph.)

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6

No.

42 **Mammoth Longpod, Carters.**—A decided improvement upon the *Barly Longpod*. Sent ont originally by us. and awarded the First Class Certificate of the Royal Horticultural Society.

Per ½-pint. -/10; per pint. 1/6; per quart, 2/9

46 **Minster Giant Longpod.**—An old favourite, of good habit and appearance. Per ½-pint, -/8; per pint, 1/3; per quart, 2/3

48 Royal Dwarf Fan or Cluster-headed.—Farly, dwarf, and good flavour. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

41 **Seville Giant Longpod.**—Distinct and handsome, 18 in. high, with pods often 12 in. in length. First Class Certificate, R.H.S. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

LONGPOD VARIETIES-GREEN-SEEDED.

68 Beck's Dwarf Green Gem.—Rarly and prolific. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

65 Green Leviathan, Carters.-We introduced this fine Bean as a fitting companion to its prototype, Carters Leviathan (White-seeded). When we state that this Bean earries pools of equally enormous proportions, and has the additional advantage equally enormous proportions, and has the additional according of a beautiful green colour, its merits will be at once recognised. Its flavour is most mellow and delicious. The Royal Horticultural Society, reporting its trials at Wisley, says:—"Pods of tural Society, reporting its trials at Wisley, says:—"Pods of great length, and one of the best of the long pod section; good crop." Included in our Gold Medal Exhibit of Vegetables at

Hastbourne, 1914, and 34 First Prizes awarded to our customers the same year. Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6

71 Green Longpod.-Large podded and productive.

Per 2-pint, -/8; per pint, 1/3; per quart, 2/3

67 Masterpiece Longpod, Carters.—An exhibition Green Loogpod Bean. It combines all the best properties of a first-class Broad Beam, and possesses the fine quality and flavour of the Green over the White Bean. It is most profife, a great part of the pods hanging in pairs.

Per ½-pint, -/10; per pint, 1 · ; per quart, 2/9

WINDSOR VARIETIES-WHITE-SEEDED.

57 Iraproved Windsor, Carte: s.—1, arge and bushy habit, well podded from top to bottom of stem. Carte: s.-l. arge and productive,

Per 1-pint, -/8; per pint, 1/3; per quart, 2/3

56 New Colossal Windsor, Carters.—This immense Bean is, both in pod and seed, by far the largest Broad Bean ever raised. It was selected at our testing grounds, being the result of a cross made in 1905 between the old-fashioned Harlington Windsor Carters Leviathan, and is a certain prize-winner. The seed is of abnormal size. Stock very limited. (See Photograph.)

Much the finest Windsor Bean on the market; pods unusually long and crop prodigious. Those who have a preference for the Windsors will hail this new comer with much satisfaction."— Mr. W. Strugnell, Head Gardener to N. H. Wills, Esq. Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6

59 Mammoth Windsor, Carters.—The longest podded Windsor Beau in existence, and the linest for exhibition. The pods of this superb strain often contain as many as five and six gigantic beans. A grand selection.—Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

58 Market Garden Windsor, Carters.—Very superior to the ordinary type, having a white eye, which makes it a great acquisition, giving it a much nicer appearance when cooked than the ordinary varieties. The eye retains its white colour to the last.

Per ½-pint. -/10; per pint. 1/6; per quart, 2/9

WINDSOR VARIETIES-GREEN-SEEDED.

70 **Green Windsor.**—Large Beans, of fine colour. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

66 Harlington Green Windsor, Carters,-A distinct and

aluable Green selection from an old favourite variety. These Green Beaus are preferred by many on account of their colour when sent to table. Per ½-pint, -/10; per pint, 1/6; per quart, 2/9

DWARF FRENCH OR KIDNEY BEANS.

FRENCH-Haricots nains.

The Cultivation of French or Kidney Beans.—Sow in pots under glass for forcing from December to April, and about May in the open borders, followed by two or three successional sowings at intervals of a fortnight. The rows ought to be from 2 ft. to 2½ apart, and the plants thinned to about 1 ft. apart. They are rather delicate, and should not be sown out of doors until the warm weather sets in.

94 Canadian Wonder.—Ordinary variety of this popular Beau.

Per $\frac{1}{2}$ -pint, 1/-; per pint, 1/9; per quart, 3/3

90 Canadian Wonder, Carters.—We were one of the first to make the merits of this fine Dwarf Bean known, and its popularity to-day is probably unequalled. Our stock is the finest obtainable, and produces an abundance of very long fleshy pods, making it a great favourite both for table and exhibition.

Included in our Gold Medal Collection, Cardiff, 1914. 49 First Prizes reported in one season.

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6

92 Dwarf Wax, or Golden Butter, Carters Melting.—
Very profibe heavy cropping variety of wax-podded Bean so popular on the Continent. The Beans should be cooked whole.

Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3
95 Early Prolific.—Very productive.

Per 1-pint, -/10; per pint, 1/6; per quart, 2/9

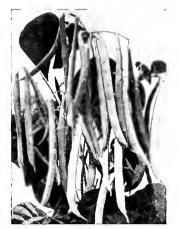

The List of French Beans is continued on page 7.

The above are packed in 6d. 1/- and 1/6 packets

and in other quantities as above.

DWARF FRENCH OR KIDNEY BEANS-Continued.

No.

91 Longsword, Carters Re-selected. This variety has been improved and re-selected, and as now offered is one of the largest podded French Beans on the market; the pods, produced in great profusion, are of quite remarkable length and substance. Exhibitors should not fail to grow this variety where space is not limited; a certain prize-winner.

Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3

NOVELTY.

Magpie, Carters (The new Longstanding variety).—This remarkably fine Dwarf

Hig variety).— This remarkanty and Dwan Bean, which has attracted such favourable attention in our trials at Raynes Park for the past few seasons. attention in our trials at Raynes Park for the past few seasons, and granted an Award of Merit by the Royal Horticultural Society, July, 1914, was raised in France by an expert grower, who considered it the finest bean of its class. We have re-selected and grown it on for some years, until it has become equally good here in all seasons, producing heavy crops when other varieties are damaged or fail. It is also an excellent forcer. In habit it somewhat resembles our celebrated Perfetual, but is a heavier cropper, the pods larger and longer, but equal quality and flavour. We strongly recommend this introduction. (See Photograph.)

96 Monster Long-podded Negro.—A decided advance on the ordinary variety, hearing larger and thicker pods.

Per J-pint, -/10; per pint, 1/6; per quart, 2/9

97 **Ne Plus Ultra.**—Well-known variety; good for general use. Per 3-pint, -/10; per pint, 1/6; per quart, 2/9

98 Osborn's Early Forcing.-One of the best forcing varieties Per 2-pint, -/10; per pint, 1/6; per quart, 2/9

No. 85 Perpetual, Carters.—The Royal Horticultural Society have Perpetual, Carters.—The Royal Horticultural Society have recently granted their First Class Certificate to this fine introduction, in addition to two previous Awards of Merit, a truly migne recognition. This remarkable Bean is strongly recommended as being in every way a great acquisition; it is of very compact growth, the foliage of an attractive dark green, and the pods are of medium size. The most important features are the prolonged period this variety continues to bear, and its remarkable quality for withstanding hot and dry seasons. Pods were picked in our Testing Grounds earlier than other varieties, and young tender beans were gathered after most other sorts were quite finished. We exhibited about 50 pots of French Beans at an early Angust meeting of the R.H.S., the most favourably discussed being Carters Perpetual, shown as seedling No. 249.

Per packet, 1/-; per pint, 2/6

NOVELTY.

Sunrise, Carters. For forcing or out-

NOVELTY.

Surrise, Carters. For forcing or outdoors. A distinct and valuable first carly Dwarf French Bean raised at our Carters Perpetual. Carters Sunrise is a most valuable addition, for it not or ly possesses the good forcing quality of the Ne Plus Ultra, but is a much better cropper, and produces larger and superior pods; very compact growth and remarkably early. Award of Merit, R.H.S., 1913, and confirmed by the Society, July, 1914. (See Photograph.) Per pkt. II; per pint, 2/6

White Model, Carters.—The earliest of

All the white-seeded varieties. The earnest or all the white-seeded varieties. The result of a cross between Carters Startise and Improved Longsword. Habit compact, pods long, straight, and excellent quality, a remarkable good forcing variety, and a truly refined Bean. A great improvement on White Advancer. (See Photograph.)

STRINGLESS VARIETIES.

88 Canadian Glory, Carters Stringless.—An extra early dwarf green-podded French Bean, possessing the invaluable quality of bearing pods absolutely without strings or threads. It is equally valuable caten as a Flageolet or Haricot, as on the Continent. (See Photograph.)

Per 2-pint, 1/2; per pint, 2/-; per quart, 3/9

Holborn Wonder, Carters Stringless.—The great success which has attended our introduction of the first stringless Green-podded Bean, Carters Canadian Glory, has encouraged us to pursue our efforts in selecting Stringless Beans for general use. Our Holborn Wonder will be found to be free from threads, is quite distinct and very prolific. (See Photograph.)

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/9

CLIMBING FRENCH BEANS.

Hints on Culture.—Sow in pots under glass wherever wanted, transplant in prepared beds for training, or grow on in larger pots. For outdoor culture they must not be sown until May is well in--very similar to Scarlet Runners, only that they do not grow quite so robust and do

climbing stringless variety which we strongly recommend. It bears round pods so freely produced that we have connted as many as forty on a stalk. It holds well to the sticks, and is the carliest Bean we know. The R.H.S., reporting its trials at Wisley, says:—"Cartrass Juw Climmus Ferrent Bran.—Flower white, height 3 (t., foliage dark green, pods long, thin, straight, averaging 6 in, in length, usually in pairs; good crop; pods stringless." (See Photograph.)

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/9

109 Re-selected Climbing French Beans, Carters.—The best of all the climbing long-podded varieties, particularly hardy, climbs well; pods long, straight, and resemble Canadian Wonder. Altogether an excellent variety of very robust habit.

Per $\frac{1}{2}$ -pint, 1/2; per pint, 2/-; per quart, 3/9

Carters Special Collections of Garden Peas.

See page 39.

RUNNER BEANS.

FRENCH-Haricots à rames.

The Cultivation of Runner Beaus.—Runner Beaus should be planted out of doors during May, followed by successional sowings at intervals of a fortnight; by this means an abundant supply is provided until the plants are destroyed by the antimu frosts. Care should be taken when planting that sufficient space is allowed between the rows (say 3 feet), and 12 inches from plant to plant in the rows, and the plants should be well-watered in dry weather or the flowers will drop off.—If slngs are troublesome during the young stage of growth, dust over with

25 Champion Scarlet Runner, Carters.—A great improvement upon the old type, producing a great profusion of large beans of splendid flavour.

Per ½-pint, 1/3; per pint, 2/3; per quart, 4/-

- 119 **Elephant Runner, Carters.**—A large handsome type with fleshy pods, very long, and borne in the greatest profusion; very popular. Per 2-pint, 1/3; per pint, 2/3; per quart, 4/-
- 127 **Giant White Runner.**—Pods of good substance. Per ½-pint, 1/-; per pint, 1/9; per quart, 3/-

- 124 Jubilec Runner, Carters (The Largest Podded White-Seld) is Rynner Bran Grown).—This extraordinary Bean still remains one of the Best. Carters Jubilec Runner produces an enormous crop of immense pods, which are thick and musually fleshy, the flavour being all that is desired. 165 First Prizes reported by enstoners.
- Per 2-piut, 1/3; per piut, 2/3; per quart, 4/-126 Mont d'Or Golden Butter.—Early and very productive; the thick and fleshy pods of pale sulphur colour are quite stringless and very tender. First Class Certificate, R.H.S. Per ½-pint, 1/3; per pint, 2/3; per quart, 4/-

For Carters Scarlet Emperor and other Runner Beans, please see page 9.

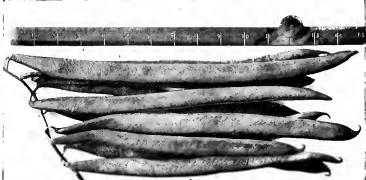

The above are packed in 6d. 1/- and 1/6 packets

and in other quantities as above.

RUNNER BEANS—Continued.

No. 120 Ne Plus Ultra.—A prolific popular market garden variety, bearing long good-shaped pods of superior quality.

Per ½-pint, 1/3; per pint, 2/3; per quart, 4/122 Painted Lady.—Distinct both in colour of seed and flower.

A fine re-selected stock, bearing splendid large pods, Per ½-pint, 1/3; per pint, 2/3; per quart, 4/-

123 Red Giant, Cartors (THE LARGEST AND LONGIST PODDED RUNNER BEAN IN THE WORLD).-This grand variety was offered by us some few seasons back as being even larger podded than our famous Scarlet Emperor; in consequence we had a great demand, and we have been able to publish, through the courtesy demand, and we have been able to publish, through the courtesy of many of the leading gardeners, appreciative opinions from various parts of the country, all endorsing the great merits of this line Bean. We are confident that, once grown, other varieties will speedily be displaced, as Red Giant is not only the largest podded, but also the most prolific and early variety in commerce. We must, however, point out that it is not quite so smooth skinned as our Scarlet Emperor. (See Photograph.)

"Carters Red Giant.—I consider this Bean equal to anything on the market. It produces handsome pods fit for exhibition, is a very heavy cropper, and its table qualities are first class."—Mr. H. W. Blake, Head Gardener to The Right Hon, The Earl of Onslow."

"Red Giant Runner Bean.—This fine Runner Bean has again

"Red Giant Runner Beau.—This fine Runner Bean has again this season proved its worth and kept its already high standard as a line setter and a heavy cropper. The clusters have been very large and pods handsome, being very straight, many measuring 14 in. long. It is much larger than Scarlel Emperor, and the tradecess of the meter larger than Scarlel Emperor, and the

14 in. long. It is much larger than Scarlet Emperor, and the teuderness of the pods is most noticeable, and I have no hesitation in saying that it is a most remarkable bean of recent introduction. —Mr. Quanton, Head Gardener to The Right Hon, Viscount Middeton. Per pkt., 17-; per pint, 2/6; per quart, 4/6 11 Scarlet Emperor, Carters. (The Long Smooth-Podded Scarlet Emperor, Carters, (The Long Smooth-Podded Scarlet Runner).—Fully maintains its great reputation, and its popularity still increases, as our sales strikingly show, Reports, and our enstomers' appreciation of this striking Bean, still endorse the experts' opinion previously issued. At the Exhibitions Scarlet Emperor is still the favourite Runner Bean.

and our records of first prizes gained all over the country confirm the first season's report as being the finest Scarlet Runner introduced. Not only is this Bean of the utmost importance as a prizewinner, but its smooth and tender texture places it far above all other Scarlet Runners. Its long handsome pods, often measuring 15½ inches, hang in great clusters, and it has been estimated that the produce from Carlers Scarlet Emberor is twice as great in bulk as may be expected from the ordinary type of Scarlet Runner, and all of the most refined quality. 602 First Prizes reported. (See Photograph.)

"I have given an extended trial to Carlers Scarlet Emperor this season, and I am pleased to say that it has more than ever

this season, and I am pleased to say that it has more than ever borne out the good opinion I had of it last season. It is a splendid cropper, with long narrow pods, with a splendid dark green colour. It also has much less of the coarse skin usual in Runner Beaus."—Mr. JAMES GUSSON, Head Gardener to His Grace The Duke of Portland.

"I am more than pleased with your Scarlet Emperor Bean. I never saw anything like it before; it is exactly as you describe it in your catalogue."—Mr. J. King, Head Gardener to The Right Hon. the Farl of Eddon.

NOTE.—Our stock is rigidly selected and only grown under our own special supervision, we therefore warn our custamers against the many substitutions now on the market. Per pkt, 1/-; per pint, 2/6; per quart, 4/6

129 **Scarlet Runner.**—The old variety, Per ½-pint, 1/-; per pint, 1/9; per quart, 3/-

NOVELTY.

White Monarch, Carters (WHITE

NOVELTY.

SEEDED). We are now in a position to offer a white selection from our well-known Scarlet Emperor Runner Bean; it is a counterpart of this celebrated variety, and is introduced for those who prefer a White-seeded Runner to the scarlet varieties. It is remarkably prolific and maturally a good exhibition variety. Stock very limited.

"Remarkably strong grower, wonderfully prolific, immense fleshy pods and second to none in flavour; a decided advance among white-seeded varieties,"—Mr. W. Hedley Warren, Aston Clinton.

BEET.

French-Betterave potagère.

The Cultivation of Garden Beet.—The round varieties required for early use should be sown under cover in February. The main crop should be sown the last week in April on ground that has been well trenched and manned. Let the rows be about $1\frac{1}{2}$ ft, apart, thin them to allow about 9 inches between the plants, and keep the soil well stirred with the hoc during the summer.

EDIBLE-LEAVED.

8 Scakale or Silver.—An improved type of a delicions vegetable; in reality, a Beet in which cultivation has developed the leaves instead of the root. It is sown at the same season as Beetroot—in April, in rows about 1½ ft. apart, and the plants thinned ont to about 1½ ft. apart. At the end of summer they may be lifted as required, the green portion of the leaves ent off and the fleshy stems boiled and served with sance, like Scakale.

Per pkt., -/6, 1/- and 1/6

21 Spinach (Edible-leaved).-Leaves thrown up in profusion, and largely used as a substitute for Spinach. Per pkt., -/6; per oz., 1/-

LONG BEET.

13 Blood Red, Carters.-A line long variety, with well-shaped roots of splendid deep colour and of good flavour. Per pkt., -/6 and 1/-; per oz., 1/6

22 Cheltenham Green Top.—Green leaves, with line bright red roots; long variety. Per pkt., -/6 and 1/-; per oz., t/3 red roots: long variety.

Per pkt., -/6 and 1/-; per oz., 1/3

Dainty, Carters.—This is a small-growing variety of more diplean ordinary merit. It has long slender roots of a splendid deep crimson colour, and of the finest flavour possible. In naming it Dainty, we wish to convey the extremely refined of offiction. Included in four Gold Medal Exhibits during 1913, and three Gold Medal Exhibits in 1914.

Per pkt., -/6, 1/- and 1/6; per oz., 1/9

18 Dell's Dark-leaved.—Splendid deep rich-coloured root. I saves of dark and glossy appearance; long variety.

Per pkt., -/6 and 1/-; per oz., 1/3

Long Red, Carters.—Rich in colour and flavour.

Per pkt., -/6 and 1/-; per oz., 1/3

12 Perfection, Carters.—We continue to reselect this fine Beet, which is now a perfect and refined root. The best long Beet in cultivation: medium size, rich crimson lake colour, and

which is now a perfect and refined root. The best long Bect in enlivation: medium size, rich erimson lake colonr, and splendid flavour; foliage shining and dark. Carters Perfection is a magnificent show variety and figures prominently at all the principal vegetable exhibits throughout the country. Included in three Gold Medal Exhibits during 1914. 87 First Prizes were also reported from enstoners the same year,—"CARTERS PERFICCION.—A very choice variety of excellent flavour and colour; an all-round meritorious variety for exhibition."—W. HEDLEY WARREN, The Gardens, Aston Chinton.

Per pkt., -/6, 1/- and 1/6; per oz., 1/9

ORNAMENTAL.

16 Brazilian.-Grown for its handsome ornamental foliage.

Per pkt., -/6 and 1/-; per oz., 1/3 11 Croton-leaved Beet.—A decided acquisition to the group of decorative Beets, the long, narrow, crimson-bronze leaves having an elegant appearance. For the ribbon border, or as a pot plant for table decoration, it is effective. The roots are edible.

Per pkt., -/6, 1/- and 1/6

9 Flower Garden, Carters.—Dark bronze purple graceful foliage, effective for bedding. Per pkt., -/6 and 1/-; per oz., 1/3

10 Ornamental Foliaged Bect. —An interesting species for decoration in the flower garden. The thick fleshy ribs are beautifully coloured, either yellow, eriuson, cream, or white, and the contrast with the shining green leafage is very effective.

Per pkt., -/6, 1/- and 1/6

ROUND BEET.

6 Crimson Ball, Carters.—Awarded the First Class Certificate of the Royal Horticultural Society. A round summer variety, The roots are ready for use in the summer salads. Round Beets are of the greatest value on account of earliness. The roots can be lifted during the height of the summer season when salads be lifted during the height of the summer season when salads are in demand; and the fresh taste imparted by the highly-colonred slices is considered preferable to that from stored roots. The old-fashioned flat types were never in favour with cooks, because of their weak colour and stringy texture. In Carters Crimson Ball these defects have been remedied. Fine specimens of this variety have been exhibited in Gold Medal Collections at Shrewsbury and elsewhere during the past few seasons. 65 First Prizes reported in open competition during 1914. (See Photograph). Per pkt. -/6, 1/- and 1/6; per oz., 1/9

19 Egyptian Turnip-rooted.—Good stock; useful for shallow sails.

Per pkt., -/6; per oz., 1/-

26 Round, Carters.-A good early Beet. Per pkt., -/6 and 1/-; per oz., 1/3

SUGAR BEET.

Requires the same treatment and cultivation as the ordinary garden varieties.

BORECOLE OR KALE.

PRINCH-Chou fried

The Cultivation of Kale.—Sow the seed in March for early winter crop, and again in April for main winter crop. Transplant as soon as ready in summer, about 2 feet apart, into good soil, made firm and highly manured.

206 Asparagus Kale.—The long thin shoots produced on the plant in early spring make a delicious dish.

Per pkt., -/6, 1/-, and 1/6

- 210 **Chou de Milan.**—Similar to *Cottager's Kale*, with white ribs. Per pkt., -/6; per oz., -/10
- 203 Cottager's Kale. Very hardy, of tall, robust growth, throws Cottagers Kale.—very mardy, of tall, roomst growth, throws a great profusion of side shoots, of splendid quality. Award of Merit, R.H.S.

 Per pkt., -/6; per ox., 1/-
- 208 **Curled, Carters.**—Dwarf; superbly curled, Per pkt., -/6 and 1/-; per oz., 1/3

- 202 Drumhead Kale, Carters.—A valuable winter vegetable with a solid cabbage-like head. Onite delicious when cooked. We received an Award of Merit from the Royal Hortentural Society for this Kale. Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
- 200 Dwarf Extra Curled Kale, Carters.-Award of Merit, R.H.S., after trial at Wisley. A re-selected and crested form of the Early Kale so popular in the North. It will resist the most intense frost, and makes a delicions winter dish. (See Photograph.)

 Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
- 211 Dwarf Green Curled.—For general use

Per pkt., -/6 and 1/-; per oz., 1/3

- 201 Half Tall Scotch Kale, Carters.-A fitting companion to our well-known Deeurf Extra Curled type. The leaves are very deuse and moss curled, Stands the coldest weather, and the greater the frost the more delicate the leaves eat. If the leaves at the top are ent during the early part of the winter, it will greatly encourage the growth of the young shoots upon the stem. See Photograph.) Per pkt., -/6 and 1/-; per oz., 1/3
- 212 Imperial Hearting.—Hardy, with compact heads. Per pkt., -/6 and 1/-; per oz., 1/3

- No.
 207 Improved Garnishing Kale, Carters:—A valuable winter vegetable; produces a variety of distinct and beautiful shades of colour in its variously tinted leaves that are useful for decorative purposes.

 Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
- 213 Jersey Tree.-Tall and curious, with stems of such toughness that in Jersey they are often made into walking-sticks.

 Per pkt., -/6; per oz., -/10
- 204 Mammoth Tall Scotch Kale, Carters -A very robust variety, suitable for large establishments where quantities of winter green-stuffs are needed. Per pkt., -/6 and 1/-; per ox., 1/3
- 205 **Purple Plume Kale, Carters.**—Leaves of a rich purple, very tall and handsome; a useful vegetable as a winter dish or for garnishing.

 Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
- 198 Russian Kale, Carters (Chou de Russie).-Award of Merit and First Class Certificate after trial at Wisley. This distinct and extremely hardy variety stood the exceptionally severe winter better than any other variety grown; the leaves are very curious, in form somewhat resembling a deer's antler, of singularly thick substance, and of a peculiarly green colour. When cooked this is the most delicious variety of Kale which we have ever tried, the young shoots especially being particularly delicate in flavour. (See Photograph.)

"Foliage of a dark green nature, short and sturdy, producing large quantities of sprouts; when cooked are delicions. It stands the winter better than most of the better known Kales, and should be grown everywhere,"—Mr. Quanton, Head Gardener to the Right Hon. Viscount Midleton.

Per pkt., -/6, 1/-, and 1/6

209 Tall Green Curled, Carters.—Densely curled,

Per pkt., -/6; per oz., 1/-

215 Thousand Headed.-I,oose headed; great profusion of Per oz -/6

BROCCOLI.

FRENCH-Chou Brocoli.

The Cultivation of Broccoli.—For the earliest crop a sowing is requisite the beginning of March, and a little protection may be necessary for the seed-beds. Successional sowings should follow up to June. Prick out into a prepared bed when strong enough, and when thoroughly established in summer transplant to permanent quarters, the earliest kinds first, to produce a constant supply of heads, according to the variety, until Cauliflowers are ready in July the following season. The soil should be deeply dug, well manured, and in good tilth and firm before transplanting.

THE TWO BEST VARIETIES FOR CUTTING FROM SEPTEMBER TO CHRISTMAS.

- 232 **Autumn, Carters.**—The earliest white close-headed variety. Comes in after early Cauliflower and before winter Broccoli. (See Photograph). Per pkt., -/b, 1/-, and 1/b; per oz., 2/b
- 233 Sandringham Winter White, Carters.-A choice re-

selected stock of Snow's Broccoli, which we strongly recommend to our customers. The heads, which attain a good size, are of a very compact growth and beautifully white.

Per pkt., -/6, 1/-, and 1/6; per oz., 2/6

STANDARD VARIETIES FOR AUTUMN AND EARLY WINTER CUTTING.

- 235 Veiteh's Self-Protecting.-Rarly variety, with good hearting quality. Per pkt., -/6, I/-, and I/6; per oz., 2/6
- 236 Walcheren.-One of the earliest; fine heads. Per pkt , -/6, 1/-, and 1/6; per oz., 2/6

VARIETIES FOR CUTTING FROM CHRISTMAS TO APRIL.

- 241 Mammoth Spring White, Carters.—Follows Carters Winter. A very pure white of remarkable constitution; does well on all soils. We have no hesitation in saying that this is one of the largest as well as the best varieties grown, and attains
- greater popularity each season. The heads are snow-white and
- of the finest texture. (See Photograph.)

 Per pkt., -/6, 1/-, and 1/6; per oz., 2/3

 240 Winter, Carters.—This most reliable variety follows Carters Sandringham Winter White

Per pkt., -/6, 1/-, and 1/6; per oz., 2/3

STANDARD VARIETIES FOR LATE WINTER AND EARLY SPRING.

- 246 Adam's Early White.—Produces fine heads, pure, compact, and firm. Per pkt., -/6 and 1/-; per oz., 1/6
- 248 Covent Garden Early.—Largely grown for market; good solid heads.

 Per pkt., -/6 and 1/-; per oz., 1/6
 251 Knight's Protecting.—An old favourite; heads of large size
- and good shape. Per pkt., -/6 and 1/-; per oz., 1/6

 253 **Learnington.**—An old and popular sort; firm white heads.
 Per pkt., -/6 and 1/-; per oz., 1/6
- 254 **Penzance Early.**—Largely grown in South-West of England.

 Per pkt., -/6 and 1/-; per oz., 1/6
 245 **Snow's Winter White.**—A valuable midwinter variety, very
- constant, excepting when the season runs out of its usual character, when the head may be later in reaching maturity. Per pkt., -/6, 1/- and 1/6; per oz., 2/6

The List of Broccoli is continued on page 13.

BROCCOLI—Continued.

LATE SPRING AND SUMMER VARIETIES FOR CUTTING FROM APRIL TO JUNE.

- 261 **Champion, Cartors.**—We introduced this variety some years ago: it is of sterling merit and steadily grows in favour. Grows to a large size, and is of very hard, compact habit
- Per pkt., -/6, 1/-, and 1/6; per oz., 2/-260 Late Oueen.-One of the best in late section, of very hardy and compact growth, producing medium-sized white heads.
- Per pkt., -/6, 1/-, and 1/6; per oz., 2/-267 **Model.**—Medium sized white heads, hardy and dwarf habit, Per pkt., -/6, 1/-, and 1/6; per oz., 2/-

- No.
 262 Summer, Carters.—This variety is strongly recommended to growers of late Broccoli. It is extremely hardy and will withstand the most intense frosts. The heads are of superb quality; white, close, and compact. Per pkt., -/6, 1/-, and 1/6; per oz., 2/6
- 263 Universal Protecting, Carters, Between a Broccoli and a Cauliflower, coming in during summer after the latest Broccoli and before the earliest Cauliflower. It produces large heads, compact and pure white. This is a remarkable introduction. compact and pure white. 'I'l Stands longer than any other, Per pkt., -/6, 1/- and 1/6

SPROUTING BROCCOLL

- 271 Improved Early Purple Sprouting, Carters.—This variety is fit considerably earlier than the Purple Spronting generally grown, and throws up a great profusion of Spronts, fit for use at Christmas. Per pkt.,—16 and 1/—; per oz., 1/6
- 273 Purplo Sprouting.—A fine stock of the ordinary variety, ready for cutting in April. Should be largely grown, as it matures when green vegetables are scarce. Per pkt., -/6 and I/-; per co., I/3
 274 Whito Sprouting.—Good stock, producing large quantity of
- Per pkt., -/6 aud 1/-; per oz., 1/3

WE CAN STRONGLY RECOMMEND THE FOLLOWING SELECTIONS OF BROCCOLI:-

- 278 8 pkts., in 8 best sorts, for succession—our selection, 3/6 279 4 pkts., in 4 best sorts, for succession—our selection, 1/9
- 280 8 oz., in 8 best sorts, for succession—our selection, 13/-281 4 oz., in 8 best sorts, for succession—our selecton, 7/-

BRUSSELS SPROUTS.

The Cultivation of Brussels Sprouts.—Sow the seeds early in March for first crop, and late in April for succession, transplant in summer into good ground made thoroughly firm, when the plants are large enough to handle, and keep stirred with the hoe through the dry weather. The Spronts are fit for gathering after they have been under the influence of a hard frost, which makes them tender eating. Some growers make a sowing in August to get early Sprouts.

- 224 Aigburth.-Medium height. Sprouts of good size and colour Per pkt., -/6 and 1/~; per oz., 1/3
- Per pkt., -/6 and I/-; per oz., I/3

 221 Holborn Exhibition, Carters.—A very fine strain, the result of many years' careful selection. Its points for size, colour, and productiveness are good all round. Besides being largely grown in private gardens, it is a special favourite with many of our best known market growers. It is of medium height with large solid spronts. The Royal Horticultural Society's report reads:— CARTERS NEW EXHIBITION.—Plants 2 feet high, sturdy, producing a mass of medium-sized hard spronts from base to crown." (See Photograph.)

 Per pkt., -/6, 1/-, and 1/6; per oz., 1/9

- "I am picking some of the finest Brussels Sprouts from your Exhibition variety that I ever saw. I have a bed of about 350 plants, which are a perfect picture, quite equal to the illustration in your catalogue,"—Mr. W. EDWARDS, Head Gardener to G. Coleman, Esq.
- 223 Perfection, Carters.—Perfection in every way. A standard variety for general use, producing large and firm sprouts in great abundance. As a late sprout it is much appreciated. It is a taller growing variety than our exhibition strain. (See Photograph.)

 Per pkt., -/6, 1/-, and 1/6; per oz., 1/9
 222 Serymger's Giant—Tall-growing variety, producing sprouts of good quality and large size.

 Per pkt., -/6; per oz., 1/-

CABBAGE.

FRENCH-Chon pommé

The Cultivation of Cabbage.—By a little careful prangement Cabbages can be had almost all the year round. An early variety sown in The Cuttivation of Cabbage.—By a little careful "trangement Cabbages can be had almost all the year round. An early variety sown in the spring will come into use in the summer: a main crop variety sown in the spring will come in during summer or autumn. Sowings made during July of Carters Rosette Colewort will come into use during autumn, whilst sowings made towards the end of Angust will be fit for cutting in the spring. July sowings of a Cabbage intended for spring cutting often bolt, whereas the same variety sown at end of August stands well. Cabbages require a rich, deeply dug, and well-drained soil. When lanted ont they should stand 15 to 20 in. apart, according to habit and growth of the variety. Do not plant in freshly dug ground, as the hearts are more solid and compact when grown in firm soil.

CARTERS SELECTED EARLY VARIETIES.

Sp signifies for spring sowing; A for autumn sowing.

- 289 Early Heartwell, Carters (Sp. A). An early Marrow Cabbage of refined quality and delicate flavour; without doubt one of the best varieties in cultivation. Sown in spring will be fit to cut in summer. Sown in August will be fit to cut in April and May. (See Photograph.) Per pkt., -/6 and 1/-: per oz., 1/6
- 292 Early Offenham (Sp. A).-Carters selected. One of the best early varieties, producing large firm heads.

 Per pkt., -/6 and 1/-; per oz., 1/3
- 291 **Early York, Carters** (Sp).—Of dwarf, compact habit, small heads, and quick growth.

 Per pkt., -/6; per oz., 1/-297 **Ellam's Early** (Sp. A),—Early, of dwarf compact habit; is largely grown in all parts of the country; hearts of good quality and excellent flavour. Per pkt., -/6 and 1/-; per oz., 1/3
- 298 Flower of Spring (A).-Compact, with full heart and splendid Per pkt., -/6 and 1/-; per oz., 1/3 flavour.

- 299 **Mein's No. 1** (Sp. A).—A well-known variety, of large size. Per pkt., -/6 and 1/-; per oz., 1/3
- 296 Model, Carters (Sp).—As a succession to Carters Heartwell this is a useful variety. Its heads are firm and compact, and come close to the ground. (See Photograph.)
 - Per pkt., -/6 and 1/-; per oz., 1/6
- 294 Pioneer, Carters (Sp. A).-A valuable early Cabbage, rather larger than our Springtide, maturing a few weeks later and forming a valuable succession to that variety. At excellent type for main crop where medium size and first-class quality are desired. (See Photograph.) Per pkt., -/6 and 1/-; per oz., 1/6
- 288 Springtide, Carters (Sp. A) .- A dwarf variety, maturing in April or even earlier in favourable seasons, when Cabbage forms such a valuable addition to the table. The hearts are of perfect form and llavour. This choice little variety is practically all heart. There being few ontside leaves, almost the whole plant can be used. (See Photograph.) Per pkt., -/6 and 1/-; per oz., 1/6

CARTERS MAINCROP CABBAGE.

- 303 Christmas Drumhead (Sp).—A small solid-hearted variety, largely grown by market gardeners. Owing to its con .oact habit this variety can be grown close together. Remains in season over a very long period. Per pkt., –/6 and 1/-; per oz. 1/3
- 313 Cocoanut, Carters (Sp).—Small and early; compact habit and delicate flavour. Per pkt., -/6 and 1/-; per oz., 1/3 Seffeld Market (Sp).—This old and popular variety is still largely grown; compact and firm. Per pkt., -/6; per oz., 1/largely grown; compact and firm.

The List of Cabbage is continued on page 15.

The above are packed in 6d. 1/- and 1/6 packets and in other quantities as above.

CABBAGE—Continued.

CARTERS MAINCROP VARIETIES—Continued.

304 Mammoth Beefheart, Carters (Sp.A).—The finest antimin 304 Mammoth Beefheart, Carters (Sp.A).—The finest autumn garden Cabbage grown. Each season it becomes more popular, and we confidently recommend this highly selected strain as being not only the largest, but one with the least tendency to bolt. Sown in spring it gives splendid heavy heads during summer and autumn, or when sown in Angust fine heads may be expected in the late spring. It is much more robust and, hardy than many of the small varieties now recommended for early summer use. No less than 48 First Prizes were reported to us by our customers in 1914. (See Photograph.)

Per pkt.,—16 and 1/-; per oz., 1/6

311 Miniature Drumhead, Carters (Sp).—A small, globular shaped garden Cabbage of delicate flavour and good colour. Although called Drumhead from its shape, it is quite distinct from the field Cabbage. Valuable for small gardens where only one sort is grown. The lants may be set very close together.

one sort is grown. The plants may be set very close together.

Per pkt., -/6 and 1/-; per oz., 1/6

No. 317 **Nonparci**l (Sp. A).—Carters re-selected. A good stock. Per pkt., -/6 and 1/-; per oz., 1/3

312 Summer, Carters (Sp.).—One of the largest headed varieties: very white hearts good flavour. (See Photograph.)
Per pkt., -/6 and 1/-; per oz., 1/3

315 Wheeler's Imperial (Selected Stock) (Sp).—A splendid dwarf Cabbage, with very solid hearts of good mild flavour. One of the best maincrop kinds. This select stock is far in advance of the variety frequently sold as Wheeler's Imperial.

Per pkt., -/6 and 1/-/; per oz., 1/3

305 White Prizetaker, Carters (Sp).—Short leaves and white heart; strongly recommended for autumn use; flavour exceptionally mild. (See Photograph.) Per pkt., -/6 and 1/-; per oz., 1/6

PICKLING CABBAGE.

310 Red Pickling, Carters (Sp) .- This is the most perfect type of Red Cabbage; the hearts being very hard and compact and of a rich deep crimson, the colour also of the outer leaves being much darker than any other variety we know. (See Photograph.)

Per pkt., -/6 and 1/-; per oz., 1/6 319 Large Blood-red, Carters (Sp),—A fine large-headed pickling variety. Per pkt., -/6 and 1/-; per oz., 1/3 pickling variety.

SAVOY CABBAGE.

SAVOY, COLEWORT, COUVE TRONCHUDA.

SAVUT, GULEWUKI

339 NOVELTY. Cartereone.—This small perfectly-shaped savoy was very favourably, commented upon when included in our exhibit of and the Vegetable Committee recommended it for further trial a Wisley. The heart is a perfect cone in shape, whilst its absolute freedom from coarseness ensures its success for table use. Cartercone is a very refined type. Although maturing early, it stands over a very long period and is not liable to burst, as are many of the ordinary types. (See Photograph.)

Per pkt., -/6 and 1/-; per oz., 1/6

340 Drumhead, Carters.—Good stock; large hearting variety.

Per pkt., -/6; per oz., 1/
341 Dwarf Green Curled.—Very compact and hardy; one of the best for general use.

best for general use.

344 Early Dwarf Ulm, Carters.—A fine re-selected stock of this popular Savoy. Extremely early, good flavoured, and very hardy.

Per pkt., -/6 and 1/-; per oz., 1/6

343 **Giant Green, Carters.**—An improved type of Savoy with crimped foliage; the individual leaves are very large, but retain their tender properties longer than any other variety. (See *Photograph.*)

Per pkt.,—16 and 1/-; per oz., 1/3 Photograph.)

345 Tom Thumb, Carters Re-selected.-An exceptionally IOM INUMB, CARTERS RE-SCIECTED.—An exceptionally fine-grained type, with a compact heart. Very carly. The Royal Horticultural Society's report at Wisley:—"CARTERS RESELECTED TOM THUMB SAVOY.—A good stock of this dwarf, compact, early, well-known old variety."

Per pkt., -/6 and 1/-: per oz., 1/9

COLEWORT AND COUVE TRONCHUDA.

356 Couve Tronchuda, Portugal, or Sea Kale Cabbage.—
The thick fleshy mid-ribs of the largest leaves are sometimes used and prepared in the same manner as Sea Kale.

Per pkt., -/6; per oz., 1/355 Hardy Green Colewort, Carters—Valuable for antumn sowing

Per pkt., -/6; per oz., 1/-

354 Rosette Colewort, Carters.—This valuable Colewort should be given a place in all gardens. Sown in autumn it matures during the winter, and ensures good supplies of succulent greens before Spring Cabbages are fit.

Per pkt., -/6; per oz., 1/-

CARROT.

FRENCH-Carotte.

The Cultivation of Carrot.—For early forcing sow in January in frames, in February on warm border. Make successional and main crop sowings during March and April in deep, well-conditioned soil to which manner has not been recently applied. Cover the seed very lightly in \(\frac{1}{2}\)-in, drills, and as soon as the plants are strong enough to handle, thin out from 4 to 9 in., according to sort. Further sowings may be made up to the end of June.

EARLY VARIETIES.

Forcing Varieties (F).

367 Earliest French Horn (F)
Per pkt., -/6, 1/-, and 1/6; per oz., 2/-366 Early Market, Carters.-Fine early variety of good colour. quick in growth, valuable alike for market gardeners or private use. Splendid specimens were exhibited in our Gold Medal Exhibits at Chelsen and Leannington, 1913; Gold Medal awarded to our collection of Vegetables at York Gala Show, 1914, containing this excellent Carrot. (See Photograph).

CARROT—EARLY VARIETIES—Continued.

No.
365 Long Foreing, Carters (F).—A dainty long Carrot (small), with the same depth of colour and firmness of texture in its earliest stages as other Carrots possess in their later growths. This forcing Carrot is one of the most distinct and valuable that we possess, and when better known it is sure to be extensively grown. "It is the quickest variety that I know of, and makes

No. but very little top, and the quality is excellent. As a Carrot coming into use early in the year, and for exhibition, it is an acquisition."—If. B. in Gardeners' Chronicle. (See Photograph.) Per pkt.,—Is and II—; per oz., 1/6

370 Nantes, stump-rooted.

Per pkt., -/6 and 1/-; per oz., 1/3

MID-SEASON.

376 Summer Favourite, Carters.—Awarded Royal Hortienltural Society's Silver Medal, and included in the Large Gold Medal Exhibit.

Shrewsbury, 1912. A splendid half-long, producing bandsome, well-grown bright cochineal-searlet Carrots very early in the season. The quality is superb, and as an exhibition variety coming into use early it will be found invaluable for showing in the summer months. 67 First Prizes reported to us in one season. Gold Medals were awarded to Carters Exhibits of Vegetables at Cardiff, Eastbourne, and York, 1914, and included Summer Favourite Carrot. (See Photograph.)

Per pkt., -/6 and 1/-; per oz., 1/8

MAINCROP CARROT.

380 Altrineham, Carters.—Green-topped; highly-selected stock.

Per pkt., -/6; per oz., 1/-

385 James' Scarlet Intermediate.—A useful medium-sized Carrot for market and general work.

Per pkt., -/6; per oz., 1/-

383 Long Red Surrey, Carters.—Re-selected stock of the longest Carrot grown; does not, however, possess the quality of newer introductions like Red Elephaut or Searlet Perfection.

Per pkt., -16 and 1/-; per oz., 1/3

382 Long Searlet, Carters.—Splendid long stock of good colour.
Per pkt., -/6: per oz., 1/-

377 Red Elephant, Carters.—A veritable giant, both in length and roundity. Specinens have been exhibited at our establishment measuring two feet and a half in length (30 inches). It has been brought to this high standard of perfection by one of the best professional gardeners, from whom we originally acquired the whole stock. A remarkable variety, and one which has already become prominent in first-class gardens and on the exhibition table. 69 First Prizes reported to us by enstoners in

one year. Tuchided in the Champion Prize Byhibit of Vegetables (open to the world), Shrewsbury, 1912. (See Phatograph.)

Per pkt., -/6 and 1/-; per oz., 1/6

- 379 Scarlet Perfection, Carters.—Awarded a Special Certificate of Merit at the Vegetable Conference of the Royal Horticultural Society and awarded First Prize, R.H.S. Great Antonin Exhibition, 1905; included in the Champion Exhibit of Vegetables (open to the world), and also in the large Gold Medal Exhibit, Shrewsbury, 1912. A distinct and greatly improved form of Garden Carrot. It is midway in length between the Long Scarrey and the well-known Intermediate, with the bright scarlet colour of the Surrey. The flesh is solid, crisp, and fine flavoured. Invaluable alike for table, exhibition, and market purposes. 433 first Prizes reported by customers. (See Photograph).

 Per pkt., -/6 and 1/-; per oz., 1/6
- 378 Selected Intermediate, Carters.—The best type of Per pkt., -/6 and 1/-; per oz., 1/3
- 381 Stump-rooted Intermediate, Carters.—Fine form and colour. Per pkt., -/6 and 1/-; per oz., 4/3

CAULIFLOWER.

FRENCH-Chon-fleur.

The Cultivation of Cauliflower.—Sow in pans on a gentle heat in February and March, to be pricked ont in April on a warm border. Sow in the open in April and May for succession, and again in August for winter and spring use under glass.

FIRST EARLY VARIETIES.

395 **Defiance Forcing, Carters.**—This superb variety is, without doubt, one of the finest forcing varieties ever introduced; produces fine solid heads. In perfection during early summer. (See Photograph.)

Per pkt., -/6, 1/-, 1/6, and 2/6

397 First Crop.—Very early, fine white heads. Per pkt., -/6 1/- and 1/6

393 Forerunner, Carters.—The quickest Cauliflower ever grown.
Ten days earlier than others. Large white head, solid, and good size. Sow in middle of February, transplant when first leaves drop, under glass, plant in open ground end of April or beginning of May, and the first heads will be ready by the middle of June. The leaves protect the head from the summer sum. Included in the First Prize and Champion Exhibit of Vegetables, Shrewsbury, 1912, and also a feature of the Large Gold Medal Exhibit at the same critical meeting. Staged in five Gold Medal Exhibit during 1913 and 1914. (See Photograph.)

Per pkt., -/6, 1/-, 1/6, and 2/6

"Cartees Forerunaer Canliflower is a marvel, I cut fine heads on June 6th, almost like Autuma Giant."—Mr. W. Humpurey, The Gardens, Loampits.

"Carters Forcumer Canliflower was sown on February 1st with Snowball and another well-known early variety. Planted in the open in the third week in April, we commenced to cut compact heads on June 7th. None of the other varieties were near ready. I am unneh impressed with it, and can congratulate you on it as distinct and valuable,"—EDWIN BECKETT, Head Cardener to the Hon, Vicary Gibbs.

The Royal Horticultural Society, reporting its trials at Wisley, says:—"Carters Early Forerunner.—A very early variety of dwarf, compact habit; sturdy, with rather small, solid, handsome, pure white heads."

398 Snowball.—Superb early variety. Per pkt., -/6, 1/-, and 1/6

SECOND EARLY VARIETIES.

406 Dwarf Mammoth, Carters,—One of the best for early work, producing the largest heads.

Per pkt., -/6, 1/-, and 1/6; per oz., 3/-

394 Early Emperor, Carters.—A superb strain for the early summer. A giant Cauliflower for outdoor work, coming in midway between Carters Forenumer and Carters Antuna Giant. The Royal Horticultural Society's report reads:—"CARTERS EARLY EMPEROR.—Plants dwarf, sturdy, with semi-protecting foliage; heads medium to large in size, firm, and of excellent shape."

Per pkt., -/6, 1/, 1/6, and 2/6

408 Early White London.—Useful for general cultivation.

Per pkt., -/6, 1/-, and 1/6; per oz., 3/-

- 404 Extra Early Autumn Giant, Carters.—This magnificent Cmiliflower is more dwarf, considerably earlier, and in every respect better than the old Autuma Giant. It produces enormous snow-white heads, and is admitted to be the largest and the earliest of the giant forms that are of such value during September and October. Our Exhibits of Vegetables at Leannington and Bristol. 1913, were awarded Bold Medals, and contained some splendid specimens of this variety, whilst the Gold Medal Exhibit at Holland House Show was also conspicuous for the very fine heads of this Canliflower it contained. We have records of 343 First Prizes having been won by customers. (See Photograph.) Per pkt...—/6, 1/-, and 1/6; per oz., 4/-
- 405 Mont Blane, Carters.—Magnificent snow-white heads, well protected by the leaves: one of the best for soils of heavy or retentive nature.

 Per pkt., -/6, 1/-, and 1/6

MAIN CROP VARIETIES.

415 Autumn Giant.—Well known. One of the most popular Canliflowers in cultivation, succeeding immediately our Extent Early Autumn Giant; heads of enormous size and fine texture.

Per pkt., -/6, II-, and I/6; per ox., 3/-

417 Eclipse.-Distinct; splendid compact heads.

Per pkt., -/6, 1/-, and 1/6

418 **Walcheren.**—A splendid mid-season variety, with solid large white heads. Per pkt . -/6, 1/-, and 1/6; per ox., 3/6

CELERY.

FRENCH-Céleri.

The Cultivation of Celery.—Sow in February on a mild hotbed for earliest crop, to be pricked out on bottom heat when ready, and transferred to trenches in June. Sow in March in seed pans for main, and in April for late crop. The trenches should be bottomed with rich soil, and the plants liberally watered in Angust; earth up gradually during August and September and commence lifting in November.

WHITE VARIETIES.

429 **Henderson's White Plume.**—Inner leaves being white, little blanching is required.

Per pt f = -/6 t/s and t/6 Per pkt., -/6, 1/-, and 1/6

426 Sandringham Dwarf White, Carters.-Dwarf habit, solid, sweet and nutty flavour, Per pkt., -/6, I/-, and 1/6

424 Solid Ivory, Carters.—One of the most remarkable features of Carters Solid Ivory Celery is its extreme dwarf compact habit and beautiful white colour. If the heads are tied with a little rough matting, the same as with Cos Lettnees, it will assist not only in keeping the Celery perfect, but also to exclude superabundant moisture. We have records of no less

than 412 First Prizes awarded this variety during the past few seasons in open competition. A feature of our greatly admired Exhibit of Vegetables at Cardiff, 1914, which was awarded the Large Gold Medal. Heads of Carters Solid Ivory were conspicuous in the following Gold Medal Exhibits:—Chelsea, Leamington, Holland House, and Bristol Shows, 1913. (See Photograph.)

427 White Celery, Carters.—A select stock producing very large heads of good flavour.

428 Wright's Grove Giant White.—Large growing; of fine, per pkt., -/6, I/-, and I/6

442 Giant Pink, Carters.—A superb large-growing variety, specially recommended for Exhibition. Heads of this variety formed part of the Champion Exhibit of Vegetables topen to the world). Shrewsbury, 1912, and it was also included in the Large Gold Medal Exhibit at the same Show, being greatly admired. During 1913 it was included in three separate Gold Medal Exhibits of Carters Vegetables. (See Photograph).

Per pkt., -/6, 1/-, and 1/6

440 Incomparable Crimson Celery. Carters.—A dwarfgrowing, rich coloured Celery, of clean and refined appearance, very crisp eating, and of delicious flavour. 242 First Prizes reported during the past few seasons. This fine variety was exhibited in no less than four Gold Medal Exhibits of Carters Vegetables during 1913. (See Photograph.)

Per pkt., -/6, 1/-, and 1/6

Per pkt. -/6. I/- and I/6 444 **Major Clarke's Red.**—Well-known large-growing variety. Per pkt., -/6, 1/-, and 1/6 441 Standard Bearer.—The finest type of Giant Red Celery that we know of. First Class Certificate, R.H.S. Some grand heads were included in the First Prize Collection of Vegetables at the Royal Horticultural Society, October, 1905. and this variety also gained the first prize in the open class for Celery at Shrewsbury.

45 First Prizes reported by enstoners during 1914. Splendid specimens were also included in the Gold Medal Collection of Vegetables at the Horticultural Society's Holland House Show, 1913, and in Carters Gold Medal Exhibit at Leanington.

Per pkt. _-/6 1/- and 1/6

Per pkt., -/6, 1/-, and 1/6

- 446 Sulham Prize.-Pink variety of good close habit; crisp and sweet flavoured. Per pkt., -/6, 1/-, and 1/6
- 448 Wright's Grove Red.—One of the best varieties; good firm hearts.

450 Celery Seed for flavouring somps ... Per 1b., 5/-

TURNIP-ROOTED CELERY.

432 **Celeriae, Carters Improved** (or Turnip-rooted Celery).—Pure white root, refined flavour. Seeds should be sown in pans in March, and the plants set out in shallow trenches to mature.

It is now becoming popular in this country. Per pkt., -/6, 1/- and 1/6 Per pkt., -/6, 1/- and 1/6

CHICORY.

FRENCH-Chicorée.

The Cultivation of Chicory.—Chicory is a leading ingredient in French salads, and the plant is so easily cultivated that it should be more The Cuttivation of Cincory.—Cincory is a leading ingreatent in Frence saidus, and the plant is so easily cintivated that it should be more popular here. The seed is sown in late spring, in a sheltered position on a nice soil, very similar to Carrots, the plants thinned out to about 9 in. apart, and left to grow on mith the end of simmer, when the growth will die down, leaving a root somewhat like a Parsnip. These are taken into a shed and kept in a heap of soil away from frost, and transferred to a hothouse when needed to produce their blanched heads during winter They may also be grown in boxes.

> No. 548 Seed ... Per pkt., -/6, 1/-, and 1/6

Roots for Forcing, Ouly available in Winter. Per doz., 6/6

CORN.

FRUNCH-Mais

The Cultivation of Corn.—Sow thinly during April in boxes in slight heat, harden off in cold frames before planting out at the end of May or beginning of June, in rows 3 ft. apart and 18 in. between plants. Give plenty of water until established in dry seasons,

500 Carters Improved Sweet. This Maize is a favourite Negetable dish in Canada, and we are now able to offer an improved type, acclimatised and saved in this country. The demand is increasing as it is more widely known. The cobs are cooked and served whole, and the peculiar sweet unity flavour is so appreciated that after a trial it will, no doubt, find a permanent place in the kitchen garden. in 2 Gold Medal Exhibits of Carters Vegetables during 1914. (See Photograph.) tchen garden. Included Fer pkt., -/6, 1/-, and 1/6

CRESS.

FRENCH-Cresson.

The Cultivation of Cress.—Use boxes of good fine soil, make the surface flat, and sow the seed rather thickly over the top, just pressing it into the surface, but without using any covering material. After sowing, water it well. Place the box in moist heat, and cover with boards or thick paper until the seed germinates. Use shallow boxes half fled with soil. Frequent successional sowings should be made all the year round. Good results may be obtained out of doors in the summer by preparing beds of fine soil in the same way as recommended for boxes, and covering the seed when sown with boards or mats until it germinates.

*Use.—Cut as soon as ready with a sharp knife.

Watereress may be successfully grown if sown in rows in a shady border and well watered,

541 American or Land Cress Per oz., -/6

540 Curled.-Ordinary stock Per oz., -/4; per piut, 2/-; per quart, 3/6

- 536 Parsley Curled, Carters.—This selection of Curled Garden Cress is comparable with nothing less than a finely Carled Parsley—hence its name; a distinct advance on the Triple Carled. (See Photograph.) Per oz., -/6; per ½-pint, 1/3; per pint, 2/-

539 **Plain or Common.** -For early salads. Per oz., -/4; per pint, 2/-; per quart, 3/6

FRAME CUCUMBER.

FRENCH-Concombre à forcer.

The Cultivation of Frame Cucumber.—Sow in a pot or pan during February or March in heat for summer use, keeping the seed-pan shaded from strong light until the seedlings appear, then transplant to well-prepared hot-bed or other position, when the plants are sufficiently established. If intended for cold-frame culture the plants must not be put out until all danger of frost is past. Sow again in September for whiter use on a hot-bed.

No.

- 458 Cardiff Castle, Carters.—Awarded a Cultural Commendation by the Royal Horticultural Society. The fruit is of a rich emerald colour, perfect in form, growing to a length of about 18 in. It is remarkably free-bearing and very early.
- remarkably free-bearing and very early.

 Per pkt., 1/-, 1/6, and 2/6

 480 Earliest of All, Carters.—Has produced perfect fruit in a trial, nine days in advance of all others. It is of good colour and handsome form.

 Per pkt., 1/-, 1/6, and 2/6
- 459 Ideal, Carters.—Raised by that champion cultivator, Mr. E. Beckett, head gardener to the Hon. Vicary Gibbs. It is quite an aristocratic variety, in colour, shape, and flavour. It gained a Cultural Commendation after growth at Wisley. 12 First Prizes reported by enstomers during 1914. (See Photograph.)
- Per pkt., 1/6, 2/6, and 3/6

 Per pkt., 1/6, 2/6, and 3/6

 1mproved Telegraph, Carters.—Our highly-selected stock is the finest obtainable of this popular variety. Unquestionably one of the best winter Chembers; indispensable for forcing, and a great cropper. Gold Medal, York, 1914.
- 462 **Lockie's Perfection.** A remarkably productive variety, bearing fruit 15 in, in length, perfect models in shape, and of high quality.

No.

- 436 Model, Carters.—Is one of the handsomest Cheumbers grown, embodying the fine form and general characteristics of Tender and Trne with the prolific habit and strong constitution of the Telegraph. Perfect in outline, with scarcely any neck, and of fine flavour, this variety has become popular both for exhibition and table purposes. Splendid specimens of this fine Cucumber were conspicuous in the First and Champion Prize Exhibit of Carters Vegetables fopen to the world) at Shrewsbury. The Large Gold Medal Exhibit at the same Exhibition also contained some remarkable fruit of this variety. Gold Medal, York, 1914. 231 First Prizes reported the past few seasons. (See Photograph.)
 Per pkt., 1/6, 2/6, and 3/6
- 461 Royal Osborne, Carters.—This grand introduction of ours has now become thoroughly established, and as an all-the-yearround variety the professional gardener will find it one of the best. It is very prolific and of a rich deep green colour.

Per pkt., 1/-, 1/6, and 2/6

- 566 Oval-leaved, Carters. The plain-leaved Endives are by some preferred to the carled varieties. This variety is the
- highest type, and we strongly recommend it: it is very hardy, of compact habit and blanches easily,
- Per pkt., -6⁷, 1/-, and 1/6
 587 Round-leaved Batavian, Carters.—Very compact and hardy; forms good heart.

 Per pkt., -6, 1/-, and 1/6
 Per pkt., -6, 1/-, and 1/6

KOHL RABI OR KNOL KHOL.

FRENCH-Chon-rave.

A useful vegetable, not nearly so much cultivated in this country in gardens as it would be were its merits known. Used as a substitute for Turnips, especially in hol dry seasons. The bulb grows entirely but of the ground. Included in our Gold Medal Exhibit at York Gala Show, 1914.

Cultivation.—Prepare a breadth of good well-manned soil. Drill the seeds in rows about 15 in, apart in May, and thin out to about 9 in, apart. They are ready for use when they attain the size of a small Turnip.

Varieties.—There are two varieties in general cultivation, the white and the purple.

583 Earliest Purple, Carters.—Garden Rohl Rabi. Per pkt., -/6, I/-, and 1/6 582 Earliest White, Carters. Garden Kohl Rabi.

No. 624 Carters Jumbo Cos Lettuce.

LEEK.

The Cultivation of Leck—Sow February to April, and transplant into treuches of well-manured soif, say 1 ft. in depth. and 20 in. between the plants. In warm weather liberal dressings of liquid manner will be of service, and the plants should be afterwards carefully earlied up to blanch the stems. For exhibition, sow in January in boxes nuder glass, and transplant early into rich soil,

No.

74 Holborn Model, Carters.—The best both for exhibition and table. The stems are remarkably solid, not quite so long as Carters Selected Musselburgh, of the clearest white colonr, whilst the flavour is exceedingly delicate. It was a conspicuous feature in the First Prize and Champion Exhibit of Vegetables (open to the world), Shrewsbury, 1912; and also included in the Large Gold Medal Exhibit at the same show. Since then it has been conspicuous in many Gold Medal Collections throughout the country. 372 First Prizes reported by enstoners. (See 372 First Prizes reported by customers. (See Per pkt., -/6, 1/-, and 1/6; per oz., 2/6 Photograph.)

639 The Lyon Leek.-A very popular large variety; widely grown in the North, where it takes many of the leading prizes each year.

Per pkt., -/6, 1/-, and 1/6; per oz., 2/-

638 Musselburgh, Carters Selected.—A splendid selection of this well-known and popular variety; grows to large size, and is recommended for exhibition. (See Photograph.) Per pkt., -b, 1/-, and 1/6; per oz., 2/6

642 **Welsh, Carters.**—Fine large variety; great advance npon Welsh ordinary.

Per pkt., -/6 and 1/-; per oz., 1/6

CABBAGE LETTUCE.

FRENCH-Laitue pommée.

The Cultivation of Lettuce. - Eow in pans on a gentle heat in February, and prick out into a well-manured and warm border. Sow again during March in a protected situation out of doors for early use, and in succession to the end of August for late crops. Young and tender plants may be grown in boxes or frames, and pulled and eaten when small; in this form they make a delicate salad. Water liberally in dry and warm

- 593 All the Year Round, Carters. -This is a superb stock, the heads being very solid, white and crisp, and slow to run to seed. Per pkt., -/6 and 1/-; per oz., 1/9
- 594 **Commodore Nutt.**—Compact and early t hearts solid and of good flavour.

 Per pkt., -/6, 1/-, and 1/6 t per ox., 2/6
- 596 **Continuity.**—Distinct brown-tinged variety; useful for hot dry seasons.

 Per pkt., -/6, 1/-, and 1/6
- 597 Early Paris Market.—Quick growing; for frame work is one of the best; distinct-tinted edge. Per pkt., -/6, 1/-, and 1/6
- 599 Endive-leaved, Carters.-This Lettuce is quite distinct. Its leaves are deeply serrated and laciniated, which gives it the appearance of Endive—indeed, a prominent gardener suggested appearance of Mattre-Indeed, a prominer salads, and few could tell that it was not Endive. The Royal Hortieultural Society, reporting its trials at Wisley, says:—"Carture Endive. EAVED.—Leaves beautifully cut and divided; a very handsome variety."

 Per pkt., -/6, I/-, and I/6
- 595 Grand Admiral.-Hardy; grows to good size; recommended for either spring or antumn sowing.
- Per pkt., -/6 and 1/-; per oz., 1/3 591 Green-fringed, Carters.—Of a very deliente and peculiar shade of 'green, inner parts of the leaves being white; the edges are prettily fringed and serrated, the appearance being very striking and pleasing. Useful summer variety. Exhibited in the Gold Medal Exhibit (all Carters Vegetables), R.H.S., Holland Hause show 1004.
- 590 Harbinger Forcing, Carters.—Valuable on account of its extreme earliness. It is not a hearting variety, but being of quick growth produces a quantity of tender leaves, which are so much in request for early salads. Awarded 3 Gold Medals at Chelsea, Holland House, and Cardiff, 1913 and 1914.

House Show, 1913.

Per pkt., -/6, 1/, and 1/6; per oz., 8/-

- 602 Hardy Hammersmith.—The hardiest cubbage variety; for antunu sowing it is invaluable; of compact habit. Per pkt., -/6 and 1/-; per oz., 1/3
- 589 Holborn Standard, Carters.—A Lettice of extraordinary size and duration. It forms well-developed beads in its early stages, and is one of the very last to start for seed. Its leaves are erumpled and crisp, while it is very tender and of excellent flavour, and will provide an abandance of salad during the

hottest of Ruglish summers. 161 First Prizes reported during the past few seasons. The Royal Hortienlural Society, reporting its trials at Wisley, says:—"CARTERS HOLDORN STANDARD.—Hearts large, solid, crisp, good flavonr, with crumpled onter leaves tinged with brown. This variety stood the drought well without running to seed." During 1913 and 1914 our Holborn Standard was included in 6 Gold Medal collections at important Pythibitions. (See Phytograph). Exhibitions. (See Photograph.)

- Per pkt., -/6, 1/-, and 1/6; per oz., 3/604 Improved Drumhead or Malta.—Grows to large size
 colour light green.

 Colour light green.

 Colour light green.
- 607 Mixed Cabbage.-Comprising all the best varieties.
- Per pkt., -/6; per oz., 1/-ariety Deep green, and 614 Perfect Gem.-A very solid-hearted variety Crop failed. very slow to bolt.
- 598 Perpetual, Carters.—Award of Merit, R.H.S. This is a large handsome Cabbage Lettuce, equally suitable for foreing and for handsome Cabbage Lettnee, equally suitable for foreing and for open ground. Its great attraction to us is its resistance to drought. It produces very fine heads of a lively green colour, and retains its crisp and tender flavour to the last, its deeply ermupted leaves giving it great substance. 23 First Prizes reported during 1914. The Royal Horticultural Society, reporting its trials at Wisley, savs:—"Cartras Prapartial.,—Polinge beautifully curled; a fine stock." Some very fine specimens of this variety were contained in the Fon Gold Medal Exhibits of Carters Vegetables during 1913 and three Gold Medal Exhibits in 1914. (See Photograph.) Per pkt.,—[6, 1/-, and 1/6; per oz., 3/-
- 1914. (See Photograph.) Fer pkt., -/6, 1/-, and 1/6; per Oz., 3/1928 Round-leaved, Carters.—A hardy flut-shaped variety that
 ean be sown at almost any season. The heads are very compact
 and firm, solid and white; slow to run to seed. In our own trials
 we have repeatedly seen this variety standing firm when others
 have bolted. This fine Lettnee was included in the Gold Medal
 Exhibits during 1913 at Leamington, Bristol, and Holland House
 Shows.

 Per pkt., -/6, 1/-, and 1/6; per oz., 3/-
- 605 Tom Thumb.-Re-selected; fine stock of au old favourite.
- 605 **Tom Thumb.**—Re-selected; fine stock of au old favourite, Hearts compact, solid, and crisp.

 Per pkt., -/6 and 1/-; per oz., 1/9
 600 **Wayahead.**—A new extra early Cabbage Lettuce with large head; onter leaves light green, heart of light greenish yellow tint. Highly recommended. We exhibited some splendid specimens of this line Lettnee, in conjunction with our other Vegetables, at York Show, 1944, and were awarded the Gold Medal.

 Per pkt., -/6, 1/-, and 1/6; per oz., 3/-

COS LETTUCE.

VEGETABLE MARROW.

FRENCH-Courge à la Moelle

The Cultivation of Vegetable Marrow.—Sow in heat during April, and transplant into bighly-manured bed when ready and all chances of frost are past; or sow under a hand-glass in May upon a righly-manured border.

No

NOVELTY.

Vegotable Marrow — Custard Hybrids. — We have pleasure in announcing that we have secured from Mr. Ilerbert Chapman the whole stock of his new Hybrid Vegetable Marrows, which were manimonsly awarded a Silver Gilt Knightian Medal by the Royal Horticultural Society. These are the result of crossing the Custard Marrow with a small clongated form of superior quality. The distinctive flavour of the Custard parent has been retained in the hybrids, which exhibit a remarkable diversity of form, as shown in the Photograph. It will be found that even those varieties approximating more nearly to the clongated Vegetable Marrow are very much better flavoured. the clongated Vegetable Marrow are very much better flavoured than existing varieties. Our culinary staff are manimous in their praise of the superior flavour of these hybrids.

Crop failed.

657

NOVELTY. Epicure, Carters.—After repeated culinary trials in our kitchens, we consider this one of the best flavoured varieties in in order to enjoy the full flavour, fruit should be cut when about 8 in, in diameter. As a forcing kind it is splendid, and to illustrate its prolific character, we may state that from plants which trate its profine character, we hay state that from plants with started bearing in May we have cut good fruit on September 30tb, the frames having been taken off the plants during June. Fruits are green, flecked with white, habit semi-trailing. (See Photo-

Your Marrow Ebicare is excellent either for forcing or main-Your Marrow Epicure is executed effect for following of mani-crop ontdoors, of superior flavour and exceptionally prolific."— Mr. W. Hedley Warren, The Gardens, Aston Chinton.

"Vegetable Marrow Epicure has a novel shape in this popular

vegetable, a size that should please the critics who require their Marrows eooked whole. It is a dainty stock,"—Mr.W. STRUGNELL. Gardener to N. H. Wills, Esq. Per pkt., -/6, 1/-, and I/6

- 655 Improved Custard.—Curious and ornamental fruit, of fine delicate flavour. Awarded, with Carters other Vegetables, three Gold Medals in 1914. Per pkt., -/6, 1/-, and 1/6
- 667 Large Cream.-Cream-coloured fruit, growing to large size Per pkt., -/6, 1/-, and 1/6
- Long Green Striped, Carters.—A giant prolific variety, the very best for gardens that lie in a bleak and exposed position. Included in two of our Gold Medal Collections, 1914. 664 Long Green Striped, Carters.-(Sec Photograble) Per pkt., -/6, 1/-, and 1/6
- 668 Long White.-For general use Per pkt., -/6, 1/-, and 1/6
- 66) Long Vellow.-Good flavour Per pkt., -/6, 1/- and 1/6
- 662 Moore's Green Striped.-A small green Marrow of excelleut flavour Crop failed.
- 661 Moore's Vegetable Cream.-Fine variety of creamy colour and of deliente flavour. Per nkt. -/6 1/- and 1/8
- 659 Muir's Prolific.-A distinct variety, with small globular fruit, creamy white in colour, and solid flesh. Per pkt., -/6, 1/-, and 1/6
- 660 **Pen-y-byd** (The Best in the World).—A round-fruiting Marrow, creamy-white in colour; very superior. . Per pkt., -/6, 1/-, and 1/6
- 658 Trailing White, Carters.—One of the quickest-growing varieties we know of. The fruit will extend to a great length whilst retaining all the tenderness of small young Marrow (See Photograph.)

 Per pkt., -/6, 1/-, and 1 Per pkt., -/6, 1/-, and 1/6

BUSH OR CLUSTER VARIETIES.

The Bush or Cluster Vegetable Marrow is most useful for small gardens, being compact and economical in the amount of space it takes up.

672 Long Green Bush, Carters.-Fine flavour, compact bushy Per pkt., -/6. 1/-, and I/6 grower.

571 Long Whit > Bush, Carters.—Delicate flavour. Useful for small garden

Per pkt., -/6, 1/-, and 1/6

MELON.

FRENCH-Melon.

The Cultivation of Melon.—Sow for first crop in January, and plant when ready into pits or on slabs filled with good maiden form and well-rotted manner, adding a dressing of fine soil to the surface and bringing the plants as near the light and glass as possible. It is essential that a regular temperature be secured rather than a high degree of heat. Keep a moist bnoyant stheosphere during growth, and give air freely when. Truit is ripening, checking the supply of water to develop flavour. The frame varieties are sown later, and kept under glass until the season is sufficiently advanced for them to be put out on a warm beap of soil in the frame.

GREEN-FLESHED VARIETIES.

703 NOVELTY.

Delicatesse, Carters.—A new green-fleshed round variety. This superb new Melon was sent ont by as for trial during the season 1912 as King George V. It has, however, been remained to prevent confusion with a variety having a similar

remained to prevent continuous with a variety flaving a suma-title. From all quarters we have received most favourable reports, remarking on the excellent constitution of the plants and the delicions flavour of its freely produced and handsomely netted fruits. Visitors to our establishment have been delighted with this variety, which will also produce (ruits of excellent quality when cultivated in frames. (See Photograph.)

Per pkt., 1/6, 2/6, and 3/6

711 Earl's Favourite Moion, Carters.—Awarded the First Class Certificate, Royal Horticultural Society. This fine Molon is a strong grower, free setter, and the fruit is large and beautifully nefted, whilst the flavour has been pronounced by many lovers of this luscions fruit to be the very best possible.

"I thought you would like to see a sample of your Earl's Favourile Melon. They were grown in a cool frame by myself, an amateur. I ent 42 melons off six plants. There is little doubt this is the best green-flesh Melon grown."—R. P. Hughes, Per pkt., 1/6 and 2/6 The Old House.

709 Emerald Gem, Carters.-Very prolific. Green-fleshed Per pkt., I/-, 1/6, and 2/6 NOVELTY.

Godden Green Queen, Carters.— New Green-fleshed Melon. Raised by Mr. F. Woodward, gardener to Mrs.

Indson, Godden Creen, Sevenoaks, This fine new variety is a decided acquisition to the green-fleshed Melons. In addition to having an exceedingly handsome appearance, it is of remarkable flavour, and has found favour wherever grown. The Photograph shows its general appearance, but the delicacy of the netting is more intense. It has all the good qualities of a first-class variety, being a free and easy setter and good grower. (See Photograph.)

"I am writing to say how pleased I am with your Melon Godden.

"Brown Creen. In my oning it has all the good points necessary

Green Queen. In my opinion it has all the good points necessary in a Melon. The fruits are large, nearly round, and beautifully in a Melon. The fruits are large, nearly round, and beautifully netted. The flesh is pale green and of most exquisite flavour."—
J. SHELTON, Gardener to Lord Hillingdon.
"I feel I must write you a few words of praise on the exquisite

Melon Godden Green Queen, which you sent me for trial. I find it a very robust grower, free setter, very finely netted, and perfect flavour. I am glad you are sending it out, for I am convinced it will become a great (avourite with all Melon growers."

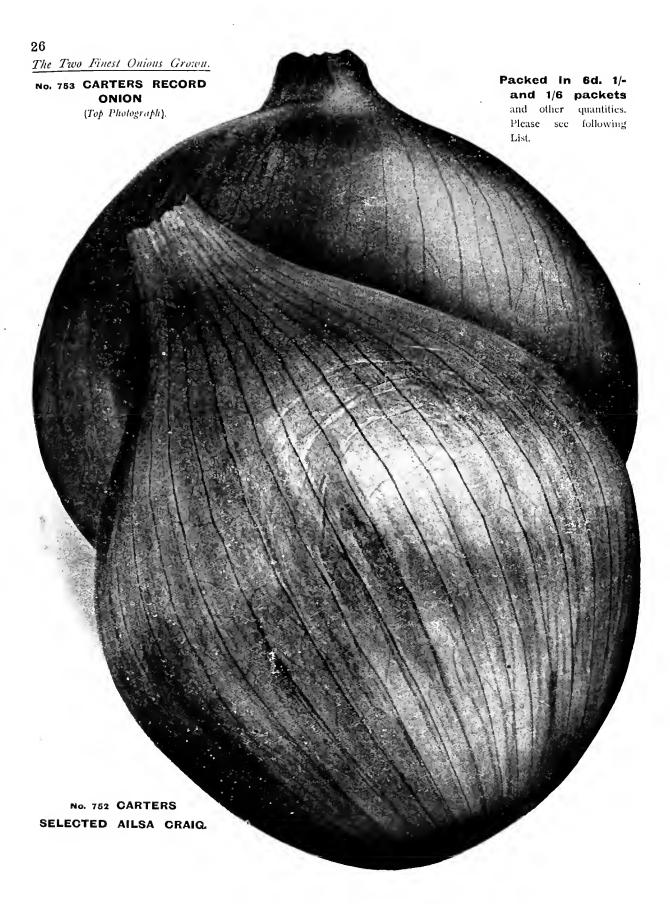

—I. LAWRENCE, Gardener to R. Gregory, Esq.

—1. LAWRENCE, Gardener to R. Gregory, 1589.
Extract from Kent Messanger and Sevenoalts Telegraph for August 1st, 1913 (Seal Horticultural Show): "Mr. Woodward, gardener to Mrs. Hudson, showed some very fine fruit, including a Melon of his own raising, Godden Green Queen, which excited envy among the professional gardeners," Per pkt., 1/6, 2/6, and 3/6

VARIETIES. SCARLET-FLESHED

- Melon. Awarded the First Class Certificate of the Royal Horticultural Society. The finest flavoured and most popular scarlel-fleshed Melon in cultivation. Remarkably prolific, has a grand constitution, is a very fine setter, and may be described as a perpetual bearer, ripening in a short space of time. The fruit is superbly netted, the flesh deep and solid, and a special and distinctive feature is the evenly-defined and thin rind. 99 First Prizes have been reported by enstomers during the past few seasons. (See Photograph.) Per pkt. 1/-, 1/6, 2/6, and 3/6
- 713 Gunton Scarlet.-Finely netted medium fruits, thick flesh Per pkt., I/6 and 2/6 and splendid flavour.
- 712 King George.—A new searlet-fleshed variety, green skin, finely netted large fruits on strong plants. Per pkt., 1/6 and 2/6
- 716 Little Heath.-Hardy, searlet flesh. Per pkt., -/6, 1/- and 1/6 The List of Melon is continued on page 27.

above are packed in 6d. 1/- and 1/6 packets

MELON-Continued.

WHITE AND PALE-FLESHED VARIETIES.

No.
710 Barnott Hill Favourite, Carters.—A superb white fleshed McIon. It is superbly netted, orange-yellow in colont, with white flesh, and a splendid flavour. The raiser, Mr. A. Mitchelson, states that the McIon has a strong constitution, is a free setter, juicy and splendid flavour, above the average size, with a rich orange colour, handsomely netted, and is a grand exhibition variety. Extract from Gardeners' Chronicle;—"MELON BARNETT HILL FAVOURITE,—The fruit of this variety much resembles Blenheim Orange. It has a rich yellow and hand-somely netted rind, but white flesh. When the variety was first sent to the Committee last year for opinion, it was decided to try it at Wisłey. Plants have been entitivated there this year, and a fruit was tasted at Wisłey by a deputation from the Committee. The fruit then proved to be so good it was manimously granted an Award of Merit."

Per pkt., 2/6 and 3/6

No. 705 **British Queon, Carters.**—This grand cream-flesh Melon is a cross between *Hero of Lockinge* and *Royal Ascol*, and was awarded the First Class Certificate of the Royal Hortienlurial Society. Pronounced by the Committee to be the very best flavoured white-flesh Melon ever submitted. Also awarded a Gold Medal, Royal Caledonian Hortienlurial Society, in association with other fruit exhibited from the Royal Gardens, Windsor. Per pkt., II-, II6, and 2/6 Per pkt., 1/-, 1/6, and 2/6

First Class Certificate, Per pkt., -/6, 1/-, and 1/6 714 Hero of Lockinge,-Pale flesh. RIIS

706 Holborn Favourite, Carters.—Fruit of the largest size, roundish ovate; rind lemon colour, heavily netted; flesh greenish-white; flavour sweet, melting, and juicy; habit of plant strong and vigorous; a free selter and a great bearer. Per pkt., 1/-, 1/6, and 2/6

HARDY FRAME MELON.

718 Hardy Frame Melon, Carters.—It is many years since the Royal Horticultural Society awarded us their First Class Certificate for a Melon that could be easily grown without heat. In Carters Hardy Frame we offer a variety specially suitable

for amateurs who do not possess the convenience necessary for cultivating the more tender Melons.

The fruits are large, ribbed, and the flesh a rich searlet colour.

Everyone who has a frame is recommended to give it a trial. Per pkt., -/6, 1/-, and 1/6

MUSHROOM SPAWN.

(CARTERS "RELIANCE" BRAND.)

Cultural Hints.—To grow Mushrooms successfully the following requirements are essential:—Procure fresh stable manure (straw litter manure, not peat litter), shake out well, leaving as little straw as possible; the better the manure the better the bed will bear. After shaking out, stack your short manure closely like as for the preparation of a hot-bed, and there let it remain for a week to have a good heating, then turn it and if dry, use water enough to moisten it gradually at each turning; this will get the material into right condition for the beds, as moisture is one of the most important points to study, and the right texture of the material depends almost entirely upon this proper state of moisture. If your material right in this respect, whatever shape you make your beds, whether flat beds or ridges, you will not be likely to experience any trouble afterwards. It should be remarked here that the ideal temperature loss to 60°, but Mushrooms do come at a much lower temperature very slowly: a higher temperature than 60° should be avoided if possible. Where Mushrooms are grown continuously indoors the place should be disinfected or limewashed occasionally to prevent mildew and other injurious fungi attacking the beds.

Carters Reliance Mushroom Spawn. -1 brick, -/8, post free, 1/-; 4 bricks, 2/6, post free, 3/3; 8 bricks, 4/6, post free, 5/6; 16 bricks (1 busheb, 8/6, packing and carriage free, 10/-

MUSTARD.

FRENCH-Montarde.

Mustard and Cress are two of the most popular salad plants in cultivation, being in season all the year round, They are both cultivated in the same manner.

650 Brown.-Very pungent; the seed largely used for grinding. Per quart, 29; per pint, 1/9; per oz., -/6

651 **Chinese**.—Black-seeded; fine pungent flavonr.

Per pint, 1/9; per oz., -/6

649 Finest White, Carters.-Very popular for salads. Per quart, 3/6; per pint, 2/-; per oz., -/5

(For Herbs and other Salad Plants, see pages 44 and 45.)

ONION.

STANDARD VARIETIES FOR SPRING SOWING.

The Cultivation of Onion.—The ground cannot well be too rich for this crop, nor the soil in too fine a condition. February and March are the chief seasons for sowing. The soil must be made firm before the operation is undertaken in either beds or drills. The seed should be sown thinly and covered lightly, the drills 12 in, apart, and the young Onions thinned out to about 6 in, apart, according to the variety. In very dry weather a good watering is very beneficial. Growers of Onions for exhibition generally transplant, and this is also a sure means of checking the onion grub, so troublesome in some districts. Some of the larger growing varieties are generally sown in antunin and transplanted in spring, when under fair conditions enormous exhibition specimens are obtained.

752 Ailsa Craig, Carters Selected .- We offer a very fine strain of this popular Onion, which, on account of its enormous size, is in great demand amongst exhibitors of vegetables. It is a good keeper, and is much liked and recommended on account of its Reeper, and is much liked and recommended on account of its acceptable, delicate, and pungent llavour. Suitable for antunin or spring sowing. It made a special attraction at Shrewsbury Show. 1912, being staged with Carters other Vegetables in both the Champlon and Large Gold Medal Exhibits. Since then it has been awarded no less than 233 First Prizes. Awarded 10 gold medals with our Vegetable Exhibits in two years. (See Photograph.)

Per pkt., -/6, 1/-, 1/6, and 2/6; per oz., 4/6

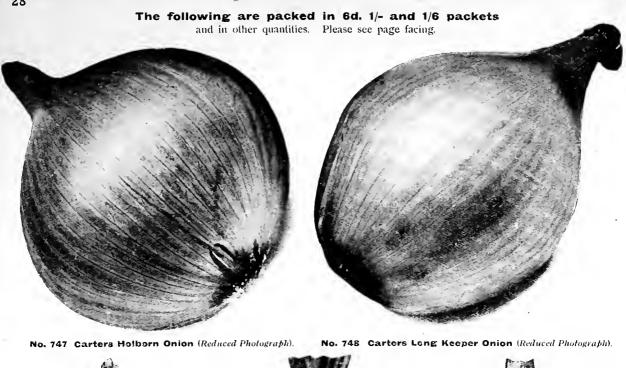

- 762 Bedfordshire Champion.-This is an old favourite with many gardeners; a splendid keeper; of mild flavour,
- Per pkt., -/6, 1/-, and 1/6; per oz., 3/6 755 Blood Red, Carters.—Splendid deep blood-red colour, of medium size. Per pkt., -/6, 1/-, and 1/6: per oz., 2/6
- 755 **Brown Globe, Carters.** Fine shape and colour, good flavour. Per pkt., -/6, 1/-, and 1/6; per oz., 2/-
- 763 **Cranston's Excelsior**.—A fine variety, of good shape, snitable for exhibition. Per pkt., -/6, 1/-, and 1/6; per oz., 3/6

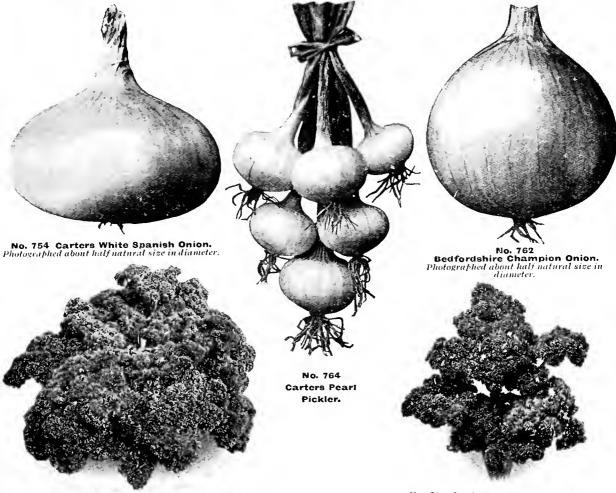

The List of Onion is continued on page 29,

The above are packed in 6d. 1/- and 1/6 packets

and in other quantities as above.

Carters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

No. 814 Carters Crested Bouquet Parsley.

No. 817 Carters Perpetual Parsley.

ONION—Continued.

STANDARD VARIETIES FOR SPRING SOWING—Continued

747 Holborn, Carters.—Equally valuable for exhibition and for table purposes. Perfect in shape, it grows to a large size, and is distinct in colour of skin from other globe varieties. It is a capital keeper, and the delicate flavour approaches that of the imported Spanish Onions sold by grocers and fruiterers. May also be sown in the autumn. This fine Onion was included in the Large Gold Medal Exhibit. Shrewsbury, 1912, and more recently in the 3 Gold Medal Exhibits of Vegetables at Leamington, Bristol, and Holland House Shows, 1913.

Per pkt., -/6, 1/- and 1/6; per oz., 4/-

- 766 James's Keeping.--Much valued for its long-keeping qualities, remaining hard till the following summer.

 Per pkt., -/6, 1/- and 1/6; per oz., 3/-
- 748 Long Keeper, Carters.-Will remain sound the year round if properly kept. "I am sending some examples of your Long Keeper Onion, grown in 1900, and it is now October 5th, 1901. Gardeners about here hardly believe it."—J.1., Blackheath. (See Photograph.) Per pkt., -[6, 1]—and 1/6; per oz., 3/6
- 774 Nuncham Park.-One of the best flat Onions; good keeper and mild flavour. Per pkt., -/6, 1/- and 1/6; per oz., 2/6
- 753 Record, Carters. Continues to hold its prominent position in public favour as the largest globe-shaped Onion in cultivation. It can be sown either in the autumn or spring, but if large bulbs are desired autumn sowing is recommended. It shows a disposition to vary in colour in a small percentage, which can be eliminated at time of transplanting. It will be remembered that a specimen, illustrated in the Gardening World, turned the scale at 4½ lb.; this was probably the heaviest Onion ever grown. We hold records of 524 First Prizes having been gained by customers in open exquestions with this fine Onion. (See Phylogogeth) in open competition with this fine Onion. (See Photograph.)

"I have enclosed a photo of Carters Record Onion. There have been several gentlemen and head gardeners to look round nave been several gentlemen and head gardeners to look round my garden, and they have praised my crops, especially my Onions. I have pleuly of the Record Onions weighing 2 lb. My crops are a sure proof of the quality of Carters Tested Seeds."—Mr. S. Lovett, The Gardens.
"I grew Record Onions last year up to 2½ lb. in weight,"—Mr. O. Claridge.

Per pkt., -/6, 1/-, 1/6 and 2/6; per oz., 4/-

- 769 Rousham Park Hero.—Best described as an emobled strain of white Spanish type; handsome in form, mild in flavour. Per pkt., -/6, 1/- and 1/6; per oz., 2/6
- 776 **Spring, Carters Selected.**—A favourite variety for pulling small and for early salads. Per pkt., -/6, 1/- and 1/6; per oz., 2/-Per pkt., -/6, 1/- and 1/6; per oz., 2/-
- 775 Up-to-Date-Re-selected.-A very fine stock of this globe. shaped variety. Splendid for main crop use. Per pkt., -/6, 1/- and 1/6; per oz., 3/6
- 758 White Globe, Carters.—Good medium-sized variety, of mild flavour.

 Per pkt., -/6, 1/- and 1/6; per oz., 2/6
- 754 White Spanish, Carters-A Re-selected Stock,-Our White Spanish, Carters—A Re-selected Stock—Our stock of this popular Onion has been very carefully selected by us, and is offered as the most perfect form of the Banbury type it is possible to procure. It grows to a very large size, is of a pale yellow colour, and good flavour. Some very fine specimens were exhibited by us in our Exhibit of Vegetables at Brislot, 1913, which was awarded the Royal Agricultural Society's Gold Medal and the Royal Hortientural Society's Silver Cup.

 Per pkt., -/6, 1/- and 1/6; per oz., 2/6

771 White Spanish. Ordinary. Per pkt., -/6 and 1/-; per oz., I/6

VARIETIES. **PICKLING**

- 765 Covent Garden Pickling.—A splendid pickling variety.
 much in demand. Per pkt., -/6, 1/- and 1/6; per oz., 2/3
 764 Pearl Pickler, Carters.—This is the gennine miniature

Onion that is preserved in white vinegar, and found on the tables at the leading hotels. Included in Carters Gold Medal Exhibit at Easlbourne, 1914. Per pkt., -/6, 1/- and 1/6; per oz., 3/-

ONIONS FOR SPRING AUTUMN SOWING.

These varieties, if sown in spring, will produce a good crop, but the Onions will not be so large as if sown in the autumn and transblanted.

- 52 Ailsa Craig, Carters Selected. -Our magnificent strain of this fine Onion is unsurpassed. (See also pages 26 and 27).

 Per pkt., -/6, 1/, 1/6 and 2/6; per oz., 4/6

 Autumn Giant, Carters -A very large white-skinned
- Ouion; mild and agreeable flavour.

 Per pkt., -/6, 1/- and 1/6; per oz., 3/
 Giant Lemon Rocca. Per pkt., -/6, 1/- and 1/6; per oz., 3/-
- 791 Giant Lemen Rocca.
- 784 **Giant Rocea**—A fine large Onion. The original variety. Per pkt., -/6, 1/- and 1/6: per oz., 2/6
- Per pkt., -/6, 1/- and 1/6; per oz., 2/6

 783 Giant White Tripoli, Carters. -Especially suitable for culinary purposes and exhibition: a rather tender Onion on heavy soils; ripens very early.

 782 Golden Globe Tripoli, Carters. A large variety, similar in size to the Giaut Rocca, The skin is of a transparent goldenstraw colour, and it will be found invaluable in exhibition collections. Per pkt., -/6, 1/- and 1/6; per oz., 3/collections.
- 787 Large Red Italian Per pkt... -/6 and 1/-: per oz . 1/9
- Per pkt., -/6 and 1/-: per oz., 1/6
- .53 Record, Carters. A large growing variety. As illustrated and described above. Per pkt., -/6, 1/-, 1/6 and 2/6; per oz., 4/-
- 790 Silver SkinPer pkt., -/6, 1/- and 1/6; per oz., 2/-
- 781 White Emperor, Carters.-Unquestionably the finest form White Emperor, Carters.—I equestionably the linest form of flat Onion in cultivation, with silvery white skin and flesh of a most agreeable mild flavour. Included in the Champion Gold Medal Collection of Vegetables. Shrewsbury, 1912; greatly admired in our Gold Medal Rahibit of Vegetables at the Royal Horticultural Society's Exhibition, Chelsea, 1913. During 1914 it figured prominently in our Exhibits at Cardiff, Eastbourne, and York, 3 Gold Medals being awarded.

Per pkt., -/6, 1/- and 1/6; per oz., 3/-

PARSLEY.

The Cullivation of Parsley. - Sow the seeds thinly in beds any time from February until the end of June. In dry seasons it is an advantage to water the beds, as the seeds will sometimes lie a long while dormant.

- 816 Champion Mess Curled Parsley, Carters.—A very close, handsome variety; both useful and ornamental. Per pkt., -/6 and 1/-; per oz., 1/6
- 820 Covent Garden Garnishing.—A free-growing variety for market work.

 Per pkt., -/6; per oz., -/8
- market work.

 14 Crested Bouquet, Carters Re-solected.—This superby variety has again been re-selected and improved by us, and our stock is now without question the most perfect type of Parsley ever offered. Numerons visitors to our Trial Grounds at Raynes Park have freely endorsed our opinion. It is of dwarf, compact habit, the exquisite curl of the leaves giving it a very attractive crested appearance. The Royal Horticultural Society's report at Wisley reads:—"Carters Crested Douguet Parsley—A beautifully deep curled variety of sturdy, compact habit." (See Photograph.)
- 819 **Curled, Carters.**—Compact and hardy; beautifully curled. Per pkt., -/6 and 1/-; per oz., 1/3
- 823 Double Curled.-Useful for cottage gardens Per pkt., -/6; per oz., -/8
- 815 Emerald Green, Carters—Award of Merit, R.H.S. This excellent stock of Parsley is becoming very popular, and was picked out by the Coannittee of the Royal Horticultural Society picked out by the Committee of the Royal hortentian special as being worthy of an Award of Merit. The colonr is of a very rich deep green; habit taller and more branching than our celebrated *Champian Moss Carled*; it is also very quick in developing, and should prove of great value to market growers.

 Per pkt., -6 and 1/-; per oz., 1,6
- 818 Forn-leaved, Carters.—Exquisitely perfect in form and colour; quite fern-like, and highly ornamental; for garnishing purposes it is ideal.

 Per pkt., 6 and 1/-; per oz., 1/6
- 817 **Perpetual, Cartors.**—This splendid variety was introduced by us some years ago, and has attained a large sale on account of its excellent quality and its characteristic of being remarkably slow to run to seed. The photograph gives a very fair idea of the large and handsome curled leaves produced by this variety. It is rather taller and more branching in growth than our Created Bouquet. (See Photograph).

 Per pkt., -/6 and 1/-; per oz., 1/6

The above are packed in 6d. 1/- and 1/6 packets

CARTERS CHOICE EARLY GARDEN PEAS.

No. 885 The Pilot.

No. 888 Gradus.

No. 875 Carters Early Morn.

The above are packed in 6d. 1/- and 1/6 packets

and in other quantities. Please see following List.

PARSNIP.

The Cultivation of Parsuit -Sow the seed early in March as soon as the season will permit. The ground should be well manured and deeply treuched: the drills about 15 in. apart, and the plants thinned out the same distance.

No.
832 Holborn Marrow, Carters.—A sweet delicate fleshed variety. A truly refined Parsnip. When lifted it leaves the ground clean, smooth, and well shaped. It is not so large in growth as our Mallese, but its flavour is unusually marrow-like and delicate. Our picture very inadequately depicts its merits. The Royal Horticultural Society, reporting its trials at the Experimental Grounds, says:—Roots thick, handsome, and not too large, but just the size and shape a Parsnip should be." (See Photograph)

"Parsuip Holborn Marrow is an excellent variety for table or exhibition, producing well-shaped clean roots, which, when cooked, are very tender and of a delicious flavour."—Mr. G. Phillips, Head Gardener to the Hou. H. B. Portman.

PARSNIP HOLBORN MARROW.—This is first class for exhibition and table."—Mr. J. Lock, Head Gardener to S. P. Emanuel, Esq.

Per pkt., -/6 and 1/-; per oz., 1/3

833 Hollow Crown.-An old favourite.

Per pkt. -/6: per oz. -/9

831 Long Parsnip, Carters.—Fine variety, of splendid flavour. Per pkt., -/6; per oz., -/8

830 Maltese, Carters.—A superb giant Parsnip for exhibition or table use. We hold records of 581 First Prizes having been taken during the past few seasons for this fine Parsnip, which was also included in the First and Champion Prize Exhibit of Vegetables, Shrewsbury, 1912, and also the Large Gold Medal Exhibit at the same show. We are confident in stating that this highly-selected strain cannot be surpassed, either for size or flavour; the roots, which attain to a very large size, being quite as tender and sweet flavoured as most varieties which do not reach one half the size.

"The Maltese Parsuins weighed 4 lb, 2 oz, each and were quite sweet and succulent, not a bit strong in consequence of the size. -Mr. Phillips.

"Your Mallese Pursnips can't be matched for exhibition.

grew them 5 ft. long, beautifully clean. Your Model Leek is also a splendid one for exhibition."—Mr. A. E. BURGE, The Per pkt., -/6; per oz., 1/-Gardeus.

835 The Student.-Extremely delicate flavour.

Per pkt., -/6; per oz., -/10

GARDEN PEAS.

Hints on Cultivation.—Early round Peas may be sown out of doors any time from November onwards, but the spring is generally the season when the largest quantities of both early and maincrop Marrow Peas are put in, extending to June for the latest crops. They thrive best in ground that has been deeply trenched and manned for a previous crop. The seeds should be planted from ½ to 3 in, deep, in either single or double rows, and the taller varieties must be staked when they are from 4 to 6 in, high; the taller kinds should not be less than 6 ft, apart in rows, and the dwarf varieties half this distance. Peas will stand a good deal of drought if the roots find their way into some nice rich material.

FOR FORCING OR BORDER WORK.

- 872 Eight Weeks, Carters (Green Round. Ht. 14 ft.).—This is THE EARLIEST DWARF PEA IN THE WORLD, proved not only from our own trials, but from the expert reports we receive from from our own trials, but from the expert reports we receive from time to time. A very hardy Marrowfat, possessing all the good points of the best type American Wonder, which was one of its parents. As both a forcing and an early border variety it has become a boon to gardeners whose denmands are heavy early in the season. The seed is slightly dented, and of the same colour as its other parent William the First. The pods are freely produced, and well filled with sweet-tasting peas. It is a splendid forcer. Stock limited. Per 1-pint, 1/6: per pint, 2/6
- 873 Foreing Pea, Carters (Wrinkled Marrowfal. 11t. 1 ft.) .-A valuable Marrowfat Pea for nuder-glass culture. Its stocky growth is rarely more than 1 ft, in height. It commends itself not only to professional gardeners who are required to produce not only to professional gardeners who are required to profine peas nearly the year round, but also to aunateurs having a greenhouse or vinery doing practically nothing during the winter months, and who can, with this sturdy Pea, raise supplies for their table very early in the year.

 Per 2-pint, 1/3; per pint, 2/3; per quart, 4/-

EARLIEST GARDEN PEAS.

884 American Wonder, Carters Re-selected (Wrinkled Marrow/at. 11t. 1½ ft.).—An early dwarf Marrow. Our stock of this variety is highly selected, and is in every way far superior to the older stock, having pods nearly as large again: handsome in appearance, with peas of very fine flavour.

Per ½-pint, 1/3; per pint, 2/3; per quart, 4/-

878 Blue Express, Carters (Blue Round, 111, 2½ ft.).—A reselected stock of an early round-seeded variety and a very productive hearer, the pods well-filled with fine-flavoured peas. are a distinct colour when boiled. Per 4-pint, 1/2; per pint, 2/-; per quart, 3/6

Seeded. Ht. 4 ft.).—Both hardy and Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3 896 Bountiful (Round

897 British Wonder (Wrinkled Marrowfat. 11t. 1\frac{1}{2} ft.).—Of sturdy growth; broad, blunt pods, deep green; prolific,

Per \frac{1}{2}-pint, 1/3; per pint, 2/3; per quart. 4/-

901 **Chelsea Gem** (Wrinkled Marrowfat. Ht, 14/4 ft.).—A dwarf early Marrow, prolific; good for bordets.

Per ½-pint, 1/3; per pint, 2/3; per quart, 4/-

887 Daffodil, Carters (Wrinkled Marrowfat. 11t. 12 ft.).—A dwarf and very prolific Marrowfat Pea with the highest possible commendations, being of the rich deep colour of the Stratagem type, and a decided improvement npon Brilish Wonder and the new types of English Wonder. It is a first early of bushy habit, and about 12 ft., obviating the necessity for sticks and rendering it serviceable for borders. Its pods are larger than most of the well-known Peas of the early dwarf class, while the quality and flavour of the Pea is delicious. A well-known gardener reports that it forces well. (See Photograph.)

902 Earliest of All (Blue Round, 11t, 3 ft.),-A very early blue round; small podded; prolific. Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3

Marrow; very prolific; deep green pods; compact.
Per ½-pint, 1/3: per pint, 2/3: per quart, 4/890 First Crop, or Ringloador, Cartors (White Round. 11t.
2½ ft.).—An old and popular Pea, quite hardy; a favonrite for
early marketwork.
Per ½-pint, 1/-: per pint, 1/9: per quart, 3/3
Giant Lightning, Cartors, and Giant Blue Express.

Giant Lightning, Carters, and Giant Blue Express, Carters.—Large-podded early round varieties. It is now many years since our House first introduced Carters Lightning (white years since our House first introduced Carters Lightning (white round) and Carters Express (blue round), two Peas which soon became popular as the earliest of the white and blue round section. After several years' patient labour we introduced the magnificent Peas, Giant Lightning and Giant Express. There is no donbt that these types displace the smaller podded varieties, as, in addition to the increased size of pod, the haulm is stronger, the cropping properties are much heavier, and the flavour is superior to the older varieties. In large establishments where Peas are required very early, these grand Giant introductions will be much appreciated, as it is well known that the round Peas are hardier and generally can be sown earlier than the wrinkled Marrowfat varieties.

Giant Express, Cartors (Blue Round. Ht. 3 to 4 ft.).— Identical in size with Giant Lightning. New large-podded early blue round. (See description above.)

889 William Hurst (Wrinkled, III. 1 ft.).—A fine dwarf Pea for early work.

Per ½-pint, 1/3; per pint, 2/3; per quart, 4/-

SECOND EARLY GARDEN PEAS.

924 Daisy, Carters (Wrinkled. Ht. 15 in.)—The most famous second early Marrowfat in cultivation. This grand dwarf Marrowfat Pea has been before the public for some years, and still stands at the head, as confirmed by the great independent trial of Peas conducted by the Royal Horticultural Society. Their experiment comprised over 80 varieties, and Carters

Awarded First Class Certificate, R.H.S.

Daisy gained the First Class Certificate given by the Society. Carters Daisy Pea is an early

robust, and the crop of giant, well-filled pods of good colour is cuormous. An excellent forcing Pea.— CARTER DAISY PEA.—So many satisfactory accounts have been given in these pages of this variety of Pea that it may come proportional to account the colour of the peace of the colour of the colou So many satisfactory accounts have been given in these pages of this variety of Pea that it may seen superfluous to again write its praise, but having grown it for several seasons I can confidently recommend it as one of the best second early dwarf varieties at the present time. It is of robust growth, reaching nearly 3 ft, in height last year, but in ordinary summers the plants do not get much above 2 ft, and are literally crowded with fine pods nearly 6 in, long, each containing from eight to ten fine peas of excellent flavour. I have been much impressed by the length of time the pods will hang without getting dry, having saved the crop for seed. The pods are usually borne in pairs, and the raisers are certainly to be congratulated moon giving and the raisers are certainly to be congratulated upon giving

us such a good Pea. I advise those who have not yet grown this rea to procure a quart of seeds from the raisers and sow as soon as the state of the soil will allow, and I will vouch for it they will not be disappointed."—Mr. J. MANNE, in the Gardeners! Chronicle, (See Photograph.) Per 2-pint 1/9; per pint, 3/-

NEW.

Lightning + Duke of York

Dawn, Carters (Wrinkled Marrowefat, 11t. 4½ ft.).— Awarded Royal Hortienllural Society's Certificate. A very sturdy and hardy second early.

Sturdy and hardy second early, introduced for the purpose of supplanting such old and Marrows, &c., which are continually asked for because of their hardy nature. It is not a show variety, but for ntility and heavy cropping it is a valuable addition; pods medium colour, about same size as Ne Plus Ultra.

"A Pea of great promise, which reached 5 ft, in growth, A good cropper, the pods well filled with Peas of first-rate flavour."
—Mr. Geo, Tavior, Head Gardener to Sir J. W. Ramsden, Bart.
Per ½-pint, 1/9; per pint, 3/-

930 **Duke of York** (Wrinkled. Ht. 4 ft.).—Good useful variety, few days earlier than *Duke of Albany*.

953 Exhibition, Carters (Wrinkled Marrow/at. III. 5 ft.)—Seed large, green, and wrinkled. A magnificent Pea, the result of a selection from Carters Model Telephone, the selection having been made for the purpose of obtaining fan Exhibition Pea possessing all the good points of that celebrated variety but bearing even a larger and richer-coloured pod. We claim that in every respect we have been successful. This superb variety bears immense rich deep-green pods, perfect in shape, and well filled with large green peas of excellent flavour. 56 First Prizes reported during 1914. (See Photograph.)

Per 3-pint, 1/9; per pint, 3/-

Award of Merit. R.H.S., 1916

Express + Duke of Albany

Carters Harvestman

Harvestman, Carters (Wrinkled Marrowfat. Ht. 5 ft.).—This grand Pea, which is a cross between Express and Dake of Albany (Seedling No. 214), possesses all the qualities of *Duke of Albany*, but the pods are distinct in

shape, more regular in growth, not quite so tall, and altogether superior. Its appearance and cropping qualities are far ahead of either Duke of Albany or Duchess, or any of a similar class, and we are confident that there is a great inture before it. For market or garden it is a most profitable Pea. (See Photograph.)

"Pea Harvestman. A fine bearer and strong grower, with excellent flavour; a good all-round Pea."—Mr. F. HANSFORD, Head Gardener to Right Hon, the Harl of Sandwich.

Per 2-pint, 1/9; per pint, 3/-

Award of Merit, R.H.S., 1916.

Improved Queen, Carters (Wrinkled Marrow/at. Ht. 3 ft.).—This selection from the

R.H.S., 1916.

deeper in colour. The habit is very much more compact.

Per ½-pint, 1/3: per pint, 2/3; per quart, 4/-

Award of Merit. R.H.S., 1916.

Early Morn + Duke of Albany

Carters International

International, Carters (Wrinkled Marrowfat. Ht. 5 to 6 ft.).—This magnificent Pea is the result of a cross between our well-known Early Morn and Duke of Albany. It is quite distinct, both in shape of pod and habit; the pods are of a rich deep green, containing eleven peas of excellent size and flavour. This is undoubtedly

eleven peas of excellent size and flavour. This is mudonbtedly the largest curved pod Marrowfat Pea at present offered to the public; it is quickly becoming the most famous early mainerop. Pods of this variety (under Seedling No. 211) were exhibited at the Royal Agricultural Society's Show at Newastle, and at the Royal Hortienltural Society's Show at Holland Honse, and attracted much favourable attention. Included in the large Gold Medal, Exhibit, Shrewsbury, 1912.

"I grew this variety last year and was greatly impressed with it as a first-rate cropping sort, and it has fully maintained this season the high opinion I formed of it then.—Mr. G. Taylor, Head Gardener to Sir J. F. Ramsden, Bart.

Crop Falled.

Crop Failed.

958 Model Telegraph, Carters (Round Seeded. Ht. 5 ft.).—A selection from our original Telegraph, which is well known. Very valuable as a table Pea, on account of the size and fine dark colour of the pods. The seed is round and of a deep-green colour, which is retained when cooked.

Per ½-pint, 1/3; per pint, 2/3; per quart, 4/-

The List of Main Crop Varieties is continued on page 37.

The above are packed in 6d. 1/- and 1/6 packets and in other quantities as above.

MAINCROP GARDEN PEAS-Continued.

No.
954 Model Telephone, Carters (Wrinkled Marrowfat. Ht. 5 (t.).—A re-selection for robustness and delicacy of flavour from Telephone, a mainerop wrinkled Marrow, which bears to-day a world-wide reputation. It is remarkably prolific, bearing large pods of very attractive appearance. For soils of a light nature we strongly recommend this variety. Peas wrinkled, nine to cleven in a pod; delicious when cooked. (See Platograph.)

Per 4-pint, 16; per pint, 26; per quart, 46
972 Perfection Marrow (Wrinkled Marrowfat. Ht. 3\frac{3}{2} (t.)—A

972 Perfection Marrow (Writaled Marrow)(t. 11t, 32 tt.)—A taller and more branching type of Stratagem.

Per ½-pint, 1/2; per pint, 2/-; per quart, 3/6
959 Prido of the Market, Carters. (11t, 1½ to 2 ft.).—A fine majuerop blue Marrowfat Pea, belonging to the same family from which our *Stratagem* was selected. Being a strong grower it requires to be thinly sown. \(\frac{1}{2}\)-pint, \(l-\); pint, \(l-\); pint, \(l\); quart, 3/-green. Pods longer and larger than any other Pea in cultivation.

Awarded First Class Certificate of the Royal Horticultural Society.

than any other Pea in cultivation. Awarded First Class Certificate of the Royal Horticultural Society. Ht. 5 to 6 ft. This grand Pea, which has caused such a stir in the horticultural world, is the outcome of a cross between Adderman and Edwin Beckett. In general character it resembles the former, but the ban either parent. In our own

pods are considerably larger than either parent. In our own trials it has amply demonstrated its wonderful superiority, and when exhibited in the open class at Shrewsbury, it easily secured

when extracted in the open class the First Prize, and was pro-nounced by leading experts to be without doubt the finest Pea eyer seen. It is exceedingly prolific, and the pods hang mostly in pairs. During the past few seasons this magnificent Pea has

Award of Merit. R.H.S., 1916.

been included in exhibits awarded 12 Gold Medals and a total of 626 First Prizes reported by enstoners in all parts of the country.

THE LARGEST PODDED PEA.—"I have tried Carters Quite Content Pea, which is without doubt the largest podded Pea I know of."—Mr. JAMES GIBSON, Head Gardener to His Grace the Duke of Portland

Duke of Portland.

An Amateur's Description.—" You have been kind enough to highly commend my garden peas Quite Content. They were sown in a box and put in a deeper one with an odd piece of glass over the top. When mp a few inches were hardened off and planted in the open ground ahout 12 inches, ahout on Easter Saturday, 22nd April, 1916. As you know, I have had no experience with vegetables at all, but cultivate flowers rather well for an annateur. The row is 12 yards long and had 51 pea plants, afterwards reduced to 47, 4 went wrong. The enclosed photograph was taken on July 22nd. Owing to the light it could only be taken one side of row, the other side has twice the crop. They grew 10 feet high when they were pinched at the top and cropped from 2 feet inpard as thick as they could hang. No side shoots or laterals were removed, peas were picked July 12th, .5th, and 22nd, and there is still an immense crop. Laterals keep flowering and carry large pods. I took them to Elstree Show on July 12th, when the judges informed me they were the hest in the tents. These pods nearly all measured 7 inches and quite full. The majority are 6½ to 6½ inches."—T. E. EAMES.

Per ½-pint, 2/6; per pint, 4/6

No. 973 **Telegraph** (Round Seeded. Ht. 5 ft.),—Original stock. A fine strong-growing variety, quite hardy; well known for market work. Per ½-pint, 1/-; per pint, 1/9; per quart, 3/3

974 Telephone (Wrinkled. Ht. 5 ft.).-Large pods, prolifie; suitable for light soils.

grand edition to the late maincrop section. The spirit, 2/6; quart, 4/6

NEW.

Dreadmought, Carters (Wrinkled Marrowe/at. 11t. 3 ft.).—This remarkable new late Pea has been selected by us as a our house to make comparative tests of all the new Peas introduced by growers both at home and abroad. After careful comparison we have failed to find a Pea that pleases us more as a veriety to come in between the majurcops and the very late Peas veriety to come in between the majurcops and the very late Peas parison we have failed to find a Pea that pleases is more as a variety to come in between the maincrops and the very late Peas than Dreadnought. It has large bold pods well filled with Peas of delicious flavour. We have been instrumental in introducing many Peas which have become standard varieties, such as Telephone, Telegraph, Stratagem, Pride of the Market, and Daisy, known all over the world, and we undertake to prophesy that this novelty is destined to take an equally permanent place, not only among amateurs, exhibitors, and counoisseurs at the table, but also as a profitable market Pea. Its large deep green, well-filled pods, and its resistance to mildew and drought are its distinguishing characteristics.

Per P-pint, 1/9; per pint, 3/-

distinguishing characteristics.

7 Tho Gladstone, Carters Re-selected (Wrinkie Marrowfat. Ht. 4 ft.).—A fine late variety, bearing long sickle-shaped pods, dark in colour, very prolific. Fine for exhibition, Per \$-pint, 1/6; per pint, 2/6

Gladstone + Exhibition Carters Latest Giant

NEW.

Latest Giant, Carters (Wrinkled Marrowfat. 11t, 4 ft).—This splendid late Marrowfat Pea is the outcome of a cross between Gladstone and Exhibition, and has been exhibited in our Testing Grounds and at various Royal Horticultural Society Shows under Seedling No. 241. It is an all-round grand selection.

possessing the free podding and strong habit of Gladstone, but

possessing the free podding and strong habit of Gladstone, but bearing handsome well-filled pods very much larger than that excellent variety. The pods invariably contain eleven large deep-coloured Peas. It is fit for exhibition and unequalled for market. It is well described by the name Latest Giant.

Per 1-pint, 1/9; per pint, 3/1008 No Plus Ultra, Carters Re-selected (Wrinkled Marrow-fat. III. 6 ft.). This is a highly selected stock of an old and favourite variety; it is exceedingly prolific, bearing blunt-ended pods with Peas of very fine flavour. A splendid Pea for late crops.

Per 2-pint, 1/3; per pint, 2/3; per quart, 4/1011 No Plus Ultra—Original Stock (Wrinkled. III. 6 ft.).—

A fine late Pea. Fine flavour.

1006 Michaelmas, Carters (Wrinkled Marrowfat. Ht. 25 ft.).

Per 1/10 ground New order newsther the boundary billhates art by

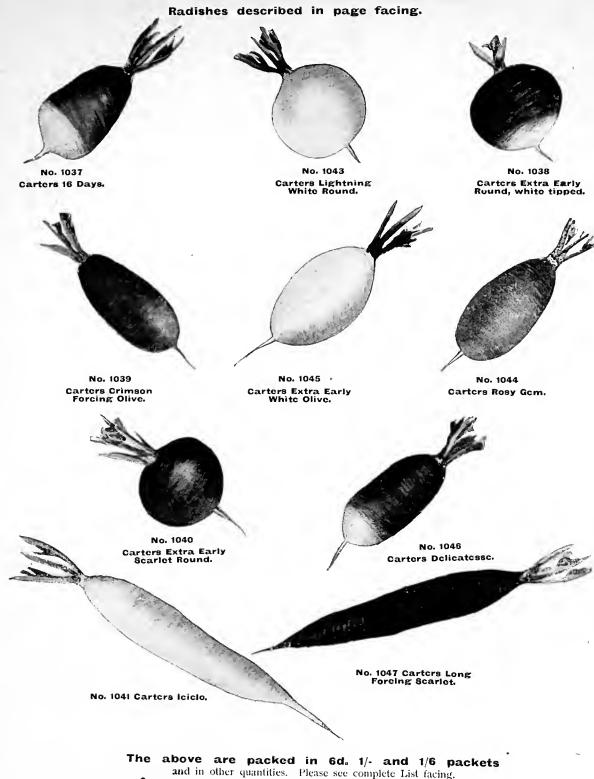

Michaelmas, Carters (Wrinkled Marrowfat. Ht. 2½ ft.).

—This grand Pea quite oversteps the boundary hitherto set by the times and seasons, and is absolutely distinct. Late varieties of Peas of past fame have been late mainly by reason of their strawy character. The constitution of Carters Michaelmas Pea is not run through in straw, but we have fixed a dwarf bushy growth of 2½ ft., which holds back its natural force and throws it into the pods; consequently, while being very prolific, its colour in pod is of the deepest green, and its pods are large and well filled. We have proved this, Pea to possess a reserve of strength which will enable it to resist the drought and the mildew to a degree hitherto unknown in a Pea. The Royal Horticultural Society, in its report of trials at Wisley, says:—
"Carters Michaelmas.—Ht. 2½ ft.; handm and pods very dark green; very sturdy; pods in pairs; heavy crop."

RADISH.

FRENCH-Radis, Rave, Petite Rave,

The Cultivation of Radish.-Sow on a moderate hot-bed in January, February, and March; also every month during summer in wellprepared places in the open. The Radish thrives best when quickly grown in a rich deep moist soil. A sowing in frame or on a warm border in October is desirable for winter use. Water thoroughly during hot weather.

OVAL OR OLIVE SHAPED.

1039 Crimson Foreing Olive, Carters.—Splendid rich colour, very quick growing, having small top, flavour sweet and deli-cate. (See Photograph.)

Per pkt., -/6: per oz., 1/-; per 2 oz., 1/10

1046 **Delicatesse, Carters.**—An attractive dish. Its peculiar shape, crisp flesh, and muty flavour give this fine selection a distinct advantage. Suitable for forcing. (See Photograph.)

Per pkt., -\(\beta \): per oz., 1/-; per 2 oz., 1/10

1045 Extra Early White Olive, Carters.—This Radish has been specially selected for its crisp texture and fine flavour. Produces very little top, matures with rapidity. (See Photograph.)

Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10

1065 French Breakfast, Carters.—There are so many inferior strains of this very popular Radish (introduced by our house from Paris years ago) that we recommend all connoissenrs of a fine appetising breakfast dish to grow only the real original type. Per pkt., -/6; per oz., -/9; per pint, 8/6

1048 Mixed Extra Early Olive, Carters.—This special mixture of all the quickest growing olive Radishes makes a most

attractive dish and is becoming much in demand. When pulled the different colours make quite a charming effect for the table.

Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10

1076 Mixed Olive Shaped. Per pkt., -/6; per oz., -/8; per pint, 7/6

NOVELTY.

Rosy Gem, Carters.-Extra early for forcing or general work, quite distinct : a charming delicate rosy-pink colour.

The shape is almost oval; it is one of the most attractive and delicate-flavoured Radishes in cultivation. Remarkably quick in growth, closely following Carters White Round. Crop failed

1069 Searlet Olivo Shaped, Carters.—Good flavour.

NOVELTY.

Per pkt., -/6; per oz., -/8; per pint, 7/6 16 Days, Carters.-A new and remarkably pretty introduction. For quality and forcing it has no equal, being fit to

pull in 16 days from date of sowing. Small and oval in shape, bright crimson colour with ivory white tip. (See Photograph.) Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10

LONG RADISH.

1041 leiele, Carters.-So named because of its unique transparent whiteness, attractive appearance, and freshness early in the season. The earliest long white Rudish, of extraordinary crispness and tenderness. ness and tenderness. We offer this as a companion to our Long Forcing Scarlet Radish. (See Photograph.)

Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10

1067 London Long Red, Carters.—The particular fancy of the London markets. Per oz., -/6; per pint, 4/-1047 Long Foreing Searlet, Carters.—A great advance on the

old varieties. The very best long scarlet Radish for early work. Flesh crisp and tender. (See Photograph.)
Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10
1074 Wood's Long Frame.—An old favourite.

Per oz., -/6; per pint, 4/-

ROUND OR TURNIP-SHAPED RADISH.

1038 Extra Early Round White Tipped, Carters.-An exceedingly attractive Radish, crimson scarlet, with white base. Is very quick in growth; produces small top, and flesh is of the finest quality. (See Photograph.)

Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10 1040 Extra Early Searlet Round, Carters.—The most rapid growing and perfect shaped scarlet turnip Radish. Small topped and perfect quality. Sown with Carlers Lightning White makes a most perfect combination. (See Photograph.)

Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10

Lightning White Round, Carters.

1043 NOVELTY.

-A small white marble Radish of lightning growth; excellent quality,

extremely small topped, the quickest Radish ever introduced.

Sown in frames or on a warm border it is fit for the table in 14 days. (See Photograph.) Per pkt., -/6; per oz., 1/-; per 2 oz., 1/10

1068 Mixed Turnip, Carters. Per pkt., -/6; per oz., -/8; per pint, 7/6

1077 Red Turnip.-Rich searlet.

Per pkt., -/6; per oz., -/8; per pint, 7/6

1071 Triumph, Carters.-Mottled and striped. A novel feature in Radishes; they are prettily motthed and splashed with car-nine on delicate white flesh, which makes them, when on table, as attractive to the eye as they are to the palate. Per pkt., -/6; per oz., 1/3

1078 Whito Turnip.—Fine flavoured.

Per pkt., -/6; per oz., -/8; per piut. 7/6

WINTER VARIETIES.

TOMATO.

FRENCH-Tomate.

The Cultivation of Tomato—Sow seed in February and March, and transplant into pots to harden off: afterwards plant ont against a south wall in good soil; or they may be planted in a warm border, and carefully staked to keep the plant and fruit from straggling on the earth. If cultivated in pots the treatment should be the same, with the addition that liberal waterings of manner and rain water will be found necessary. especially during the hottest part of the summer.

RED VARIETIES.

- 1127 Comet—Good flavour ...Per pkt., ~/6, 1/- and 1/6
- 1112 Duke of York, Carters.-Awarded the First Class Certificate of the Royal Horticultural Society; included in three Gold Medal Collections during 1914. This grand variety still holds a very high position in public favour. Colour rich scarlet, splendid cropper, almost globular in shape; flesh very frim, fine flavour. A leading feature of this superb variety is that it ripens its fruit with the most pronounced uniformity, whilst the profusion of clusters, averaging six and ten evenly-formed fruit each, makes it conspicuously handsome. These clusters contain variously sized fruits, large and medium, both for the table and exhibition. It can be grown in the open, but does not ripen so quickly as our outdoor variety. Invaluable as an exhibition variety as for private growers and market purposes. 32 First Prizes reported during 1915. (See Photograph.)

"Carters Duke of York Tomato has been grown by its for several years, and we have won many prizes with it, and consider it the Tomato for all purposes."—Mr. W. L. BASTIN, Head Gardener to the Right Hon. Lord Faringdon.

"I have been most successful with your Duke of York, having taken First for the past four years at Strauraer Show."— Mrs. Cowan. 4 Per pkt., -/6, 1/-, 1/6, and 2/6

Per pkt., -/6, 1/-, and 1/6 1131 Large Red

- 1119 Market Favourite, Carters. Well known; fine fruit and flavour. Per pkt., -/6, 1/-, and 1/6
- 1113 **Outdoor, Carters.**—This variety readily fruits under the warmth of a south wall, or along the front of a greenhouse, in any situation where the full influence of the sun is felt and away from cold winds. In shape the fruit is not so round as our *Duke of York* or *Sunrise*. (See Photograph.)

 Per pkt., -/6, 1/-, 1/6, and 2/6

1123 Peach, Carters.-A curious variety, quite distinct from any other sort grown; quite peach-like in appearance.

Per pkt., -/6, 1/- and 1/6

- 1115 Perfection, Carters. Quite distinct from any other variety named *Perfection*. It is very handsome in form, distinct in colour, exceedingly prolific, and of exquisite flavour. 138 First Prizes reported. (See *Photograph*.) Per pkt., -/6, 1/-, 1/6, and 2/6
- 1122 **Plum, Carters.**—Plum-shaped, of prolific habit and good flavour.

 Per pkt., -/6, 1/-, and 1/6
- 1121 **Red Cherry, Carters.**—A very prolific variety, about the size of a cherry.

 Per pkt., -/6, 1/-, and 1/6
- 1124 Red Currant, Carters.-Smallest growing variety, hanging in long trusses; very pretty for decorative purposes. Per pkt., -/6, 1/-, and 1/6

Carters Sunrise and other varieties-Please see page 43.

TOMATO—Continued.

RED VARIETIES-Continued.

No.
1111 Sunrise, Carters.—First Class Certificate, R.H.S.—indoor Sunrise, Carters.—First Class Certificate, R.H.S.—Indoor cultivation. F.C.C. confirmed as Outdoor variety after growth at Wisley. An extensive trial of Tomatoes was made by the Royal Horticultural Society, 71 varieties being sent in by the leading houses. The only First Class Certificate was given to Carters Sunrise, and the following note is attached to the report:—"Tomatoes have been considered to the report:—"Tomatoes have been considered to the report:—"Tomatoes have been considered to the report.—"Tomatoes that it is a support of the report.

R. H. S. the report:—Tomatoes have reached such perfection that it is now very difficult to raise a variety superior to those already in commerce. In this trial only one stood out as being of exceptional value, vix. Sunrise. It is some time since such a high honour has been grauted to a

Tomato.

I NEVER SAW ITS EQUAL.—"A marvellons cropping variety, and destined to become the Tomato for market growers especially. I never saw its equal for cropping, and the fruits are just the size the market growers require—medium, with good appearance and no waste,"—Mr. B. Ashton, Head Gardener to the Right Hon, the Farl of Lathom.

QUALITY IS UNSUPASSED.—"I have grown your Sunrise Tomato since first it came out, and I consider it the best Tomato ever sent out. It is earlier than most, no trouble to set, nice

even size, and very heavy cropper. Above all, the quality is unsurpassed."—Mr. W. H. BLAKE, Head Gardener to the Right Hou, the Earl of Onslow.

FINEST I HAVE SEEN.—"We have just finished Sunrise. It is a capital Tomato, a wonderful setter, fine quality and flavour. They are the finest lot I have ever seen."—Mr. F. BECKETT. Head Gardener to the Hon. Vicary Gibbs,

THE CHIEF POINTS IN SUNRISE ARE-

ITS EARLINESS.-It ripeus several days earlier than most unriatios

ITS CROPPING PROPERTIES.—See Photograph and Testimonials. ITS HEALTHY AND ROBUST CONSTITUTION.—No trace of disease.

ITS PROLIFIC CHARACTER — See Photograph.

ITS SOLID BUT DELICATE PLESH.—Contains very few seeds and

practically no eye.

Its Evenness of Size as a dessert fruit.

ITS INVENNESS OF SIZE AS A GESSELVITHE.

ITS BRIGHT SCARLET COLOUR and rich acid flavour.

ITS EQUAL VALUE FOR INDOOR OR OUTDOOR CULTIVATION. Gold Medal, Bristol, 1913; Leamington, 1913.

Carters Sunrise.—The finest Tomato for indoor or outdoor cultivation. Per pkt., -/6, 1/-, 1/6, and 2/6

YELLOW VARIETIES.

1116 Blenheim Orange, Carters.-We raised and introduced this extraordinary Tomato, a curious cross between the red and yellow. Gathered when quite ripe it is Inscious and juicy, and the nearest approach to the flavour of a plum. It contains very few seeds.

Per pkt., -[6, 1]-, 1/6, and 2/6

NOVELTY. First Class Certificate. R. H. S.

Golden Sunrise, Carters.
—As in the case of its famous prototype, Carters Red Sunrise, this splendid yellow variety has been awarded the First Class Certificate by

the Royal Horticultural Society during 1916—true evidence of its superior qualities. We believe this kind has a great future before it; it is a heavy cropper of handsome medium-sized fruits. The flavour is remarkably good, being slightly more acid than red varieties.

Per pkt., -/6, 1/-, 1/6, and 2/6

1148 Greengage, Carters.—Introduced by us, and the first of the golden section of any value. Awarded a First Class Certificate by the Royal Horticultural Society.

Per pkt., -/6, 1/ , and 1/6

1150 Large Yollow.-A fine large variety; has special merits.

Per pkt., -/6, 1/-, and 1/9

1149 **Yellow Cherry, Carters.**—Companion variety to our *Red Cherry*. Colonr, bright yellow. In our opinion this yellow variety equals for flavour any of the red kinds that we have tasted. Per pkt., . /6, 1/-, and 1/6

TURNIP FOR THE GARDEN.

FRENCH-Navet notager.

The Cultivation of Turnip.—Sow varieties for early use the first week in March on a gentle hotbed under glass, and later in a warm situation in the open border. For main succession crops, sow every three weeks in the open ground until the beginning of July. For winter use sow carly in August and again in September.

> F signifies suitable for framework, also good for general garden sowings. W Those varieties most suitable for winter use.

1170 Crimson-top Table Swedo, Carters (W). - A choice stock of Swede Turnip with delicate orange flesh and specially adapted for growing as a winter table vegetable.

Per pint, 3/6; per oz., -/6 1158 Early Long Foreing, Carters (F) .- Quite a distinct Turnip for frame or outdoor work. Pure white flesh, and of a most delicate flavour. It matures very rapidly, and is fit for table sooner than any other Turnip. Award of Merit, R.H.S., for roots sown in cold frame March 6th and exhibited May 8th. During 1913 and 1914 this fine introduction was included in 6 Exhibits of our Vegetables in different parts of the country, and awarded 6 Gold Medals.

Per pkt., -/6; per oz., -/10; per 2 oz., 1/6

1169 Golden Rose, Carters (W),—One of the hardiest and best winter Turtips. Flesh of a rich golden-yellow colour, with single tap root; flavour most delicate and melting. Awarded a Special First Class Certificate of the Vegetable Conference of the Royal Horticultural Society, included in the large Gold Medal Exhibit, Shrewsbury, 1912, and more recently in our exhibit at Bristol, 1913, which was awarded the Gold Medal and Silver Cup. Awarded at Eastbonrne, 1914, Gold Medal.

Per pkt., -/6; per oz., -/8; per 2 oz., 1/2

1171 Green-top Stone, Carters Selected (W).—This stock has been selected for its earliness and quality. Highly recommended for late sowing.

Per pkt., -/6; per oz., -/9; per 2 oz., 1/3; per pint, 4/-

1166 Jersey Lily, Carters.—The most perfect in outline and the best white garden Turnip grown. In shape as round as an orange, of exquisite flavour, with single tap root, and very distinct small top. Awarded Large Gold Medal, Shrewsbury.

1912; 2 Gold Medals 1914. 63 First Prizes reported by enstomers since 1913. Per pkt., -/6; per oz., -/9; per 2 oz., 1/4

1157 Little Marvel, Carters.—A NEW FARLY WHITE TURNIE. A cross between Early White Milan and Jersey Lily. This s a highly re-selected stock, the tendency to flatness in some of the roots having been entirely eradicated; the tops are small and compact. It is midoubtedly the quickest white globe-shaped Turnip in enlitivation. Flesh crisp and solid, and, as aptly described by one of our customers, "is a little marvel." Very distinct in both habit and foliage, and is a splendid table Very distinct in both habit and foliage, and is a spiendid table Turnip. The Royal Hortienlitural Society, reporting from its trials at Wisley, says:—"CARTERS LITTLE MARVEL TURNIP.—White, round, handsome; foliage short and sturdy. A very early variety that should be valuable for forcing." This remarkable cross-bred Turnip closely follows the Milan, and is employed by the property of the property

remarkable cross-bred Turnip closely follows the Milan, and is considerably forwarder than Jersey Lily. It has become popular with gardeners for early work, as it is as good as it looks. 35 First Prizes reported during 1914, and included in three Gold Medal Exhibits. (See Photograph.)

Per pkt., -[6; per oz., -[9; per 2 oz., 1]4

1167 Purple-top Strapleaf, Carters.—A variety with plain strap-like leaves and flesh of fine texture; colour of top of root a rich reddish purple. A perfect model in form, and highly valuable for exhibition. Included in the Gold Medal Exhibit of Ventrables et Lolland Luxes Show. 1013

valuable for exhibition. Included in the Gold Medal Exhibit of Vegetables at Holland House Show, 1913.

Per pkt., -/6; per oz., -/8; per 2 oz., 1/2

1168 White Milan, Carters (P).—This is an exceptionally fine selected stock, strongly recommended for early garden work. It is as quick as a Radish, clean in growth, and of very fine flavour. This fine Turnip was included in our Gold Medal Collections of 1913 at Bristol and Chelsea Shows. (See Photograph.)

Per pkt., -/6; per oz., -/9; per 2 oz., 1/3

The List of Turnip is continued overleaf.

The above are packed in 6d. 1/- and 1/6 packets.

and in other quantities as above.

Per pkt., -/6; per oz., -/8; per 2 oz., 1/2; per pint, 4/6

CULTURE. FRENCH INTENSIVE

One of the great advantages of the French method of intensive cultivation of vegetables under bell glass or in frames is that the produce is ready for the kitchen or the table in succession, and at periods of the year when under ordinary cultivation it would not be available. Garden produce out of season is always an attraction. For instance, Celery Self-blanching, which requires no banking up, is ready in July and Angust. The following selection is based upon the experience of French maraichers both in France and in this country.

Carrot.—No. 1426. — Paris Forcing Round. (Ronge à forcer Parisienne.)

No. 1427.—Carters Long Forcing. (Ronge longue à forcer eans eccur.)

Cauliflower.—No. 1428.—Rarly Paris France. (Nain Hâtif de Paris.)

Paris.)

Celery.—No. 1429.—Self-blanching. (Celeri tonjours blanc.)

No. 1430.—Celeriac, (Celeriac.) Per pkt., -/6, 1/-, and 1/6

Endivo.—No. 1431.—Green Curled Paris. (Frisée fine verte de Paris.)

No. 1432.—Betavien (Georgie vergieben) No. 1432.—Batavian. (Scarole maraîchère.)

No. 1432.—Batavian. (Scarole maraichère.)

Per pkt...—/6, 1/-, and 1/6

Lettuce. — No. 1433. — Cabbage variety — Paris Market Forcing.
(Gotte lente à monter.)

Balm. Rue. Rosemary. Chicory Sorrel. Pennyroval. Lavender. Chives. Reunel. Sage.

Horchound. Winter Savory, Lemon Thyme. Tarragon. Hyssop.

Wormwood. Marioram Common Thyme.

SALAD PLANTS.

Everyone should enjoy the pleasure of salad several days a week, at all events during the summer season, with but trifling expense. It is a wholesome addition to more substantial diet, rendering it grateful to the palate, and it is a pity that it is so rarely brought to the average table. We enumerate a few (some almost unknown), with cultivation notes.

No.

541 American Land Cress may be sown at any time during spring and summer out of doors. It is a useful variety, tasting something like Watercress. See Cress, page 19. Per pkt., -/6 Beet—See page 9.

432 Celeriac, Carters Improved (or Turnip-rooted Celery).—Pure white root, refued flavour. It is now becoming popular in this country. Seeds should be sown in pans in March, and the plants set out in shallow trenches to mature. Pkt., -/6 & I/
1300 Chervil is used for seasoning soups and mixing in salads. It is grown from seed sown in spring and in summer for successional crops. The soil should be rich and light, and the bed 4½ ft. wide, with an alley on each side. Soy seed in shallow drills across the bed, 9 in. apart, and rake over the surface. When the leaves have grown an inch or two, cut off for use as required. off for use as Per pkt., -/6

When the leaves have grown an inch or two, cut off for use as required.

Per pikt., -[6]

548 Chicory.—The majority of people know Chicory as an adulterant of Coffee, but few are aware of the part it plays in the salad bowl, to which it adds a pleasing flavour. Chicory is so easily grown and so useful, that it should receive more attention from amateurs who desire to grow salads. This plant is sown in late spring in the open ground, and thinned out to about a foot apart to grow through the summer, well watered in dry weather. With the change to a colder season, the leaves decay and nearly all drop off. The roots are then lifted, and a few at a time placed in boxes of rich sandy soil, leaving crown well above the surface. After a good watering these boxes are stored in a perfectly dark place, and in a few weeks, according to the heat, some nicely blanched leaves will be fit to gather. More roots, kept in a cool place until wanted for bringing along in heat, may be similarly treated.

1319 Whitloef is a distant variety of Chicory largely grown in the suburbs of Brussels, and chiefly noted for the quality of its leaves.

Per pkt., -/6

leaves. Per pkt., -/6

Chives is a hardy percunial found in rocky pastures. It is grown in gardens for its leaves, as a substitute for early onious. Propagate by dividing the roots into clumps in spring and antumn, and plant from 8 to 12 in. apart. The leaves to be tender and succulent should be often cut. Plants each -/6

1301 Corn Salad or Lamb's Lettuce.—This is a hardy annual, and is in great demand as a salad plant on the Continent. In France it is preferred, admired, and relished in winter and spring, instead of Lettuce, but not nearly so highly appreciated in Britain as it deserves. But when Endive is searce Corn Salad is of great service, and for early use should be sown in frames or in boxes and placed in slight heat. For summer use it may go on the border or in lines in a sunny spot, amongst the ordinary low-growing vegetables.

Cress.—See page 19. Cueumber.-See page 21.

1302 Dandelion.—The common Dandelion is a useful salad plant, especially when Endive and Lettuce are scarce in winter. The roots are grown in a similar manner to Chicory, and large quantities of the blanched leaves are sold in the markets for this esculent. Per pkt., -/6

Endive. - See page 21.

Lettuce.—See page 23.

Mustard.-See page 27.

Nasturtium, of which the green seeds make a delightful salad. This plant is both a dwarf and a climber, and very ornamental as well as useful. The flowers are often used in salads, occasionally for decorating, and the leaves and young green plants are frequently pickled.

Per pkt., -/6 and 1/-

Purslain is a succulent plant and raised from seed, which may be sown in light garden soil in March on a warm sheltered border in a bed, and attended to in the same way as for Chervil, See Herbs above.

Radish.-See page 39.

1311 Rampion.—A plant producing a spindle-shaped root of light coloni and of agreeable flavour. It may be raised from seed if sown in a bed in an open warm aspect, and in soil of a rich compost, of a light open texture. Water well in dry weather. Should the season prove mild, the plants will be ready for use in November. Per pkt., -/6

Shallots.—The Shallot is much in favour as a relish for soups and for pickling. Offsets are often plauted in the autumn, but the main crop is usually got in early in the year. The bulbs may be plauted at any suitable time during this period, 12 in. between each row, and 6 in. from set to set. The bulbs should be firmly pressed in just beneath the surface of the soil, and here they remain. As the growth matures in the spring, gently draw away the soil round the bulbs when they have become established, and if they look sickly, apply soot to the surface soil for maggots, and use the hoe for weeds. Lift, dry, and store crop as soon as ready, probably the end of June. Shallots.-The Shallot is much in favour as a relish for soups

1383 **Shallot Seed.** Jersey Red Skinned. I For price of bulbs, see page 44. Per pkt., /6 and 1/-

Tomato.—See bayes 41 and 43.

542 **Watercress.**—Watercress may be successfully grown from seed if sown in a shaded border and kept well watered when elected.

Per pkt.../6 and 1/-

STRAWBERRY SEEDS.

ALPINE and PERPETUAL STRAWBERRIES. - Best grown from seeds. Sown very early in heat and planted out in May they fruit the same autumn; sown in April they fruit profusely the following year.

1388 Alpine, Improved Red.-Bright red, large fruit of exquisite flavour, robust. 1389 Improved White.—Excellent Per pkt., L

1390 St. Antoino de Padoue.—Fine large fruit, of rich flavour, very prolific, and perpetual bearer. Per pkt., 1/6

1391 Saint Joseph.—New large fruited, perpetual, cropper, dark red fruit of excellent quality. abundant Per pkt., 1/~

1392 Large Fruited Varieties.-Mixed, from the best sorts.

CARTERS HAND-PICKED SEED POTATOES.

Our stocks have been grown and selected with the utmost vigilance, and under normal conditions of soil and situation will produce first-class crops. Our crops are specially grown for seed purposes; that is to say, they are not over-fed for the sake of producing enormous tubers. They are kept true to name and description, and are not lifted until thoroughly ripe.

We go to this trouble and expense with a view to making our potatoes as disease-resisting as the season will permit.

Potato Orders are often held back on account of frost and other risks of lifting and transit, but we choose the earliest opportunity for dispatching, and no unnecessary delay will be occasioned.

IMMUNE VARIETIES.

The varieties indicated below as "Immune" are recommended by the Board of Agriculture and Fisherics as being immune from the Wart disease and can be planted on infected land.

THREE BEST POTATOES.

FIRST EARLY.—Carters Early Favourite. Award of Merlt, R.H.S. Mid-Season.—Carters Royalty. Awarded Silver Medal for best white potato at the National Show. Main Crov.—Carters Longkeeper, Award of Merit, R.H.S.

CARTERS SELECTED EARLY POTATOES.

* For Frame and Early Border Use.

Advancer, Carters (Pchble Shape, White Flesh).—Smooth skin, medium haulm. In the trials of the Royal Horticultural Society a few years since this variety was one of the very few that were selected for fine appearance and good cropping qualities. A heavy producer on all good garden soils, and particularly valuable on light soils. Included in our Gold Medal Collection, Leannington, 1913. (See *Photograph.*) Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

NEW.

Arran Mascot (Pale, Yellow Flesh).—A new Scotch variety. Good cropper and quality

l'er 7 lb., 3/3; per 14 lb., 6/-; per 56 lb., 20/-

*Duke of York (Oval, Yellow Flesh).—Very prolific, Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

Early Favourite, Carters (Oral Shape, White Flesh).—
Included in the Large Gold Medal Exhibit, Shrewsbury, 1912, and displayed in our Gold Medal Exhibit at Leamington, 1913. A smooth-skinned Potato, with medium haulm; first-class cooker from light and medium soils. This Potato is of great service where space is limited, for it can be dug in an ordinary scason in July. (See Photograph.)

Per 7 lb., 3/3; per 14 lb., 6/-; per 56 lb., 20/-

Early Kidney, Myatt's (Kidney, Yellow Flesh).—An excellent stock of this fine variety.

Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

Early Puritan (Kidney, White Flesh).-Bine early Potato. Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

Eclipse (Oval, White Flesh).—Good cropper on all good garden soils.

Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb. 19/-

Edzell Blue (Round, White Flesh). - Colonred variety, skiu reddish purple, excellent quality. (IMMUNE.)
Per 7 lb., 3/3; per 14 lb., 6/-; per 56 lb., 20/-

Epicuro (Round, White Flesh).-Useful for digging early. Per 7 lb., 2/6; per 14 lb., 4/6; per 56 lb., 16/-

Express (Oval, White Flesh).—Very early. Splendid quality. Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

*First Crop, Carters (Kidney, Yellow Flesh).—A perfect type of forcing or Frame Kidney Potato. The haulin is compact, and the tubers come in remarkably quick when grown in frames or pots. They are beautifully shaped. Fine specimens were exhibited in our Gold Medal Collection, Leanington, 1913.

Per 7 lb., 3/3; per 14 lb., 6/-; per 56 lb., 20/-

Improved Early Ashloaf, Carters.—A fine yellow-fleshed kidney with a small top, for lifting in summer.

Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

May Queen (Kidney, White Flesh),-First-rate cropper Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

Midlothian Early (Oval. Yellow Flesh). - Specially recommended for early crops Per 7 lb., 3/; per 14 lb., 5/6; per 56 lb., 19/-

Sharpe's Victor (Kidney, Yellow Flesh).-Popular variety

Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

Sir John Llewellyn (Oval, White Flesh).-An early white Potato, raised in Wales, many days earlier than some stocks of Early Ashleaf Kidney. Haulm fairly tall, eyes shallow. Award of Merit, R.H.S. It has proved a good cropper on various soils Per 7 lb., 2/9; per 14 lb., 5/-; per 56 lb., 18/-

CARTERS SECOND EARLY AND MID-SEASON POTATOES.

British Queen (Pebble Shape, White Flesh) .- A fine second early variety, very popular. Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

Great Scott (White Round).—A heavy cropping Scotch Potato; robust grower, distinct. (IMMUNE.) l'er 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

King George (Pebble Shape, White Flesh),—Very heavy cropper. (IMMUNE.) Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

Royalty, Cartors (Oval, White Flesh).—This grand mid-season Potato was awarded the Silver Medal for the Best White Potato at the National Potato Society's Show. It produces a medium haulm and is very productive on all soils, the tubers seeming to retain their whiteness, dryness, and fine flavour when cooked

under all methods. In the Cheshire County Council Agricultural Experiments it came out first in its class, beating fifteen others, included in the Large Gold Medal Exhibit of Vegetables, Shrewsbury, 1912. (See Photograph.)

"I herewith enclose photo of your Royalty Potatocs. The half-bushel I had from you last January has yielded 9 cwts. 16 lbs., grown on a plot 13½ feet wide and 68 feet long, being less than a quarter of a chain."—Mr. T. Craddock, Gardener to the Right Hon, the Earl of Jersey

Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

NEW.

The Ally (Oval, White Flesh.)—Very heavy cropper, shallow eye, medium hanlin, a distinct new Scotch variety. (IMMUNE.)
Per 7 lb., 2/9; per 14 lb., 5/-; per 56 lb., 18/

MID-SEASON AND MAINCROP VARIETIES.

Goldfinder, Cartors (Oval, White Flesh).—A grand Potato on all soils. Handsome in shape, very shallow eyes, absolutely no waste, flesh fine in texture, floury white, and quality superb. Per 7 lb., 2/b; per 14 lb., 5/-; per 56 lb., 18/-

King Edward VII (Kidney, White Flesh).-Mid-season. skin, splashed with red, making it very attractive for exhibition. Very robust, prolific, and succeeds on almost all soils. Has very special disease-resisting qualities.

Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

Snowball, Carters (Round, White Flesh).-This fine mid-season nowball, Carters (Round, White Flesh).—This fine mid-season is now almost too well known to need description. Its popularity for the show table is supreme, whilst its fine eating character is firmly established. It is almost round in shape, rough skin, medium haulm, and withal a splendid cooking Potato. 48 First Prizes reported during 1914. The Premier Prize was awarded to Snowball and Carters other varieties, Royal International Horticultural Exhibition, 1912; also included in the First Prize Exhibit, Shrewsbury, 1912 (open to the world); First Prize and Silver Cup, National Potato Society.

Per 7 lb., 3/3; per 14 lb., 6/-; per 56 lb., 20/-

Please Note.—Prices include Free Carriage.

Corters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

CARTERS HAND-PICKED SEED POTATOES—Continued.

CARTERS MAINCROP AND KEEPING POTATOES.

Arran Chief (Oval, White Flesh).—A new Scotch variety of great merit, being quite distinct from any in cultivation. It is a fine white cooking Potato and a good cropper.

Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

NEW.

Arran Victory (Round, White Flesh).— Coloured variety, purple skin, new Scotch Potato, with good cropping qualities. Per 7 lb., 3/-; per 14 lb., 5/6; per 56 lb., 19/-

Golden Wonder.—A white-fleshed kidney of exceptionally good cooking quality, and a good keeper. (IMMUNE.)

Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

Longkeeper, Carters (Oval, Pale Yellow-fleshed). -The best maincrop Potato for general use. Award of Merit, R.H.S. This is a splendid variety, and its valuable qualities are greatly appreciated by all who grow this choice Potato. Included in the Premier Prize Exhibit of Potatoes (all Carters varieties), R.I.H. Exhibition, Chelsea, 1912; Gold Medal, Shrewsbury, 1912. (See Photograph.)

Per 7 lb., 2/9; per 14 lb., 5/-; per 56 lb., 18/-

Scottish Farmer (Pebble Shape, White Flesh).—A fine late variety; has been proved in our own trials to be a heavy cropper, with good cating qualities. Haulm tall with distinct mauve flower. Resists blight better than many varieties. Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-Haulm tall with distinct mauve

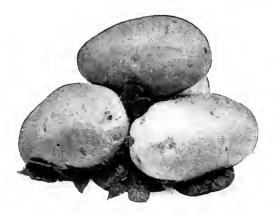

The Factor (Oval, Pale Flesh).—A late variety, with high credentials.

Per 7 lb., 2/3: per 14 lb., 4/-; per 56 lb., 14/-

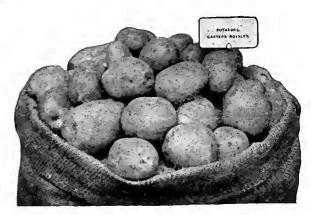

The Lochar (Round, White Flesh).-Heavy cropping Scotch variety, yields medium-sized tubers of good quality. (IMMUNE.)

Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

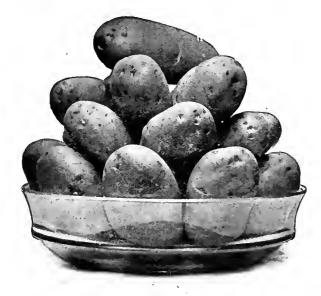

Up-to-Date (Oval Shape, Pale Flesh).—This is a robust-growing Scotch Potato, almost round, with a pale-coloured flesh. It is an enormous cropper and adapted for cultivation in large areas. Per 7 lb., 2/3; per 14 lb., 4/-; per 56 lb., 14/-

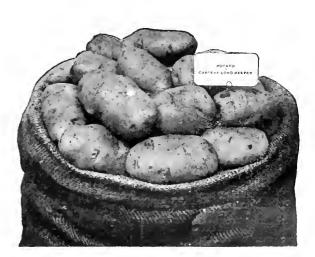

Carters Early Favourite.

On the Raising, Growing,
Cleansing, and Testing

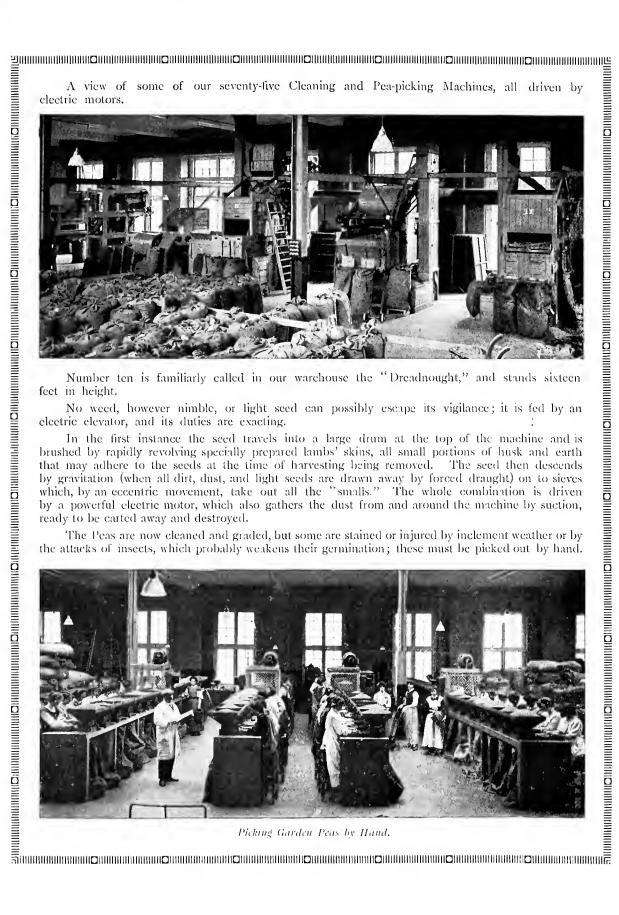

In prominence we have given to our Trade Mark "Tested Seeds" over so long a period has repeatedly given rise to the question, "What do you meen by Tested Seeds?" Believing that the traiting, growing, testing, &c., of Seeds will be a matter of interest to our Customers, we take this opportunity of giving an illustrated explanation of some of our Customers, we take this opportunity of giving an illustrated explanation of some of the methods that were employed bearing up to the introduction to the gardening world of such a process which frequently involves seen to eight years of putient observation and taking rise to the process of the process which frequently involves seen to eight years of putient observation and thour Isfore a process which frequently involves seen to eight years of putient observation and thour Isfore a process which frequently involves seen to eight years of putient observation and thour Isfore a process which frequently involves seen to eight year of putient of our Customers.

We have selected culturary Peas as our illustration because they are more easily identified in a protograph, but analogous methods have to be pursued in the improvement of all varieties of Vegetables and Howers, a work which we have made—and still continue to make—a special ficunity of our Business. Indeed, it is now a matter of history that our House has been responsible for some of the most important improvements in Vegetables and Plowers far too numerous to mention been deed from cross-fertilisation the periodic year. In the control of the protograph is a process of the protograph in the control of the protograp

CARTERS TESTED GRASS SEEDS.

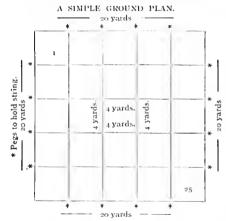

Ten acres of New Lawns at Parnham, sown with Carters Tested Grass Seeds in May; photographed September following. When a Mixlure is not definitely named by number or title, we will in every case send the Mixlure containing Rye Grass, except in the case of Putting or Bowling Greens, where such a Mixture is not offered. No Clover will be added unless we receive definite instructions.

HINTS WHEN ORDERING.

When ordering grass seeds, please give as much information as possible, as it will assist us in supplying the most suitable mixture for the particular purpose for which the seed is required.

As a general rule, under ordinary cultivation, the mixtures with tree grasses give best results for lawns on heavy, clavey, or medium soils:

the mixtures without rye grasses are intended for very light soils or special purposes,

Please quote the mixture number when ordering so that we can at once know the mixture and quality required, and to state plainly the purpose for which the seed is required,

mixture and quality required, and to state plainly the purpose for which the seed is required, viz., for renovating old turf or sowing a new lawn or green.

What is the nature of the soil: heavy, medium, or light? Purpose for which the lawn is required.—If the seed is required for a new lawn, send a sample of soil and a sample of the existing turf if it is required for renovating. Is the ground in good heart? Do you intend to manner the ground? If so, can you procure any well-rotted farm or stable manure? Is the ground well drained? Is water lad on? Quality of seed required. Our Silloth Turf Mixture is the last word in grass seed mixtures, and it should only be sown on light to medium soils which have been well prepared, cleaned, fertilised, and the purchaser is prepared to clean, weed, and free woung land from any coarse grasses that may be in the soil and come up. All soil contains a quantity of seeds of weeds and volunteer grasses, and in consequence all sown lawns should be any coarse grasses that may be in the soil and come up. All soil contains a quantity of seeds of weeds and volunteer grasses, and in consequence all sown lawns should be carefully weeded in the following way:—As soon as the weeds show up, procure a plank 9 to 12 in, wide and as many feet long, and place it along the edge of the plot, and whilst standing on it, pull out all the weeds within reach, then get off the plank, roll it over and proceed as before.

HOW TO SOW GRASS SEED.

In order to facilitate even sowing, divide the ground into squares measuring 4 yards each way, and containing 16 square yards (see diagram).

QUANTITY OF SEED REQUIRED.

For a new lawn allow 1 oz. of seed per square yard, or 1 lb. per square containing 16 square yards. For renovating old turf, sow at the average rate of \(\frac{1}{2}\) to \(\frac{1}{2}\) oz. per square yard, or \(\frac{1}{2}\) to \(\frac{1}{2}\) lb. per square containing 16 square yards, according to the existing state of the turf.

HOW TO FIND OUT THE QUANTITY OF GRASS SEED REQUIRED.

For a New Lawn,-Multiply the length of the plot by its width in yards and divide by 16. This will give the number of lbs, of seed required for sowing a new lawn.

For renovaling.—Divide the quantity calculated as above by 2 for a ½-oz, sowing or by 4 for a ½-oz, sowing.

A bushel of seed weighs 25 lbs., and is sufficient to sow a new lawn containing 400 square yards, and to renovate a lawn containing 800 to 1,600 square yards, according to the existing state of the turf.

DO YOU KNOW THE CARTER SYSTEM of making Golf Courses, Lawns, &c.? Write for Carters Practical Green Keeper, which deals with the making and renovating of grassy lands, post free.

A typical piece of worm-infested soft muddy tury,

MUDDY LAWNS.

Worm-infested, soft, mindly tirf requires brishing and rolling daily from September to June, which means damaged turf, roots brilised and exposed, fine grasses smothered, and intlimate bare patches.

And the result of using Carters Worm Kitter.

CLEAN LAWNS.

The result of using CARTERS WORM KILLER: Infection, firm, and healthy, an occasional light rolling atome necessary to keep it in perfect playing condition.

CARTERS WORM KILLER.

Carters Worm Killer is absolutely infallible for killing worms in Putting Greens, Lawns, Croquet Lawns, Tennis Courts, Bowling Greens, &c., provided it comes into direct contact with the worms; whilst its manurial properties immediately improve the growth and texture of the Turf.

The best time of the year to kill worms is during the breeding season, that is, roughly speaking, from the end of August to the beginning of December, and from the end of March to the end of May.

PRICE OF CARTERS WORM KILLER:-

Packed in paper-lined bags, carriage paid to nearest station, England, Scotland, Wales, and Ireland, and f.o.b. London for foreign orders :---

Packets for trial, post free, 1/- ... 5/6 ... 10/- ... 17/6 ... 30/- Special prices for larger quantities on application.

LANDSCAPE GARDENING.

EVERY good Garden is provided from an aspect of Nature, as offering the most beautiful of ideas.

The Great Architect has provided that which we travel over Continents to gaze upon, and to reproduce the idea of such natural beauty within new and restricted environment requires the practical study of the Gardener who is also an Artist, and also the Architect who is before all a Gardener.

Formal Water Garden.

The practical eye thus sees the Alps in miniature, and the accustomed hand provides a concentration of the Alpine charm, without destroying the idea of symmetry, nor excluding values in quantity and quality of the plants that will become assimilated with the rocky surroundings, the pool or streamlet, and harmonise with the adjacent verdure or buildings.

A rough Paddock is turned into a paradise of pleasant paths through delightful surroundings within a few weeks.

Any un-used corner of an estate or unsightly villa garden can be easily dealt with by those who know how best to do it, and without the useless waste of time and materials for which ignorance of the broader lines of the subject is often responsible.

The advantage for which Messrs, JAMES CARTER & CO. are given credit in this respect is not

merely based upon the high awards at the Great Exhibitions for designs in Rock, Water, Alpine, Formal, and Japanese Gardens, but chielly upon the work they have carried out in innumerable Private Gardens, on the largest scale as well as within restricted limits, and our Artists have had experience in work which invariably brings high encomium from the owners of Gardens treated at their hands

CARTERS TESTED SEEDS.

COMPLETE LIST BEAUTIFUL \mathbf{OF}

FLOWERS

FOR CUT BLOOM AND INDOOR **DECORATIONS**

In the prescut difficulties and restriction of paper supply, the size of our Flower Seed List is compiled to smaller dimensions to meet these requirements. We have been able, however, to compile a complete List and Text of our Flower Seeds by using a smaller type, and by the curtailment of many of the usual Photographic Illustrations. In the circumstances we would respectfully ask our customers to kindly refer to our previous Catalogues for types of many varieties not illustrated in this year's List.

BEAUTIFY YOUR HOMES AND ENLIVEN YOUR SURROUNDINGS WITH ENGLISH FAVOURITE FLOWERS.

Please see following pages.

The following are packed in 6d. 1/- and 1/6 packets.

ABRONIA (SAND VERBENA).—Half-hardy annual of elegant trailing habit for rockeries and dry places. Sow in early spring in pots and plant out.

3137 Umbellata.-Rosy pink.

ABUTILON (Indian Marrow).—Elegant form. Useful for conservatory decoration and for sub-tropical bedding. Sow in heat in spring, and pot off as soon as large enough to handle. For bedding out they should be hardened off well before planting out. Ht. 6ft.

3141 Carters Choicest Mixed.

ACACIA (Mimosa, Wattles). Shrubs in high repute for decorative purposes under glass

3144 Armata (Kangaroo Thorn).-Good pot plant.

3145 Lophantha.-Elegant foliage.

3146 Carters Choice Mixed.—All the best kinds.

ACHIMENES.—Tuberous rooted. Sow in heat in February and

3152 Carters Choico Mixed

ACCROCLINIUM .- See Everlasting Flowers.

ÆSTHETIC or DECORATIVE FLOWERS.

For cut bloom. Sow in spring and plant out as soon as the seedlings are strong enough,

or sow in the place where they Plowers that are not cut should be taken off when they wither, and fresh ones will quickly take their place. Sow also in September for spring flowers.

3012 Blue Marguerite (Perennial). — Hardy; admirable for cutting. Ht. l½ ft. 3013 White Marguerite (Perennial). Dwarf habit. Ht. l½ ft.

Marguerite (Perennial). - Compact growing. 3014 Yellow

3015 Blood Marguerite (Annual).-Character of the favourite single Dahlia. Ht. 11 f

3016 Orange Marguerite (Annual). Excellent pot plant. HILL I ft

3)17 Blue Cornflower (Annual).—Cut flower: profuse bloomer.

3018 **Colden Sunset** (Percunial, flowering the first season).— Best of the Coreopsis tribe. 111, 2 ft.

importation from Japan. Long petals deeply laciniated; colour rich and varied; continuous bloomer. Ht. 1 ft.

3023 **Silver Thistle** (Perennial).—Unique ornament to the mixed border; bright metallic Instre. Ht. 2½ ft.

3024 Complete Collection of above (Nos. 3012 to 3023) ... 5/-

No. 3000 Ageratum, Imperial Dwarf Blue. See next column.

AGERATUM.—Half-hardy annual, neat habit, with effective flowers, mostly lavender blue; very useful in beds or along borders. Sow early in spring in pans, in heat, and prick off when the seedlings are sufficiently advanced in growth.

3000 Imperial Dwarf Blue.-The finest bedding variety in

cultivation. 9 in.

3001 Blue Star.—The most compact Ageratmu yet introduced Light blue. Ht. 6 in.

3002 Little Dorrit.—Lavender. 6 in.

3003 Victoria Louise.—Dwarf; light blue with white centre; very

3004 Imperial Dwarf White,—Ht. 9 in.

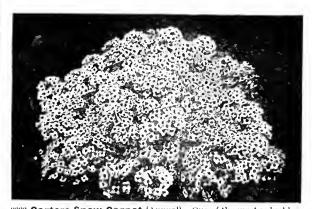

3905 Carters Lavender Band.-Extremely dwarf, of soft lavender hue. Ht. 4 in. 3006 **Mexicanum.—**Ht. 1½ ft.

ALONSOA -Treat as half-hardy annual; Pretty plants, for flower

3161 Warscewiczii.-Scarlet. 11t. 2 ft.

ALSTRŒMERIA (PERUVIAN LILY) .-- (Percunial). Sow in gentle heat early in spring, and prick off. 3164 Carters Choice mixed. 11t. 12 ft.

ALYSSUM.—For spring or snumer. Good pot or rockery plants. Easily grown.

3030 Carters Snow Carpet (Annual).—One of the most valuable dwarf bedding plants of modern introduction. Perfectly hardy. If transplanted a foot apart the plants spread out their side branches along the ground till they meet, becoming covered with pure white flowers, giving the effect of a snow carpet. Flowers through the summer and autumn until cut off by frosts.

303) Maritimum Sweet Alyssum (Annual),-White. 11t. 9 in.

3032 Saxatile sulphureum (Percunial).-New shade. Ht. 9 in.

3033 Saxatile compactum.-Hardy perennial for rockwork. Bright yellow. Ht. 6 in.

AMARANTHUS, -- Half-hardy annuals with very ornamental foliage. Sow in March in gentle heat.

3167 Melancholieus ruber.--Maroon. Hardy. Ht. I ft.

3169 Salicifolius.—Long, graceful, willow-like foliage, tinted crimson and gold. 11t, 3 ft.

3170 Tricolor.-Sub-tropical. Colours scarlet crimson, and gold

AMARYLLIS.—Stove and warm greenhouse bulbons plant.

3173 Extra Choice Hybrids, cross fertilised, and saved from one of the finest collections of rich and varied colours, fine form and substance. Per pkt., 2/6

AMMOBIUM.—See Everlasting Flowers.

ANAGALLIS (PIMPERNEL).—An old-fashioned half-hardy annual. Will flower all the season in warm soils, or may be grown in pots for greenhouse decoration. 3117 Large Blue.-Ultramarine. Ht. 6 in.

The above are packed in 6d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly order by number and price only.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

CARTERS TESTED SEEDS-BEAUTIFUL FLOWERS.

The following are packed in 6d. 1/- and 1/6 packets.

ANCHUSA]

ANCHUSA (Bugloss) .- Hardy percunials, of easy culture. Sow in spring and transplant.

- 3182 Capensis (Cape Forget-me-not).-Blue. Blooms in 10 weeks from sowing. Ht. 12 ft.
- 3183 Italica Brilliant blue. Ht. 3 ft.
- 3184 Dropmore Variety.—A very fine variety with heads of beautiful flowers of a lovely gentian-blue shade. Excellent for eutting. IIt. 4 ft.
- ANEMONE (WIND FLOWER).—These beautiful spring and autumn flowers are perfectly hardy. No. 3187 and 3188 are bulbous, and 3189 and 3190 are herbaccous perennials. Seed of the tuberous varieties should be sown thinly in light soil in spring and remain in seed bed until after flowering.
- 3187 St. Brigid.—Double and semi-double, easily grown from seed.
- 3188 Coronaria (Poppy Anemone) .- Beautiful single large-flowered
- 3189 Japonica.-Hardy perennial, flowering in September; soft rose. Ht. 2 ft.
- 3190 Japonica Honorine Joubert.—The best white for cutting.

ANTIRRHINUM or SNAPDRAGON.

Sow the seed in pans or boxes from February to March, and transplant to bed or border when large enough. If the

withering flowers and seed pods are kept picked off, the plants will last in bloom for a long time, and continue again the following year. Can easily be grown as Annuals if sown in the open ground in April. Thin out about 1 ft. apart. Summer-sown seed produces plants that commence to flower early in spring and continue until autumn.

CARTERS TALL LARGE FLOWERED.

This fine hardy perennial, which should be treated as an annual bedding, has been greatly improved in size and colourings. Ht. 2 to 3 ft.

- 3039 Fire King.-Bright cinnabar red, with small yellow spot on the under lip.
- 3040 Purple King .- A self-coloured purple Snapdragon of enormous
- 3041 Carters Fiery Red, yellow lip.—A very bright variety.
- 3042 Venus.-Noble flower of a delicate rose colour on white ground.
- 3043 Cartors Crimson.—Rich colour.
- 3041 Carters Coral Red .- Deep rosy colour with faint pale primrose shading on lip.
- 3045 Carters White.-Long spikes of pure white flowers.
- 3046 Carters White, rose lip.—Pure white blooms with faint shading of pale rose on the lip. The most chaste and delicate in this section.
- 3047 Cartors Striped.-Each flower beautifully veined and striped on white, rose, and yellow grounds.
- 3048 Carters Yellow.—Pure clear pale golden shade, very telling.
- 3049 Carters Crimson, white throat, yellow lip.
- 3052 Carters Tall Large-flowered Mixed.—IIt. 2 to 3 ft.

CARTERS INTERMEDIATE LARGE FLOWERED.

This is undoubtedly the finest form, both for bedding and ribbon borders, the dense, well-formed trusses contrasting beautifully with the deep green foliage. The trusses are excellent for cutting. and being slightly curved lend themselves to any decorative arrangement. IIt. 1 to 12 ft.

- 3060 Carters Gold Crcst.—Soft rose-pink, tinged salmon, with golden orange lip. We predict a great future for this remarkably brilliant variety as a bedding plant.
- 3061 Carters Scarlet Flame.—A self brilliant fiery scarlet, hence the name we have given to it. In the sunshine the spikes look flame-like in their brilliancy.
- 3062 Carters Terra Cotta and Creamy Shades.—A charming strain of soft, delicate shades which are quite new in this
- 3063 Carters Fiery Bclt.—A most strilling colour, fiery brilliant orange-scarlet, with white throat. A small group culivens the whole garden.

ANTIRRHINUM--Continued.

[ANTIRRHINUM

3058

Nelrose.-This is the wonderful glowing

NOVELTY.

selected stock, which is true, with the exception of a very small proportion of plants which produce flowers of a slightly darker shade of pink than the type. Splendid for indoor decoration; equally effective for beds or borders.

- 3064 Carters Pink.-Quite a charming variety. Delicate pink with white throat.
- 3065 Black Prince.-Velvety crimson blooms borne on graceful tapering spikes; dark purplish foliage. most decorative variety, rather taller than other intermediate kinds.
- 3066 Carters Butterfly.—Purplish crimson flowers, with white throat, which gives a remarkably light decorative effect to this dark-coloured variety.
- 3067 Carters Gloriosa.-Rich carmine-rose, relieved by pure white:
- 3068 Carters Crimson.—A very select strain, deep crimson, one of the richest shades; very telling with our white and yellow varieties.
- 3069 Carters White.—Pure white flowers from which the sulphur lip prevalent in most so-called whites has been practically eliminated; even habit.
- 3070 Carters Yellow.-Clear pure golden blooms. Very even habit.
- 3074 Carters Intermediate Mixed.—One of the most popular sections for beds or borders. A very wide range of colour occurs in this strain.

CARTERS DWARF LARGE FLOWERED.

A compact strain. Flowers variously coloured. This type makes a good pot plant, and is invaluable in borders or beds. Ht. 6 in. We offer the following colours:-

- 3080 Carters Crimson.-Clear, rich shade, very free flowered.
- 3081 Carters Rose.—A particularly charming shade of old rose. This variety attracted considerable attention at the R.H.S. trials, lady visitors being particularly impressed with its beauty. Highly commended, R.H.S.
- 3082 Carters Whito.—Pure white flowers in greatest profusion.
- 3083 Carters Yellow.-The best type of clear yellow in this

The above are packed in 6d. 1/- and 1/6 packets.

Conters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

ANTIRRHINUM1

ANTIRRHINUM. DWARF-Continued.

3084 Carters Fiery Red, yellow lip.,

3085 Carters Deep Rose, white throat, yellow lip.

3086 Carters Crimson, white throat, yellow lip.

3087 Cartors Striped,-Endless shades of all striped and blotched varieties.

3090 Cartors Dwarf, Choicest Mixed,

AQUILEGIA. CARTERS

Hardy percunials of great beauty and utility in borders, where they will bloom freely when established,

CARTERS

Will bloom freely when established, early in the summer. The long-spurred type, of which we make a some new and effective colours. Sow seeds under cover in February, or in the open from March to May, as a long season of growth ensures much finer clumps than when sown in summer with other percunials.

3100

NOVELTY. Carters Long-spurred, Rose and Pink Shades.—A very pretty strain of robust habit, containing a wide range from deep rose through rosy carmine to pale pink and flesh, 11t. 2 ft.

- 3101 Carters Long-spurred, Blue Hybrids.—A very fine strong-growing form of Aquilegia cærulea. Blooms much larger than the type, plants extremely floriferous. Ht. 1 ft.
- 3102 Carters Long-spurred, Golden.—Pure golden; charming form. Ht. 2 ft.
- 3103 Carters Long-spurred, Double Golden.—A double form of the above species. About 50 per cent. double; all flowers of the same golden shade.
- 3104 Carters Long-spurred, White.-Similar in habit to the above varieties. Flowers pure white, with pale blue. A very chaste form. Ht. 2 ft.
- 3107 Carters Long-spurred, all Colours Mixed.-This fine forms which cannot be fixed in their separate colours. We have placed great importance upon robustness of habit in selecting this unique strain. Ht. 21 (t.

AOUILEGIA—Continued.

3105 Californica hybrida. — Long-spurred hybrids. Yellow corolla with golden spurs. Ht. 2½ ft.

FASTER

3106 Glandulosa, -A dwarf form with short spars, blue corolla and white sepals. Ht. 1 ft.

COLUMBINE.

- 3110 Carters Hybrids.—This strain contains a very wide range of colour. For naturalising and the wild garden these old-fashioned types are very useful, being more robust and free flowered than the newer hybrid long-spurred varieties, although they do not exhibit the wonderful diversity of colour found in the new types
- 3112 Carters Mixed Doublo.—A spleudid mixture of very double

ARABIS.—Hardy perennial for spring bedding.

3196 Albida.-White: neat. IIt. 6 in.

3197 Alpina. Paper white. Ht. 6 iu.

ARALIA.-Foliage plants for general purposes. Sow in pots in early spring, in heat, and pot off.

3200 Papyrifera (Rice Paper Plant).

3201 Sioboldi,-Palmate foliage.

ARCTOTIS.-Half hardy. An annual from S. W. Africa. Most useful for cutting, having long stalks.

3120 Grandis.—Daisy-like flowers, pure white, lilac on the outside. with a lavender dise; of very easy culture, flowering all the summer. Ht. 2 ft.

ARGEMONE (PRICKLY POPPY).—Sow in March and plant out in sunny horders. Very easily grown.

3123 Grandiflora.-Hardy annual; white.

ARISTOLOCHIA (THE DUTCHMAN'S PIPE).—Climbing plants, with curious pipe-shaped flowers. Sow in heat in March, and pot off.

3204 Elegans, Percunial: handsomely spotted. Pretty for conservatory.

3205 Sipho.-Hardy climber; splendid foliage, and easily grown.

ASPARAGUS PLUMOSUS.—Easily raised from seed sown in early spring in heat. Valuable for cutting for bouquets and table decoration. Also makes a nice plant for covering a pillar in the conservatory, or for training over a balloon-shaped frame. A. Sprengeri is a grand basket plant.

3126 Asparagus plumosus nanus.

3127 Asparagus Sprengeri.

ASPERULA ODORATA (Woodruff, New Mown Hay).

3214 The dried leaves and stems are very fragrant. Perennial white, sweet scented. 11t. 4 in.

ASTER.—The whole group may be described as half-hardy annuals, the seeds being best sown under glass in early spring, and the seedlings pricked out into boxes or in frames for planting out or potting as the occasion requires. when they are ready about June.

CARTERS RAY.

Onite a unique type of the annual Aster. The flowers, which are very large, often 5 in, across, are produced on long stalks, and have prettily arranged quilled petals. Fine for cutting as they last a week in water if cut before fully expanded. It, 1½ ft.

3225 Carters Crimson

3226 Carters Dark Blue

3227 Carters Carmine Rose

3228 Carters Pale Mauve

3229 Carters Azure Blue

3230 Carters Pure White 3231 Carters Mixed Ray

The separate colours come quite true from seed, and are all distinct and pleasing

shades.
Some very effective combinations and contrasts can be obtained by a judicious use of the various colours.

CARTERS PLUME.

We particularly recommend these varieties for cutting. The blooms, equalling Chrysauthemums in form, are borne on long stems, and the three shades blend well together. The most noble flowered Aster in cultivation. With flowing feathery petals; when the flower of the cutting the cut about 12 ft.

3261 Carters White.

3263 Carters Rose.

3262 Carters Blue.

3267 Carters Choice Mixed.

The above are packed in 6d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly order by number and price only.

BARTONIA.-Hardy annual. Showy, and very easily grown. Sow in open border in spring.

3403 Aurea.—Rich golden colour.

BEE LARKSPUR (DELPHINIUM),-A striking perennial. Of easy culture for large flower borders and wild gardens.

3406 Bright blue. Ht. 3 ft.

BEET, Ornamental.-For mixed beds or borders and sub-tropical gardens. Sow under glass in spring, prick off, and plant out in May.

3409 Flewer Garden.—Rich-coloured variety.

BEGONIA. TUBEROUS ROOTED.

Begonias are much superior to Geraniums for bedding, being quite unaffected by heavy rains, a moist atmos-

phere sniting them. For growing in pots this strain is superb, producing a very high percentage of really first quality perfectly double flowers, equalling the best named varieties, but having more vigorous constitutions.

The seed should be come in heat standard and the standard standard and the standard st

more vigorous constitutions.

The seed should be sown in heat at end of winter to produce strong flowering plants in the summer, in pans of very fine soil. Prick off the seedlings into pans and pot off later. Care should be used when sowing, as the seed is very fine. We can also supply inhers ready to start into growth in early spring.

These Begonias are invaluable for growing in beds and groups; also for pot culture. They come into bloom very early and let all the segon.

and last all the season.

BEGONIA -Continued.

3370 Carters Cheicest Double Begonia.—This fine strain contains all the largest and best forms and most brilliant colours in cultivation. Blooms 6 ins. across

CACALIA.

3484 Coccinia.—The Scarlet Tassel Flower. For mixed borders. Annual. 11t. 1 ft.

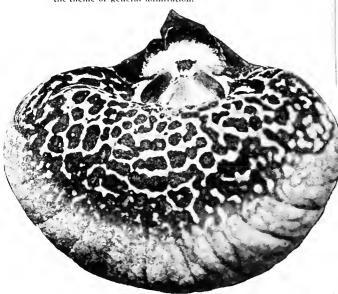

CALAMPELIS (ECCREMOCARPUS).—Climber for verandahs, trellises, &c. Handsome racenes of bloom. Perennial. Sow in heat, to bloom the first season out of doors.

3487 Scabra.-Orange-scarlet. Ht. 10 ft.

CALANDRINIA.—Perennial. Succulent plant. Sow in pans in spring, place in frame, and prick out in bed or border for summer blooming.

3490 Umbellata.-Vivid crimson. Good rock plant.

CALCEOLARIA.—Carters Victoria Prize strain is world-famous, and has secured the highest honours wherever exhibited. Our exhibits at the Royal Horticultural Society's Annual tilower Shows are always the theme of general admiration.

3450 Carters Victoria Prize Calecolaria, Mixed, all Colours.—In addition to the usual range of colours found in this plant, our choice strain produces many distinct seedlings of unique colour, the rose, pink, and enpreous shades being particularly pleasing. It is impossible by photography to give any adequate idea of the beauty of these magnificent flowers. The variations and markings are endless, the flowers are of large size and perfect in form, and the habit is mexceptionable, Per pkt., 2/6, 3/6, and 5/-

3451 Clibranii.—A free-flowering hybrid of spreading habit; very useful for greenhouse decoration. 1tt. 2 to 3 ft. Per pkt., 2/6

CALCEOLARIA -- Continued.

Carters Victoria Prize Calceolaria, described in previous column. No.

3452 **Golden Princess.**—Exquisite yellow. Of the same perfect habit as our *Victoria Prize* strain. The soft pure golden flowers are very valuable for conservatory decoration during that period of the year when this colour is scarce. Per pkt., **2/6**, **3/6**, and **5/**-

3457 Mixed Colours.—Although an excellent strain, does not contain such a range of colour as our Victoria Prize.

3454 **New Dwarf Bedding** Per pkt., **2/6**3453 **Hardy Shrubby.**—From best varieties. ... Per pkt., **2/6**

CARTERS MINIATURE CALCEOLARIA.

A curious small-flowered type, quite unique in growth and character. Makes a fine dwarf plant for stage fronts in conservatory among other growths of similar habit.

3461 Tom Thumb.—Brilliant as the Victoria Prize varieties, but of dwarf habit. Per pkt., 1/- and 2/6

3462 **The Gem.**—Pretty and elegant, beantiful colourings.

Per pkt., 1/- and 2/6

CALENDULA (GARDEN MARIGOLD) (Annual),—Very showy border plant, lasting the whole of the summer without any attention whatever beyond keeping the seed vessels picked off. Not at all particular to either soil or surroundings, and may be described as everybody's flower. Sow in spring where plants are intended to flower.

3544 Coekade Orange.—Very large double flowers; Showy colonr. Itt. I ft.

3545 Meteor.-Lemon yellow, orange stripes. Ht. 12 ft.

3546 Hybrida or Pot.—Single yellow. Ht. 12 ft.

3547 Officinalis.—The single yellow cottage garden Marigold. Ht. I ft.

3548 Pluvialis.-Pure white. 11t. 1 ft.

The above are packed in 6d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly order by number and price only.

Carters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

The following are packed in 6d. 1/- and 1/6 packets.

CALIFORNIAN POPPY]

CALIFORNIAN POPPY.—See Esclischoltzia.

CALLIOPSIS (Coreopsis).—Hardy animals and perennials for cut flowers. The animal varieties should be sown outdoors in April in the place they are intended to flower, or, for earliest work, may be sown under glass and then pricked out.

CARTERS TALL ANNUAL VARIETIES.

Large flowered, branching habit; very useful for back of borders and cut flowers. Ht. $2\frac{1}{2}$ to 3 ft.

3502 Crimson.

3503 Crimson and Gold.

3505 Carters Choice Mixed Tall Annual Varieties.—All sorts.

CARTERS DWARF ANNUAL VARIETIES.

Compact habit, useful for cut flowers. Ht. 15 to 18 in.

3508 Crimson.

3509 Crimson and Gold.

3511 Carters Choice Mixed Dwarf Annual Varioties.—All sorts.

MINIATURE ANNUAL VARIETIES.

These are the shortest growing types; fine for edgings. 9 to 15 in-

3514 Crimson Marbled.—The flowers show a groundwork of chocolate, flaked and marbled with gold, giving a most fantastic combination. Unfortunately some tall plants invariably appear amongst the dwarfs.

3515 Crimson and Gold.—Of all the dwarf varieties this is the most miniature.

VARIOUS CALLIOPSIS.

- 3518 Burridgi (Annual).—Rich crimson and gold. Ht. 23 to 3 ft.
- 3519 Drummondi (Annnal).-Yellow, dark centre. Ht. 2 ft.
- 3520 Grandiflora.—Graudest of all; large golden yellow; a hardy perennial. A lovely horder plant both for effect and entiting. Much appreciated for house decoration when cut. 11t. 3 ft.
- 3521 Bicolor (Tinctoria) (Annual).—Very pretty. Ht. 22 to 3 ft.
- 3523 Coronata (Perennial).-Yellow, dark spot. Ht. 2 ft.

CALLIRHOE (Popry Mallow).—Very pretty half-hardy annual. Sow in spring, in gentle heat and prick out.

3493 Digitata.-Rosy earmine; erect habit. IIt. 12 ft.

CALVARY CLOVER.—An interesting novelty. Raise in spring, and treat as an annual.

3496 The leaves are singularly blood marked.

CAMELLIA.—Greenhouse shrub, universally admired. Sow seeds early in the spring in pots, place in heat, and pot off as soon as seedlings can be conveniently handled.

3499 Japonica, fl. pl.-Saved from the best varieties.

CAMPANULA.—The usual way is to sow the seeds in summer in a partially shaded spot in nice soil and keep them growing until strong enough to transplant or pot.

3530 Persicifolia alba (Giant White).—This is the finest form of this most effective hardy border perennial. The graceful spikes render it invaluable for house decoration either when cut or as pot plants. June flowering. Ht. 3 ft.

3532 Carpatica (Perennial).—Large blossoms; excellent pot plant; blue. Ht. 6 in.

3533 Carpatica alba (Perennial).—White variety.

3534 Grandiflora (Perennial).—Purple violet. Ht. 11 ft.

3535 Grandiflora alba (Perennial).-White. Ht. 12 ft.

3536 Pyramidalia (Perennial).—Blue; charming pot plant. Ht. 4 ft.

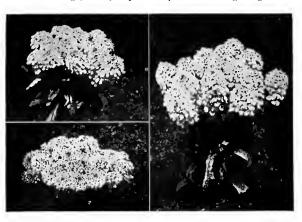

3537 Pyramidalis alba (Perennial).—White variety.

3538 Rotundifolia (Harebell) (Perennial).—Deep blue; the true wild species. Ht. 1 ft.

CANARY CREEPER (TROPÆOLUM PEREGRINUM). — Favourite elimber for trellises, arbours, stumps of trees, &c.; very graceful, bright eanary colour. Sow in pots in February and bring on under glass or sow in the open in spring. Ht. 10 ft.

No 3552 **Canary Creeper.—**Half-hardy climbing annual.

CANDYTUFT. These hardy flowers are now a necessity, requiring the most simple enlitivation, and will flourish in almost any soil. The range of colour has now been considerably extended, the lilac, rose, cardinal, and carmine being particularly charming. Sow in spring in ordinary soil. For pot work, sow in pots in frame, and thin out the seedlings, or they may be transplanted. Average height 1 ft.

No. 3658 Carters Empress (top). 3662 Carters Pigmy. No. 3663 Hyacinth-flowered.

[CANNA

3658 Carters Empress Compact.—Large spikes of the purest white and of creet habit; dwarf and compact, very profinse in bloom, exceedingly showy and effective. Extract from R.H.S. trials: "Candyture Empress Compact (Carter).—Very neat and compact; flowers white, in dense pyramidal spikes, freely produced; the hest white Candytuft in the trial." Ht. 6 in.

3662 Carters Pigmy.—A dwarf type of hyacinth-flowered, and a charming bijou variety for edging, bcds, or borders. The medium-sized spikes are borne in the greatest profusion. Ht. 4 in.

3663 Carters Hyacinth-flowered.—The tallest and finest white variety, each plant having five or six heads of bloom. Its fine pyramidal spikes of the purest whiteness make it a very attractive decoration in either beds or horders. Sow in spring, and transplant 9 in. apart, keeping faded heads cut away. A very fine subject for pot work, especially when antumn sown. Ht. Ift.

3659 Rose Cardinal.—A beautiful shade of rosy scarlet.

3660 Carters Carminc.—Bright rose, excellent form,

3661 Carters Spiral.—Pure white, long trusses.

3664 Carters Crimson.—Brilliant.

3665 Carters Purple.

3666 Carters Lilac.

3667 Carters White.

3669 Carters Choice Mixed.—For open horders.

Perennial Candytuft, for Borders or Rockwork.

3672 Iberis Gibraltarica.—Suffused lilac, lovely species.

3673 Iberis sempervirens.—The flowers form a carpet of pure white in early spring.

CANNA (Indian Shot).—Ornamental-foliaged plants with showy flowers, for stove, greenhouse, or sub-tropical planting. Steep seed 24 hours in tepid water, and sow in strong heat. Pot off seedlings as soon as they can be handled.

3574 Crozy.—Choicest dwarf varieties; magnificent. Both foliage and bloom show a wide range of colour.

3575 Carters Choice Mixed.

We shall be extremely obliged if customers will kindly order by number and price only.

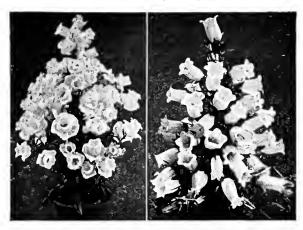

The above are packed in 6d. 1/- and 1/6 packets.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

CANNABIS (Indian Hemp).—One of the finest foliage plants for sub-tropical gardens and beds—Sow in spring and prick off.

3578 Indica.-III. 6 ft.

CANTERBURY BELL.—Hardy biennial. Sow in summer, transplant to a bed in autuum for flowering the following year. They also make effective pot plants for spring flowering, sown in summer and potted in autuum, and kept in a cool frame through winter. No matter how carefully the double-flowering types are saved, some are certain to come single. The seed-bearing spikes should be cut out when the beauty is over, and more may come.

No. 3467 Cup and Sancer Variety. No. 3472 Carters Single Rose.

Cup and Saucer Varieties (Calycanthema).-A very beautiful

3465 Carters Blue.

3467 Carters White.

3466 Carters Rose.

SINGLE VARIETIES.

3471 Carters Single Blue.

3473 Carters Single White,

3472 Carters Single Rose.-Delicate.

DOUBLE VARIETIES.

Seed chosen from the very best double flowers. Unfortunately a few singles cannot be avoided.

3478 Carters Double Blue.

3480 Carters Double Rose. 3481 Carters Double White.

3479 Carters Double Lilae. 3475 Carters Superb Mixed. -All shades of colour; a fine assortment of BOTH SINGLES AND DOUBLES. Good habit.

CAPE GOOSEBERRY.-See Physalis.

CAPE HEATH .- See Erica.

CAPE JESAMINE.—See Gardenia.

CAPSICUM.—Excellent pot plants for conservatory or table decoration. Sow seeds in heat in spring, and pot off singly.

3609 Elephant's Trunk, Scarlet.

3610 Carters Choice Mixed.—Various colours for general use.

CARNATION AND A

popular and lovely flower, always in fashiou. In colour and form unique, with a pleasing fra-

grance in many types. Whether grown in pots for conservatory decoration or in the garden beds for summer display, its charms are equally attractive. Our seed is saved with the greatest care, and should produce a large perceutage of the very best flowers, but unfortunately, as with other florists' flowers, it cannot be guaranteed that every one will come double. Care should be taken to preserve the smallest seedlings, as these frequently produce the fuest quality blooms. Sow in spring in cool frame, prick ont, and plant out in good soil when strong enough, for flowering the following season.

3677 Carters Choice Double Carnation.—A splendid mixture of selfs, flakes, bizarres, faucies, and yellow grounds. All varieties mixed. CARNATION -- Continued.

3678 Amorican Tree Carnations.—The seed we offer is saved from one of the best collections in the country, being hand-fertilised by experts who have raised many of the best forms now in commerce.

3679 Choicest Perpetual or Tree.-Includes all the best French varieties in cultivation.
3680 Perpetual Yellow.—About 35 per cent. true from seed.

3681 White Lady.—Large pure white. 3682 Picotee.—Choicest double mixed. 3683 Picotee.—Choicest perpetual mixed

3684 Grenadin.—A bright scarlet form, similar in habit to Margaret varieties

3687 Carnation. 12 varieties. Bizarre. 10 seeds of each, 3/6 3688 Carnation. 12 varieties. Bizarro and Self.

Per pkt. 10 seeds of each, 3/6 3689 Carnation. 12 varieties. Selfs. 10 seeds of each, 3/6

3692 Carters Annual Carnation.—Blo m in six months from seed.—Carnations are favourites with all lovers of flowers. This strain will bring them within the reach and the cultivation of strain will bring them within the reach and the cultivation of everybody, as it is one of the most valuable introductions of modern times. Sow under glass in January and February, and transplant as soon as ready. They commence to flower in July, producing a wealth of large bloom of great variety of colour until cut off by the frost, thus producing a supply after the perennial varieties are over. Being equally valuable for indoor cultivation, some can be potted and placed in a cool greenhouse, when they provide a succession of bloom during the winter when they provide a succession of bloom during the winter mouths. They can also be sown in June to flower the following year. They produce a very large percentage of double flowers and include a most varied assortment of fancy, yellow ground, bizarre, as well as selfs, rich with delightful fragrance, and diversity of colour.

of the state of th

and a splendid subject for cut flowers.

CASSIA]

CASSIA (Indian Labranum).—Sow in spring in heat, and pot off. A fine plant for summer bedding. Ht. 3 ft.

3563 Corymbosa.—Yellow.

CASTOR OIL PLANT (RICINUS).—Stately plants with large palmate foliage for conservatory or sub-tropical garden and general decoration. Mostly grown as animals. Sow in spring in heat, and plant out in summer.

3566 Cambodgiensis.-Foliage erimson, almost black.

3567 Gibsoni.-Popular dark bronze-leaved variety. 11t. 3 ft.

3568 Zanzibariensis.-Grand foliage of various shades. III. 6 ft.

3569 Africanus.-Light. IIt. 6 ft.

3570 Sanguineus.-Hardiest variety; dark stems, red foliage. 1It. 6 ft.

3571 Carters Choicest Mixed Varieties.

CATANANCHE CŒRULEA.

3591 Hardy Perennial, useful as cut flower; bright blue. Ht.

CATCHFLY (SILENE)

3594 Red .- Hardy annual. Ht. 1 ft.

CELOSIA. CELOSIA PLUMOSA (Feathered Cochsbedding; graceful plumes. Sow in spring in heat, prick off into paus, and pot off. They like a good rich soil in a sunny spot. Ht. 2 ft.

3652 Carters Rainbow.—A magnificent strain. Plants of perfect habit, carrying enormous plumes from pale rose to deepest crimson and deep primrose to old gold.

3653 Carters Perfection Plume. Mixed.

3654 Carters Dwarf Golden.—Splendid type for bedding or pot work; the compact plants bear splendid feathery plumes and come quite true from seed. Ht. 13 ft.

8655 Carters Dwarf Crimson.—Similar type to Dwarf Golden.

CELSIA.—Half-hardy bicnnial. A pretty plant for greenhouse and conservatory decoration, and for bedding in the South of England. Sow in spring and summer for pot work.

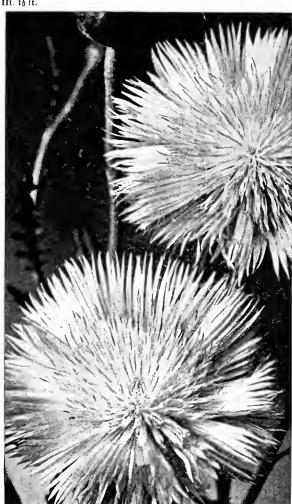

3597 Cretica or Golden Spray.

CENTAUREA.

SWEET SULTAN, CARTERS GIANT. ANNUALS.

[CENTAUREA

The flowers of this greatly improved annual are at least twice the size of the older varieties, and a number of distinct new shades are now available. Its most deliciously scented long-stemmed flowers will last in water for a fortnight. In this respect alone it exceeds any other annual we can call to mind. We give this flower the highest possible recommendation. May be sown in pots and pricked out for early flowering, or in open borders in spring for general work.

3627 Carters Giant White (Centaurea Margarita).

3628 Carters Giant Purple. 3629 Carters Giant Mauve. 3630 Carters Giant Mauve with white centre. 3631 Carters Giant Yellow.

3633 Carters Giant Mixed .- A grand mixture of all shades

ORDINARY SWEET SULTANS.

Although not so beautiful as our giant Sweet Sultans, these Although not so beautim as our giant Sweet Shitans, these original forms are very hardy and excellent for sowing in masses Sow in spring, in open, and thin out. Ht. I ft. 3638 **Purple.**—For pots or borders. Ht. 1½ ft. 3689 **White** (Alba).—Delicate odour. 3640 **Yellow.**—A lovely colour, delicions scent. 3641 **Carters Mixed.** All varieties.

The above are packed in 6d. 1/- and 1/6 packets.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

CENTAUREA1

[CINERARIA

CENTAUREA—Continued.

- 3635 Americana.—Purple, thistle-like flowers. Sow in open ground during March. Although this charming lawender Centanrea has been offered by us for many years, it has never attained the popularity which its beauty deserves. IIt. 2 ft.
- 3637 **Depressa.**—Old-fashioned annual, with large blue flowers with red centres, similar to the common Cornflower in form.

CENTAUREA, PERENNIAL.

Beautiful silver-foliaged plants with variously cut leaves for mixed borders or variegated bedding. Sow in spring and prick out.

- 3645 Candidissima.—Purest silver. Ht. 2 ft.
- 3646 Candidissima compacta.-Ilt. 1 ft.
- 3647 Gymnocarpa.-Wide leaf.
- CERASTIUM.-Silver-leaved ornamental hardy perennials, useful as an edging or on rockeries. Seed may be sown in spring or summer.
- 3603 Bicbersteini.—White perennial edging plant. Ht. 6 in.
- 3604 Tomentosum.-Nearest and most effective. 11t, 6 in.
- CHAMÆPEUCE (FISHBONE TINSTLE). Half-hardy biennial with ornamental foliage. Is seen at its best the first season. Seed should be sown in early spring, in gentle heat, and potted off.
- 3581 Diacantha.—Spiny; glancous foliage. Excellent for edging beds or borders. Ht. 1 ft.
- CHAMÆROPS (FAN PALM).—Sow in bottom heat, and pot off.
- 3584 Humilis.-A. fine decorative plant for house, garden or conser-
- CHELONE.-Sow in spring and transplant. Useful variety of great decorative value.
- 3587 Barbarata eoecinea.—Bright scarlet perennial. IIt. 2 ft.

CHRYSANTHEMUM.—The annual varieties hold a leading position, and many of them have been raised on our Seed Farms. All are beantiful in beds and borders and good for window boxes, or entting. Sow seed in spring in boxes for early flowering, and in the open for general work. Some varieties make useful pot plants; for this purpose they should be sown under glass. Ht. 1½ ft.

ANNUAL.

- 3742 Morning Star.—Single. Delicate sulphur coloured blossoms; very pretty. Equally good as a single plant, grown in masses in beds or borders, or as a cut flower. The best annual variety to use as a pot plant for winter blooming.
- 3748 Northern Star.-Beantiful large white flowers, with zone of sulphur colour.
- 3750 Evening Star.-Deep golden yellow, similar in habit to Morning Star.
- 3743 Carters Choice Mixed Annual Chrysanthemum. We have given unlimited attention to perfecting this strain, which contains a splendid range of colours. Many of the flowers have two or three zones of colour, which impart to them a wonderful brilliance. The plants being very robust should be thinned or planted out to at least 1 ft, apart.
- 3744 Lord Beaconsfield.-Single. Crimson maroon and gold.
- 3745 Purple Queen.-Single. Distinct dark purple.
- 3746 Sultan.-Single. Crimson, with gold ring near centre.
- 3747 W. E. Gladstone. Single. Crimson and violet.
- 3749 Tricolor (Carinatum).—Single. The original type.
- 3753 The Bridal Robe, Double White.—Flowers of purest white, and fully double.
- 3756 Double Mixed.-A good proportion of double blossoms may be expected.

EARLY AUTUMN FLOWERING HYBRIDS.

Can be treated as an annual. Sown in January and February will produce plants which flower from the middle of August onwards, Both for outdoor culture and growing under glass this strain is extremely valuable, supplying large quantities of cut flowers at a season of the year when they are particularly needed.

3764 Carters Early Autumn Flowering Hybrids.—Singles, semi-doubles, and doubles in endless varieties of shades are contained in this splendid mixture.

CHRYSANTHEMUM—Continued.

PERENNIAL CHRYSANTHEMUM.

- 3766 Shasta Daisy.—A perennial variety from America, with large white flowers on long stalks. When sown very early under protection the flowers often appear before summer is over.
- 3767 Maximum King Edward VII.—Single. A splendid large-flowered variety, which we highly recommend: the flowers are pure white, and borne on long stiff stalks well above the foliage, Ht. 2½ ft.

EXHIBITION PERENNIAL SPECIES.

Sow in pans in gentle heat, in spring, and pot off singly.

- 3771 Carters Show.—Large blooms, fine colonrs, 3772 Carters Japaneso.—Gracefully petalled varieties, 3773 Carters Pompone.—Neat, globular blossoms.
- CINERARIA.—Sow seed in pans filled with a good light sandy compost in spring up to the beginning of June, and place in a cool frame. Transfer to small pots as soon as the seedlings have developed their leaves and pot on as the plants require it. They should be grown in a cold frame until frost necessitates their removal to a greenhouse. Even in winter they should not receive much artificial heat. Will come into bloom from Christmer to May. into bloom from Christmas to May.

- 3710 Carters Brilliant Prize Cineraria, Choicest Colours Mixed, saved from finest flowers. The constant and painstaking attention which we have lavished upon this strain has resulted in the production of a remarkable range of colour. The self colours range from pure white through varied shades of pink, rose, and carmine to deepest crimson, and pale porcelain, wedgwood, ultramarine, royal blue to the deepest purple, whilst the bordered varieties show a remarkable diversity of shades. The habit of the plants is perfect, it being difficult to find a plant showing the slightest divergence from type. Gold Medal, Chelsea, 1912, 1913, 1914, 1916. Individual blooms 5 to 6 in.
- Per pkt., 1/6, 2/8, 3/8, and 5/-3711 Carters Snowfiake.—A pure white form, equalling our Brilliant Prizz strain in the solidity of the blooms and perfective of labit.
- fection of habit. Per pkt., 2/6, 3/6, and 5/3712 Carters Choice Doublo.—Of all the finest forms and colours.

 Per pkt., 2/6, 3/6, and 5/3714 Cincraria Maritima.—A well-known hardy silver-foliaged perennial, for bedding or mixed borders. Seeds should be sown in pans in early spring mider glass, and the seedlings pricked off into boxes, hardening before planting out. 1Ht. 1½ ft.

CINERARIA

CINERARIA—Continued.

No. 3718 Carters Cactus.

No. 3719 Carters Stellata.

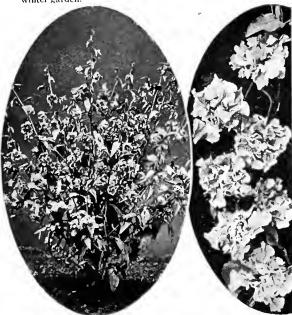

No.

7718 Carters Stellata Cactus (Our Prize Strain). — An entirely new break in Cinerarias. The edges of the florets recurve like a single Cactus Dahlia. The colours include white, blue, blush, violet, manve, and some have a white zone surrounding the dark disc, the florets being tipped with violet, blue, &c. The flowers when cut last a long time, and by their lightness and elegance make charming table decorations. A grand mixture, including all shades of colour.

Carters Choicest Mixed Per pkt., 1/6, 2/6, 3/6, and 5/-3719 Carters Stellata (GOLD MEDAL STRAIN).—This free-panicled variety has now obtained general approval, especially for marvellously effective, being a valuable adjunct to the much admired Carters Brilliant Prize. It should be raised and treated in the same manner as the other greenhouse varieties.

Per pkt., 1/6, 2/6, 3/6, and 5/-C1 ARKIA.—This type attains a height of 2½ ft. in the open

CLARKIA.—This type attains a height of 24 ft. in the open ground, and bears long graceful sprays of double and semi-double blooms which are splendid for decorative purposes, lasting for several days in water. Sown during the antunn and grown on in a cool house make magnificent specimens 4 to 6 ft. high for the adorument of greenhouse or winter garden.

No. 3777 Clarkia, Scarlet Queen. No. 3778 Brilliant Princess.

CLARKIA—Continued.

TALL ELEGANS VARIETIES.

- 3777 Carters Scarlet Queen.—Double. A wonderful glowing salmon scarlet; very brilliant and clear under electric light
- 3778 Brilliant Princess.-Double. Clear warm rose. telling variety for pots or borders.
- 3779 **New Blotched.**—Semi-double. The petals are clear rose pink with a flaking of rosy scarlet. The combination is very effective.
- 3780 Purple King.—Donble. companion to White Prince. Double. Clear rose purple. An excellent
- 3781 Salmon Queen.-Double. Salmon pink. The forerunner of the present-day improved varieties.
- 3782 White Prince.-Double. Pure white. An excellent companion to any of the above varieties.
- 3783 Single.—Original purple variety.
- 3784 Alba Single.-White form of above.

DWARF PULCHELLA (Integripetala).

A dwarf species, 1 to 1½ ft. high, with double and single flowered varieties. Compact habit, very useful for garden decoration, but not so suitable for cutting and pot culture as the Elegan's varieties. The Integribetala are the best forms, being wider in the petal than the original Pulchella type.

- 3788 Mrs. Langtry.—Single. Carmine, edged white; a very light and elegant combination of colonr.
- 3789 Morning Glory.—Double. Rosy purple, margined white. A fine bedding variety.
- 3790 Single Dark Rose.—Original type.
- 3791 Single Pure White.-White form of original type.
- 3792 Double Rose.—Pretty clear rose-coloured flowers borne in great abundance.
- 3793 Double White.--A pure white form of above variety.

CLARY .- Sow outdoors in spring.

3555 Purple.-Hardy annual, for bedding,

- CLEMATIS (VIRGIN'S BOWER).—Well-known climbing perennials. Sow seed in early spring under glass, pot off and plant outdoors in early summer.
- 3558 Flammula.—Ordinary white, sweet scented.
- 3560 Jackmanni varieties.—Saved from the best colours.
- CLIANTHUS (GLORY PEA) .- Seed should be sown in well-drained pot of light soil early in spring, in strong heat. May be flowered out of doors in favourable situations.
- 3613 Dampieri (Sturt's Pea).-Unique, scarlet and black. 11t. 2 ft.
- 3614 Puniceus (New Zealand Glory or Lobster Plant).-Bright scarlet flowers. Climber.

CLINTONIA

- 3617 Pulchella. One of the loveliest pot annuals: purple, white, and yellow. It, 6 in.
- COBAEA .- Handsome half-hardy climber for greenhouse or in warm situation out of doors. It spring in heat, and pot off. Easily grown from seed; sow early in
- 3620 Scandens.—Purple bell-shaped flowers.
- 3621 Scandens alba.-White.
- COCKSCOMB.—Annual. Our strain cannot be surpassed. For earliest work, sow in January or February, and again in spring for general work, using good light sandy loam.
- 3724 Carters Empress.—Combs of immense size; we measured these 14 ft. across. Rich crimson, dark foliage. we have
- 3725 Crimson.-Light foliage. Good ordinary stock. Ht. I ft.
- 3727 **Dwarf Mixed.**—A splendid strain of this showy annual. Includes crimson, blood red, purple, rose, and yellow shades. 11t. 1 ft.
- COLEUS.—Grand ornamental foliaged plants, superbly variegated; for stove, greenhouse, or sub-tropical garden in summer. Sow in heat in early spring, and pot off. The variegation does not always show itself plainly until the plants have reached some
- 3730 Carters Choicest Mixed.—Saved from the best varieties

We shall be extremely obliged if customers will kindly order by number and price only.

The above are packed in 6d. 1/- and 1/6 packets.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

COLLINSIA]

COLLINSIA.—Pretty annual. Very useful for pot work as well as for border cultivation. Sow in autumn in pots for spring flowering in greenhouse, and in spring for summer flowering in borders.

3733 Bicolor.—Purple and white. 11t. 1 ft.

COLUMBINE.-Sce Aquilegia.

COMMELINA.—Half-hardy tuberous perennial plant. Sow in heat in early spring, and plant out in May or June.

3739 Cælostig.—Blue. 1Rt. 1½ ft.

CONVOLVULUS.—Annual. Lovely climbers for garden, trellis, &c. Sow in spring where intended to bloom.

MAJOR.

3797 Blue.

3798 Crimson.

3799 Violet.

IPOMÆA.

Perennial. Greenhouse climbing Convolvalus, embracing some of the loveliest colours imaginable. Sow in early spring in heat, and pot off, and train on trellis under glass, or out of doors in summer.

3813 Mauritanieus.-For hanging baskets.

3814 Leari.-Dark violet.

3815 Heavenly Blue, -Surpassingly lovely; a gem.

3816 Rubro-cærulea.

CORAL TREE. - See Brythrina.

CORDYLINE.—Perennial shrubs. Sow in early spring, in strong heat, in pots or pans of sandy soil and pot off. Most useful as a table plant, for greenhouse decoration, or summer bedding. *Australis* is about 3 ft. high.

3835 Australis .- Recurved dark green foliage.

COREOPSIS .- See Callionsis

CORNFLOWER (Cyanus Minor),—Everything may be said on behalf of these interesting and useful flowers, both as a border plant and also as a cut bloom.

3700 Royal Blue.—Perhaps the most popular of all.

3701 Carters Double Mixed.

3702 Carters Single Mixed.

3703 Vietoria. - Dwarf free flowering.

3704 Purple.

3705 Rose.

3706 White.

COSMEA. Cosmeas have hitherto been shut out of English gardens on account of their lateness in flowering; No. 3823 brings them within the range of desirable flowers for this country.

3823 Early Flowering Varieties, mixed .- A pretty feathery foliaged annual, useful for cutting, growing sometimes to a height of 4 ft., and very effective right up to the frost. Makes a nice winter flowering pot plant if sown in summer. Including

purple, pink, mauve, white, and rose. 1It, 3 ft, to 1 ft. 3824 Bipinnata.—Purple.—The original type from which all the modern varieties have originated.

3826 Carters Mixed Colours .- An excellent strain which flowers rather later than our Early Flowering varieties.

COWSLIP.-Perennial. Our mixture contains a great diversity of colours.

3830 English, mixed.—Much more robust than the common variety. The flower stems, which reach a height of 1 ft., are crowned with an umbel of graceful drooping blooms, in a wide range of yellow, red, crimson, and maroon shades.

ICYCLAMEN

CUPHEA.—A pretty shrubby perennial, which makes a useful pot plant. It is often employed for bedding out in summer, and for this work is best treated as an annual. May be sown in autumn or spring in heat.

3839 Platycentra.—Red and black. IIt. 1 ft.

CYANUS MINOR.—See Comflower

CYCLAMEN. (CARTERS PRIZE STRAIN.)—Sow at any time (spring and autumn to be preferred) in pots or pans, in peaty loam and sand, covering the soil scarcely a quarter of an inch, place on warm shelf near the glass in greenhouse, keeping the soil moist but well drained. The seed takes from four to eight weeks to germinate. When the bulbs are the size of a pea transplant singly into small pots, transferring to larger pots as the plants develop. An average of 60 deg. is the temperature best suited for producing well-developed flowers, and good ventilation without draught is a safeguard from disease. We also supply dry bulbs.

3842 Carters Superb Mixturo of all Colours.—Our grand large-flowered strain in all its best forms and every shade of colour, including our superbsalmon. This is a selection of many years' patient observation and labour.

Per pkt., 1/6, 2/6, and 5/-

Per pkt., 1/6, 2/6, and 5/-

3850 Carters White Swan .- The largest, also the most profuse Carters white Swan.—The largest and the most profine blooming white Cyclamen in cultivation. A grand thing, throwing its pure white flowers well above the foliage. A year-old plant of this in full bloom is a magnificent sight. First Class Certificate, R.H.S.

Per pkt., 1/-, 1/6, and 2/6

3843 St. George.—This is a salmon colour, with a silver-marked

3843 St. George.—This is a salmon colour, with a silver-marked leaf, very ornamental as a foliage plant previous to the blossoming period. Received a Certificate from the Royal Horticultural Society.
3844 Carters Butterfly. -This charming Cyclamen may be considered one of the most striking among florists' flowers. The somewhat formal bearing of the older varieties is replaced by a more graceful habit, and the colours are surprisingly varied and beautiful. It may be observed that the petals of the flowers are broad across the ton and the education and the colours are surprisingly varied and broad across the ton and the education.

beautimi. It may be observed that the petats of the nowers are broad across the top, and the edges finely curled or waved. The beauty of the variegations in colour is captivating.

Per pkt., 1/-, 1/6, and 2/6

3845 Brilliant.—Pure deep crimson blooms with a metallic sheen shading from the base of each petal, which lights up the whole flower and gives a brilliant effect.

Per pkt., 1/-, 1/6, and 2/6

3846 Dainty Queen.-A giant flower of splendid substance; colour 3846 **Dainty Queen.**—A giant flower of splendid substance; colour pleasing soft rosy manye, base of the petals being much deeper than the upper part.

Per pkt., 1/-, 1,6, and 2/6
3847 **Excelsior.**—The largest and most solid white flower with clare base, equalling in size and vigour our *White Swan*.

Per pkt., 1/-, 1/6, and 2/6
3848 **Carters Salmon.**—Distinct and fresh; a strong and vigorons variety.

Per pkt., 1/-, 1/6, and 2/6
3849 **Charming Bride.**—A superb pure white variety with large handsome petals; compact habit robust growth.

handsome petals; compact habit, robust growth Per pkt., 1/-, 1/6, and 2 6

The above are packed in 6d. 1/- and 1/6 packets.

Carters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

CYCLAMENT

CYCLAMEN—Continued.

- 3851 Mrs. L. M. Graves.—This is a salmon scarlet, that is to say, a deeper scarlet colour diffused with the salmon. This has obtained a certificate from the Royal Hortienhural Society. Per pkt., 1/-, 1/6, and 2/6
- 3852 Mrs. Buckston. Award of Merit R.H.S. This novelty bears beantifully frilled petals of a real salmon shade of colour, somewhat more delicate than the *Carters Salmon*. The flowers are very large and freely produced. This is a valuable addition to the crested petalled Cyclamen, and will at once take its place in the front rank.

 Per pkt., 1/-, 1/6, and 2/6
- 3853 Carters Crested.—A very pretly type of flower, contrasting conspicuously when mingled with a collection of the ordinary type. The flowers are also very lasting. Choicest mixed.

 Per pkt., 1/-, 1/6, and 2/6
- 3854 **Crimson Queen.**—A bold well-formed flower; colour deep maroon red. Per pkt., 1/-, 1/6, and 2/6 maroon red.
- 3857 Fairy Queen .- Pale rose, compact habit.
 - Per pkt., 1/-, 1/6, and 2/6
- 3859 Princess May .- A dainty soft pink. Per pkt., 1/-, 1/6, and 2/6
- 3860 Rosy Morn.—Finest form; clear bright rose, with dark claret base.

 Per pkt., 1/-, 1/6, and 2/6
- Sultan.-The richest coloured Cyclamen: inlense Per pkt., 1/-, 1/6, and 2/6 crimson.
- **DAHLIA.**—Our strains have been specially hybridised and will produce splendid types. Sow the seed in early spring in heat, and pot off. Plant out as soon as large count is then enough in June.

CARTERS CROSS-FERTILIZED STRAINS.

- 3901 Carters Single,-Magnificent flowers of the newest and best colours.
- 3902 Pigmy Single.-Forms a dwarf bush.
- 3903 Carters Caetus.-From the best varieties, mixed.
- 3904 Carters Giant.-Producing very large semi-double flowers. mixed.
- 2905 Show Double.-For perfect form cannot be surpassed.
- 3906 Perfection Giant Single.-The variety in this strain is very great.
- 3907 Bouquet or Pompom.-One of the most useful flowers for cutting.
- 3908 Collarette,—Our special strain of Collarette varieties contains a great variety of distinct shades and colours, the majority being equal in form to named varieties.

NOVELTY.

Carters Blaze.-This distinctive form of Dahlia has now been honoured by an Award of Merit from the Royal Horticul-Award of Merit from the Royal Horticultural Society and National Dahlia Society, is such a desirable variety for decorative purposes that we have no hesitation in adding to the present almost endless varieties of Dahlias. In our trials we have repeatedly been astomded to find that the majority of new introductions have very little value as garden plants, the excessive drooping habit of the flowers rendering them valueless except when each bloom is supported by wires. Our new variety Blaze, although a strong grower, requires practically no support, but a central stake is advisable to prevent damage by wind and heavy rains during the late autumn. On our trial grounds during 1915, in a batch of Blaze containing 50 plants, only three were beaten down by heavy rains, although there was not a single support to any of the plants. As an indication of its free-flowering qualities we may plants. As an indication of its free-flowering qualities we may say that many of the plants gave over six dozen large blooms for decorative purposes. **Plants only.** Each, 3/-; per doz., 30/-

DAISY.—Charming spring flowers in barders. Sow in light soil in spring, and prick out.

- 3962 Finest Double (Bellis).-Pink,
- 3963 Finest Double (Bellis).-White.
- 3964 Finest Double (Bellis).-Carters selected strains of all colours.
- 3965 Paris White (Chrysanthennum).
- 3966 Swan River (Brachycome).-A bright, free-blooming annual; blue and white.

[DEVIL-IN-A-BUSH

- **DATURA** (THORN APPLE).—Sow in heat in early spring, and pot off, hardening off well before planting out. Suaveolens may be placed out of doors in summer, but must be protected from
- No.
 3019 Atroviolacea piena.—Trumpet shaped flowers for conservatory or sub-tropical gardens. Ht. 2 ft.
 3020 Chlorantha, ft. pl.—Fine double golden trumpet, sweet-scented; half-hardy. Ht. 2 ft.
 3021 Suaveolons (Brugmansia).—Splendid shrub for greenhouse; around white blossom.
- grand white blossoms.
- **DELPHINIUM.**—The Perennial Delphiniums are best sown in summer, as they then make strong plants to flower the following season. They can also be sown early in spring, and are very effective in borders during the early summer the following year,

- 3942 Carters Choicest Mixed Delphinium.-A wonderful improvement on other varieties, saved from special named sorts. Ht. 3 to 5 ft.
- 3913 Cardinale. Scarlet species from California. 11t. 2 ft.
- 3944 Cashmerianum.—Rich blue. Ht. 12 ft.
- 3945 Nudicaule.—Dwarf orange-scarlet; hardy. 11t. 1 ft.
- 3946 Sulphureum (Zalil).-I,ong spikes of sulphur-yellow flowers.
- 3917 Formosum.-Rich deep blue; magnificent. Ht. 3 ft.
- 348 Formosum cælestinum.—A paler shade of blue; superb. 11t. 3 ft.
- 3352 Fine Mixed.

ANNUAL DELPHINIUM.

Hints on Culture.—The seed should be sown early, in heat, and grown on in pots until ready for bedding out. Late sowings do not make effective plants until 100 late in the season.

3058 Carters Annual, Blue Butterfly.—The greatest acquisi-tion in blue annual flowers for many years. The Royal Horticultural Society, when granting it the Award of Merit, stated in their report that it is "a dainty annual of bushy branching habit, and very floriferous." Ht. 15 in.

3924 Bright blue; free bloomer, useful for cutting. May also be grown as a pot plant for culture under glass. 11t, 1 ft.

The above are packed in 6d. 1/- and 1/6 packets.

Corters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

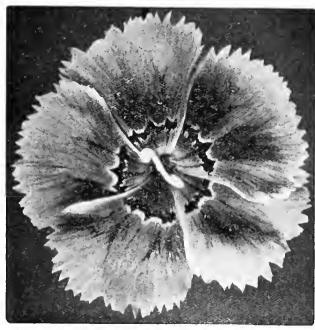

CARTERS TESTED SEEDS—BEAUTIFUL FLOWERS

The following are packed in 6d. 1/- and 1/6 packets.

DIANTHUS1

FESCHSCHOLTZIA

DIANTHUS (Dianthus Chineusis, Indian Pink).—Biennial.
We consider the Heidiwigi section of the Dianthus introduced by our house from the East and the parent of many of the best types, to be one of the finest additions to our annual flora for the last fifty years, and the varieties detailed below are the improved results from the original importation. Sow in spring in hoxes or pots, and transplant to where intended to bloom. Seeds of all the improved types may be also sown at the end of summer, and grown on in pots through the winter under fairly cool treatment. They will make robust plants at the end of spring, and become useful in the decoration of the conservatory. Our Lerus flowered, bused, true, its nearlifely conservatory. Our Large flowered Dwarf type is a beautiful selection.

- 3875 Carters Large-flowered Dwarf Single,—A superb mixture of beautiful colours and markings. Free blooming and dwarf. The plants attain a height of about 6 to 8 in.
- 3876 Carters Vesuvius.-Single fiery searlet, brilliant colour, Ht. 1 ft.
- 3877 The Bride.—Its blossoms measure $2\frac{1}{2}$ in neross. Carmine centre, with a zone of deep chocolate, surrounded by an expanse of pure white. 11t. 9 in.
- 3878 Salmon Shades Semi-double.—Contain many beautiful salmon, salmon pink, and salmon-scarlet shades, which cannot be obtained in separate colours from seed. A brilliant strain for bedding. 11, 9 in,
- 3879 Carters Japanese Feather Single, -A most fautastic strain of Japanese origin, producing broad petals with a long feathery fringe in a remarkable range of colours. 11t, 9 in,
- 3880 Crimson Belle Single, -Colour a rich brilliant crimson. IIt. 1 ft.
- 3881 Diadernatus, fl. pl. -A double strain of extraordinary beauty, edged and blotched.
- 3882 Eastern Queen Single,-Marked with delicate pencilling of rose and white. A beauty. 11t. 1 ft.
- 3883 Double White.-Fine flower of good form. 11t. 1 ft.
- 3884 Dwarf Crimson Semi-double, Large-flowered.— Clear glowing crimson, shaded maroon. Very compact habit, 111, 9 in.
- 3885 Dwarf White Single, Large-flowered. Pure sating-white petals, forming perfectly circular outline. A faint central zone of pale pink makes the flower very handsome. 11t. 9 in,

DIANTHUS -Continued

- 3886 **Heddiwigi.**—The original strain from Japan. Large single blossoms fine colours
- Heddiwigi nobilis.—A grand improvement, with robust dark foliage. Ht. I ft.
- 3888 Laciniatus.-Grand single flowers. Ht. 1 ft.
- 3895 Carters Choice Singlo Mixed.—Every shade found in Japanese Dianthus is contained in this strain; deepest crimson, countless shades of maroon, scarlet, carmine, rose-pink to pure while. Many blooms are beautifully pencilled on white and dark grounds. Itt. Ift.
- 3896 Carters Choice Double Mixed.—Very large double flowers of all shades. Although annuals, many of the forms found in this mixture equal the named perennial Pinks.

DIDISCUS.—Pretty half-hardy annual; fine for not culture.

3927 Coeruleus,--- Bright blue. 11t 1 ft

DIGITALIS .- See Foxglove,

- DIMORPHOTHECA.—Sow in cold frames in March, and transplant to open, or sow in open during April, Rows in our testing grounds have been covered with blossom for six months in dry and wet seasons.
- 3914 Aurantiaea.—Annual, Brilliant growing orange blossoms
- with black disc. Ht. I ft, 3915 Aurantiaea Hybrids.—Annual. New selected hybrids in splendid mixture. 11t. I ft.
- DRACÆNA .-- Pasily raised from seed. Sow in pans, in heat, in early
- 3939 Rubra.—A decorative table plant with variously coloured foliage, 11t. 2 ft.

ECCREMOCARPUS. -See Calampelis.

EDELWEISS (ALPINE, EVERLASTING).

4028 White.-A favourite flower of the Alps.

- EGG PLANT (AUBERGINE).—Ornamental fruited. Very decorative as pot plants in the conservatory when in fruit. Sow in spring in heat, and pot off as soon as they can be handled.
- 4029 Purple.
- 4930 Searlet.
- 4031 White.

ERICA (CAPE HEATHS) .- Winter-flowering plants.

4037 Mixed.—Carters choice varieties.

Per pkt., 2/6

- ERINUS ALPINUS.-Herbaceous perennial. Sow in spring where plants are to grow, and thin out.
- 4943 A charming Alpine rock plant; blue,
- ERYNGIUM (SEA HOLLY).-Ornamental foliage. Sow in winter or spring in pans, and plant out.

 4946 Amethystinum.—Blue stem and bracts.
- 4047 Giganteum. Grand foliage, ivory white.
- ERYSIMUM.—One of the brightest and best hardy annuals. Grown everywhere. Sow in autumn for spring flowering, and in early spring to flower later.
- 4051 Golden Gem.-Brilliant golden yellow. Ht. 9 in.
- 4052 Perowskianum.-Orange Virginian Stock. Ht. 1 ft.
- 4053 **Pachycarpum.** -A spring flowering biennial. Hardy; very showy; orange. 11t, 1½ ft.
- ERYTHRINA (CORAL TREE).-Greenhouse shrubs. Sow in heat in early spring, and pol off.
- 4056 Mixed.—Carters choice varieties,

ESCHSCHOLTZIA. (Californian Poppy.) Hardy annuals (or bicumials) of immense utility for mixed borders. Hardy, bright, and free-blooming, and of the easiest enture. They bloom and flonrish equally well on light and heavy soils. Although not generally known, Eschscholtzias are excellent for decorative work. If cut early in the morning before the buds unfold, the flowers will last for several days in water. Sow in open in spring, and thin out. 11t.1 ft.

Many of our later introductions of Eschscholtzias have been characterised by a distinctively compact and upright habit of growth, rendering this attractive flower suitable for fronts of borders and other places in the garden not hitherto filled by Eschscholtzias. We classify them accordingly.

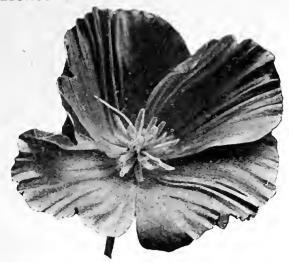

The above are packed in 6d. 1/- and 1/6 packets.

CARTERS TESTED SEEDS-BEAUTIFUL FLOWERS.

The following are packed in 6d. 1/- and 1/6 packets.

ESCHSCHOLTZIA1

ESCHSCHOLTZIA—Continued.

Combact Section.

- 3967 The Geisha, -Award of Merit, R.H.S. Petals prettily fluted. Colour inside of petals brilliant golden, outside of petals orange-crimson. Habit of growth, upright and compact. The most brilliant colour in this family of bright shades. A bed in bright sunshine has the appearance of being on fire.
- 3968 Carters Fringed.—Of the Californica type, with deep-coloured base to the prettily fringed petal.
- 3969 The Rajah. This has brought for the first time a purplish carmine in Eschscholtzias.
- 3970 Carters New Hybrids,—Contain many shades and tints of colour not previously seen in Eschscholtzias, giving a play of colour at once interesting and brilliant, the pale rose and flesh shades being particularly charming.
- 3971 The Mikado.—Award of Merit, R.H.S. The Mikado was the result of a cross between Mandarin, which we introduced in 1879, and Carmine King, of 1996. A brilliant orange-crimson, suffused with the lustre of Carm ne King.
- 3972 Carters Carmine King. -Award of Metit, R.H.S. The Instrons carmine colour is very attractive.
- 3975 Carters Mandarin.-Exterior, orange-crimson; inner surface deep orange.

Open-growing Section.

- 8973 Carters Diana.-This is a most dainty flower. The colour is a rosy white, while the petals are fluted in a most novel manner, giving the flower quite a fantastic and attractive appearance.
- 3974 Dainty Queen.—A beautiful shade in Eschscholtzias. Colour a tender blush or pale coral pink, slightly deeper towards the edges, with a groundwork of delicate cream. Flowers rather later than other varieties.
- 3977 Carters Double Orange.
- 3978 Carters Rose Cardinal.—Bright rose.
- 3979 The Golden West-The largest flowering of all the Eschscholtzias. A charming orange colour.
- 3982 Californica.-Yellow.

3984 Croeea alba.-White.

3983 Crocea .-- Orange.

3985 Crocea rosea.

- EUCALYPTUS (AUSTRALIAN GUM TREES).-Handsome ornaments in the sub-tropical garden or in pots. Sow in gentle heat in early spring, and pot off.
- 4059 Amygdalinus (Giant Gum Tree).—One of the hardiest.
- 4060 Citriodorus (Lenion Gum). Lemon-scented foliage.
- 4061 Globulus (Blue Gnm) .- Fine glaucous foliage and strong

EUTOCA -- Sow out of doors in spring.

4067 Viscida,-Hardy annual; bright blue. Ht. 1 ft.

EVENING PRIMROSE (GENOTHERA). - Exceedingly useful in mixed borders. (The percunial species may be sown in early spring in pans in cool frame, and then transplanted; the annual and biennial out of doors in April and May.

FORGET-ME-NOT

4070 Acaulis (Taraxavifolia).-White: trailer. Annual. 11t. 6 in.

4071 Lamarekiana.-Golden: magnificent biennial. Ht. 4 ft.

4072 Maeroearpa.-Large yellow blossoms; trailing perennial.

3074 Garden.-Bicunial. Ordinary species; yellow.

EVERLASTING FLOWERS.

HELICHRYSUM.

Annual. A very beautiful everlasting flower, available in a wide range of colours. If cut before quite developed, the flowers are very lasting

3995 Carters Fireball.—Brilliant crimson.

3996 Carters Silverball.-Silver white.

3998 Purale.

mot Vellow

4002 Carters Choicest Mixed.

ACROCLINIUM.—Annual.

- 4005 Double.-Beautiful rose-pink; good for pots or for early forcing.
- 4096 Roseum.—Ordinary.
- 4007 Album.—White.

AMMOBIUM.-Annual.

4009 Alatum.—Pure white: eccentric growth.

Annual. The pick of the Australian flora in Everlasting Flowers. Immense favourites. Well adapted for forcing in early spring, and for window boxes.

4013 Maculata.-Bright rose with dark centre.

4014 Maculata alba.-Large: pure white.

4015 Atrosanguinea.-Dark rose.

4016 Manglesi.—The earliest introduction.

XERANTHEMUM. - Annual. Free-growing.

4018 Double purple.

4019 Double white.

4020 Satin eerise .- A lovely colour.

- **EVERLASTING PEA** (LATHYRIS). Favonrite hardy perennial. Sow in spring in the positions the plants are to permanently occupy, as they are rather impatient of transplanting.
- 4077 Red (Latifolius).
- 4078 White (Latifolius albus).
- 4079 Rotundifolius. Dark rose.
- FERNS,-Seed (or spore) carefully saved. Sow in pans of sandy peat, and prick off as soon as large enough.
- 4110 Greenhouse Varieties Carters choice selection
- 4111. Hardy Varieties.-All sorts.

FEVERFEW .- See Pyrethrum.

FISHBONE THISTLE. -See Chamapenere.

FLAX .- See Linnur.

FLOS ADONIS (PHEASANT EYE).

4114 Hardy Annual. - Scarlet and black. Ht. 1 ft.

FORGET-ME-NOT In addition to their great value (Myosotis).

as spring bedding subjects, some species are useful for pot work. Carters Pyramid varieties are

particularly recommended for this purpose.

- 4080 Carters Royal Blue-Deep blue of a remarkably free flowering habit. These leading. It. I ft. These lovely plants are in great repute for
- 4981 Carters Light Blue.—A highly selected type of Alpestris. It comes into blossom early, and continues in bloom until quite late. Ht. I ft.

The above are packed in 6d. 1/- and 1/6 packets.

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

[GENTIANA

FORGET-ME-NOT1

The following are packed in 6d. 1/- and 1/6 packets.

FORGET-ME-NOT-Continued.

No. 4082 **Dissitiflora.**—Best bedding, blue. Ht. 9 in.

4083 Dissitiflora Alba.-White.

4085 Azorica.-Light blue; compact growth. 11t. 6 in.

4086 Rupicola.-Deep blue; a gem for pot work. Ht. 4 in.

4087 Star of Love.-Beautiful blue. Distinct spray-like spikes of bloom. Ht. 6 in.

No. 40.33 Carters Pyramid.

CARTERS PYRAMID FORGET-ME-NOT.

We offer these charming pyramidal types of Forget-me-nots with confidence that they will be greatly appreciated by our customers for spring bedding purposes. The plants assume an upright habit of growth, and when in bloom resemble miniature pyramids of floral beauty. Ht. 1 ft.

4092 Carters Pyramid Blue.

4093 Carters Pyramid White.

4094 Carters Pyramid Pink.

FOXGLOVE (Digitalis).—Stately percunials. As a background in a shrubbery, or as specimen plants in large beds, they are equally striking and effective. Sow in July for strong flowering plants the following season.

4101 Carters Spotted.—A superb mixture containing a wonderful range of colours, the soft rose and carming shades being particularly fine. The older forms of magenta and crude pink have been climinated from this choice strain. Fine colours

4102 Canariensis.—A novel colour, orange brown. 4103 White.—Superb variety. 11t. 4 to 6 ft.

4104 Monstrosa.—A singular variation. A long spike with a large flower at the top. 4105 Gloxinioides.—Large-throated species. 111, 3 ft. 4106 Grandiflora.—Currious species. Yellow. Ht. 3 ft. 4107 Purpurca.—Purple. 11t. 3 ft.

FRANCOA.

4117 Ramosa Hybrida (Bridal Wreath). Half hardy perennial. Lovely sprays of pure white flowers are freely produced on long branching spikes. Very easy of cultivation for greenhouse or conservatory decoration. Seed sown in March flower freely in about 15 months. Ht. 22 ft.

FRAXINELLA (BURNING BUSH) .-- Hardy perennial. Seeds may be sown in spring. 4120 Red Purple.—IIt. 2 ft. 4121 White.—IIt. 2 ft.

FREESIA - A bulbous plant with beautiful flowers. Sow in pans in

heat, in early spring. 4123 Carters Choice Mixed.—Deliciously secuted, white and yellow. Ht. 1 ft.

FRENCH HONEYSUCKLE: Hardy free-growing percunial. Sow

in spring, and transplant. 4126 **Red or Crimson**.—11t. 3 ft.

4127 White.-Showy plant. 11t. 3 ft.

FUCHSIA.-Handsome flowering shrub. Sow in gentle heat in carly spring; pot off. 4129 Superb Mixed.—A splendid collection.

GAILLARDIA.—We were awarded the First Class Certificate of the Royal Horticultural Society for Double Gaillardias.—Showy and handsome hardy perennials, for beds and borders. The flowers are a most peculiar combination of shades, varying between gold and maroon. Sow in summer in drills, transplanting to permanent positions during autumn; also sow early in spring under glass, prick off into boxes, and plant out in May.

The annual varieties may be sown in open ground early in

spring, thinning the plants to 1 ft. apart.

4184 Carters Large-flowering Choice Single Hybrids. Perennial variety, but will flower the first season if sown early,

JIS5 Grandiflora hybrida, Crimson and gold; large blossoms.

4186 Grandiflora hybrida compacta. New dwarf compact variety. III. I ft. Nos. 4185 and 4186 will flower the first season if sown early.

Annual Varieties.
4189 Carters Choice Double. Mixed; large globular heads.

4257 Flore pleno.—Semi-double: crimson scarlet.

4258 Mrs. Bradshaw.-A giant double form of flowers of perfect shade of brilliant crimson scarlet. Comes quite true from seed.

GILIA.—Barliest annual. May be sown in spring, or at the end of summer ont of doors,

4261 Tricolor.—Purple, lilac, and white. 11t. 1 ft.

GLOBE AMARANTHUS.-Ammal. Greenhouse pot plant. Sow seed in spring, in heat; pot off in light soil, 4264 Orange.—Crisp petals.—It. I ft. 4265 Purple.—Rich colour.—Tit. I ft.

GLOBE THISTLE (ECHNOPS RITRO),-Perennial. 4268 Bee Feeder.—Large globular blue heads. 111, 3 ft.

GLORY PEA.-See Clianthus.

No. 4141 Carters Invincible Prize Gloxinia Growing for Seed at our Nurseries, and described in next column,

IGODETIA

GODETIA

GLOXINIA,—Sow in well-drained pans from January to March (or in the antunm), fill the pans with soil consisting of a mixture of half peat and half leaf mould, with a small quantity of pulverised charcoal and silver sand silver devery fine, to within half an inch of the rim; water with fine rose, then sow the seed thinly, taking care not to cover it with soil; place in a temperature of 75 degs., and cover the pans with a piece of shaded glass, gradually removing the same as the seedlings progress. When large enough to handle, prick off into pans at about 1 in. apart, then pot off into single pots. Many will soon attain the requisite strength to go into 5 in, or 48 pots, and will bloom in August and September of the same year. The potting-off soil should consist of one-half good loam, one-half fibrous peat, with a good sprinkling of sand and broken charcoal. charcoal

Carters Invincible Prize Superb Mixture.—The superb Carters Invincible Prize Superb Mixture.—The superb mixture of Gloxinia we offer under the name Invincible is magnificent. It contains all the best self-colours, crimson, sapphire, purple, rose, blush, violet, white, &c., also the finest edged, tipped, ringed, and shaded varieties, together with the most beautiful spotted or marbled kinds, and is the finest we have seen. Gold Medal, Chelsea, 1912; Gold Medal, Chelsea, 1913. Blooms 6 in. across.

Per pkt., 2/6, 3/6, and 5/-

4135 Carters Giant Carmine.—A choice colour in Gloxinias, the edges of the blooms being of a light carmine gradually shading to a deeper tone towards the throat. The habit is robust and erect. Per pkt., 1/6 and 2/6

4136 Carters Giant Purple.—A strong grower, carrying flowers of immense size. In colour it is a deep-velvety purple, with a slightly spotted throat.

Per pkt., 1/6 and 2/6 Per pkt., 1/6 and 2/6

4137 Carters Giant Searlet.—A very vivid scarlet variety, which comes quite true from seed. The flowers are of good size and texture.

Per pkt., 1/6 and 2/6

4138 Carters Giant White.—We consider this the best white yet raised. The size of the flowers, the purity of its colour, and its robust habit, leave nothing to be desired. The large flowers are held creet on exceptionally strong stems. Per pkt., 1/6 and 2/6

4140 Carters Cyclops -This is one of the largest and strongest growing Gloxinias in commerce. The base of the throat is cream, heavily spotted, whilst the upper portion is of intense scarlet, passing to a soft pink, ultimately leaving a wide margin of purest white at edge of each lobe. Per pkt., 1/6 and 2/6 Per pkt., 1/6 and 2/6

4143 Othello,-Very large; deep blue Per pkt., 1/6 and 2/6

4141 Erect Varieties ... Each, 1/6 and 2/6

GODETIA.—In addition to the wide range of shades now found in this lovely annual, the plants vary greatly in habit. We have therefore divided them into three sections, and trust this will assist our customers in making their selections. All varieties may be sown in boxes and trans-planted, or may be sown direct into the ground. A few are excellent for nots

No. 4151 Godetia, New Lavender,

The following are packed in 6d. 1/- and 1/6 packets.

GODETIA1

GODETIA.--Continued.

[HELICHRYSUM

4151 Cartors New Lavender.-Single. Award of Merit, R.H.S. The pule lavender flowers are borne on long graceful racenics, which are splendid for table decoration. This is quite distinct from any other Godetia, and is the best variety for pot culture. Sown in September the plants bloom in early spring. Ht. 2 ft.

4152

NOVELTY. Tall Double Deep Rose.—Very brilliant and handsome. Bright solid rose, shaded and edged earmine. Identical in habit with our Double Pink variety. 11. 22 ft.

- Carters Doublo Pink. A rather stronger grower than Carters New Lavender, bearing a number of long spikes which carry 18 to 20 beautiful double clear pink blooms, which will last a week in water if cut in a young state. It is also splendid 4153 Carters Doublo Pink. for pot culture. Ht. 21 ft.
- 4154 Tall Spotted (Bridesmaid).—Single. Deep flesh pink with rose blotch at base of each petal. Ht. $2\frac{1}{2}$ ft. MEDIUM VARIETIES.
- 4160 **Single Blush** (*The Bride*).—A very telling pale pink variety, with deep pink zone at the base of petals.—Ht. 1^1_2 H.
- 4161 Carters Dark Rose (Lady Albemarle).-Deep rose, edged carmine. Ht. 12 ft.
- 4162 Carters Carmine. Pure clean carmine with white zone.
- 4163 Carters White (White Pearl).—The best white Godetia, the blooms being creamy white which blends well with other varieties. Ilt. 1½ ft.
- 4167 Carters Choice Mixed -A well-balanced strain, containing all the best colours found in the tall and medium sections.

DWARF VARIETIES

- 4173 Deep Rose Pink (Lady Satin Rose).—A very pure colour with shining satin surface. Very brilliant. III, I ft.
- 4174 Pink (Rosantund).-Rich medium shade. Flower well formed
- and very freely produced. III. I ft.
 4175 Crimson (Gloriosa).—The deepest colour in Godetias. Solid and of splendid substance. III. I ft.
- 1176 **Crimson Glow.**—Bright crimson scarlet with pure white base. The petals being very full and crimped give the flowers a very graceful appearance. One of the most free flowering. IIt. I ft.
- 4178 Miniature Crimson,-Valuable for edging and bedding, Dwarf and compact, glowing crimson, shaded rosy licliotrope at edge. Ht. 6 in.

GOLDEN FEATHER. -See Pyrethrum.

GOURDS (ORNAMENTAL).-These require about the same cultivation as Vegetable Marrows, and should be largely grown in flower gardens and pleasure grounds. Trained over a pergola they form a distinct, interesting, and beautiful feature. The smaller fruiting Apple, Orange, Pear, and Egg.shaped kinds produce a charming effect when trained over arches, while the majority of charming effect when trained over arches, while the majority of the page above the page of the varieties have a very charming effect when tied up to poles. The Pumpkin and Squash varieties are eaten very largely on the Continent and in the United States.

4283 Mixed, in great variety.

4284 Collection, 12 varieties, small-fruited kinds, Apple, Pear, Orange, &c. 3/6

12 varieties, large-fruited kinds, Pumpkins 4285 Collection, Squash, Turk's Cap. &c.

GRASSES, ORNAMENTAL, Units on Culture. The annual varieties should be FOR DECORATION, &c. sown out of doors

during April where they are intended to flower, or for earlier work sow under glass and plant out. The perennial varieties are best sown during summer, and planted out in borders in spring. The flower heads should be ent in a young stage and hung upside down to dry, as they are then more lasting for decorative purposes.

- 4196 Agrostis nebulosa.-Elegant and graceful; the best.
- 4200 Briza gracilis (Quaking Grass),
- 4201 Briza maxima (Quaking Grass).
- 4204 Coix lachryma (Job's Tears).
- 4205 Cyperus alternifolius (Umbrella Grass).—Semi-aquatic.
- 4206 Eragrostis elegans (Love Grass).
- 4211 *Gynerium argenteum (Pampas Grass).
- 4212 Hordeum jubatum (Squirrel's-tail).
- 4213 *Isolepis gracifis.—Charming pot plant.
- 4214 Lagurus ovatus (Hare's-tail Grass).
- 4217 Panleum plicatum.—Graceful panicles of bloom.
- 4218 Panicum tonsum.—New and beautiful.
- 4219 Panieum virgatum.—Delicate, graceful bloom.
- 4220 *Stipa pennata (Feather Grass).
- 4221 Carters Choice Mixed Varieties.
- 4224 Collection of 6 Distinct Varieties ... Per pkt., 2 6 * These varieties will not bloom the first year from seed.

GREVILLEA.—An ornamental plant. In great use for decorative purposes. Sow in heat in early spring, and pot off as soon as they can be handled.

4271 Robusta.-The best for general use. Beautiful feru-like foliage.

GUM TREE,-See Rucalyptus.

GYPSOPHILA (CLOUD PLANT).—Graceful panicles of wavy blossom; for bonquets, table decoration, vases, &c. Sow the annual species in spring where the plants are intended to flower, and thin out seedlings. Paniculata is a perennial, and should be sown in spring or summer.

- 4274 Elegans grandiflora. Annual. Cream white.
- 4275 Elegans Carmine.-Annual. A new shade. Most effective for decorative purposes.
- 4276 Elegans rosea, -Annual, Rose,
- 4277 Muralis.-Hardy annual for rockwork. 41t, 6 in.
- 4278 Paniculata. The Pere White Perennial Kind. Ht. 22 ft.

HAWKWEED.—Annual. Will grow anywhere if sown in spring.

- 4311 Red.—Ht. 1 ft.
- 4312 White,-- Ht. 1 ft.
- 4313 Yellow.—Itt. 1 ft.

HEARTSEASE. - See Pausy.

KAULFUSSIA.-Hardy annual. Sow in spring where plants are to

remain.
43-3 Amelloides.—Bright blue. Ht. 6 in.

KOCHIA._A charming and most effective decorative plant. with a habit much resembling one of the compact evergreen shrubs. It has a light grass green feathery foliage, evergreen shrubs. It has a light grass-green feathery foliage, which changes as the summer advances to a rich crimson. It is a perfectly hardy annual, and can be sown in the open ground; it is a rapid grower and flourishes on all soils. The best method is to sow the seed under glass, pot the seedlings off singly, and ultimately bed out or plunge the pots in which they are growing. These round shrub-like plants (often called the Mock Cypress) are most effective when planted amongst flowers, such as Begonias. Geraniums, Petunias, &c.; in fact, they are most useful for the centre of any bed or when planted out in some decorative scheme. The plants should be pluched back and trimned to shape when necessary. Ift, about 2 ft.

4396 Carters Selected Kochia (Trichophylla)-Hardy annual.

LANTANA.-Half-hardy perennial. Sow in heat in early spring,

and pot off.

4428 Carters Choice Mixed.—Heliotrope-like. Beautiful colours.

4429 Carters Dwarf Varieties.-Pots or bedding.

LAPAGERIA.-Greenhouse elimber. Sow in well-dramed pans of sandy peat and leaf mould in spring, under glass.

4432 Rosea.—Mottled rose; wax-like. Crop Failed.

LARKSPUR,
effective in beds.
and transplanted

The seed should be sown in spring, in boxes.
Can be sown ontdoors in April.

MARGUERITES. Annual Chrysanthemnus, 4619 Annual.—Choice mixed.

MARIGOLD, AFRICAN.—From their bold appearance and enormous globular flowers these showy annuals are specially effective in large mixed borders. Sow at the end of winter under glass, and transplant in April and May

4589 Carters Giant Show Lemon.—Superior strains for exhibition. Enormous blossom. III. 1½ ft.
4590 Carters Giant Show Orange.—Superior; for exhibition.

Fine habit; grand, 1½ ft. 4593 Mixed, Carters Varieties.—Itt. 2 ft.

MARIGOLD, FRENCH.—This showy annual can be sown in spring and thinned out where expected to bloom; they may also be sown in March in boxes or pots under glass, then transplanted into other boxes, 3 in, apart, to make sturdy stuff for planting out in June or earlier. Marigolds are profuse bloomers, particularly so if all dead flowers are ent off. if all dead flowers are cut off.

DWARF DOUBLE-FLOWERED VARIETIES.

566 Carters Compact Striped. -- Beautiful large double blossom, dwarf variety. Continues blooming until the end of summer, 11t, about 1 ft.

simmer. 11t. about 11t.
4567 Carters Gold Edged.—A beautiful animal of compact but vigorous habit. Flowers a velvety maroon, with gold edge; very constant. Handsome edging plant. 11t. I ft.
4574 Butterfly.—A taller growing double variety, brilliantly marked and striped. 11t. 1½ ft.
4575 Dwarf Golden.—Fine dwarf bedding, 1 ft.

4576 Dwarf Orange.—Selected colour. I.f., 4578 Mixed, Carters Dwarf Varieties.—All colours; for beds

The above are packed in 6d. 1/- and 1/6 packets.

Carters Address for all correspondence, RAYNES PARK, LONDON, S.W. 19.

MIGNONETTE -Continued.

- No. 4660 Carters Perfection.—A giant red-flowered variety with a delicious scent. This fine strain is a very great improvement, and owing to its robust habit the seedlings require plenty of room, when they will make bushy plants resembling Intermediate Stocks. The spikes of bloom are larger than any other variety, and the habit much less straggling. If the seed-pods are kept pinched off, the beauty of the plant will extend over a language and with care in this respect will continue until a long period, and with eare in this respect will continue until ent down by frost. Per pkt., -/6, 1/-, 1/6, and 2/6
- 4631 Carters White Queen.-A distinct and beautiful varietyproducing large spikes of white bloom, exquisitely scented. Itt. 14 ft.
- 4662 Golden Queen.-For a long time the leading yellow variety
- 4783 Carters Red King.—The finest and richest red; a great improvement on the crimson Victoria variety. Deliciously scented. Ht. 14 ft.
- 4664 Machet-An excellent variety for pot work; strong, dense blooms, glossy green foliage.
- 4665 Carters Victoria.—Produces a fine shapely spike of bloom. Excellent colour. Highly scented.
- 4666 Crimson Giant.—Fine hardy variety of the greatest use for general purposes. 111, 1 ft.
- 4668 Carters Spiral.—First-class free-blooming variety, with long slender spikes. Ht. Ift.
- 4669 Goliath.—Magnificent blossoms and scent,
- 4670 Golden Gem.-The finest dwarf golden varieties. Ht. 6 in.
- 4667 Carters Garden Sweet-This is a selected stock of the original Mignonette of gardens. Delicious odour.
- 4671 Hybrid Tree.-Hardy for pots or borders.
- 4672 Carters Mixed .- All varieties.
- MIMULUS.—Half-hardy annual. To those who know only the original kind, the present magnificent specimens will come as a delightful surprise, the blossoms being of grand size and richly coloured. Besides being of service in beds and borders, they make nice pot plants. Sow in early spring, in pans under glass, and prick off into boxes, and plant out when hardened. For pot work, the seedlings should be pricked out, and potted off in good light compost, and kept in warm frame. in warm frame.
- 1606 Carters Queen's Prize.-Mixed. Magnificent. This lovely large-flowered variety originated at our Nurseries, and we were awarded the First-Class Certificate of the Royal Horticultural Society for our efforts.
- 46)7 Garden.-Mixed. Select stock.
- 4608 Cardinalis.-Brilliant scarlet perennial for conservatory.
- 4609 Cupreus.-Deep scarlet. For edging fountains, rockeries, &c. Ilt. 6 in.
- 4610 Tigridioides.-For pots or rockeries.
- MINA.-Half-hardy annual climbers. Sow in pots in heat, in spring, and transplant.
- 4648 Lobata.-Red and yellow. 6 ft.
- MUSK (MIMULUS MOSCHATES).-Half-hardy perennial. grown in pots, or planted out in beds and borders. Sow in spring under glass.
- 4612 Yellow.-Fragrant pot or garden variety.

MYOSOTIS .- See Forget-me-Not.

NASTURTIUM.—Nasturtiums, both climbing and dwarf, are of the easiest culture, and anyone desirons of having a display of the most brilliant flowers, without any trouble beyond sowing the seed, should select this delightful family, as they will give off their best efforts through the brightest of the summer, merely needing the seed-balls picked off. If these are permitted to mature, the beauty of the plant is soon lost.

DWARF VARIETIES.

This beautiful annual originated at our Essex Seed Farms, These make the most beautiful bedding and border plants, and if sown at intervals from March to June the display of bloom will last until cut down by frost.

NASTURTIUM -- Continued.

GOLDEN FOLIAGE.

- 4692 Carters Golden Queen.-Rich golden-hued foliage. Very compact; flowers bright yellow. A very effective variety.
- 46)3 Carters Cloth of Gold. -Yellow foliage; scarlet flower. Bright and effective.

DARK BLUE-GREEN FOLIAGE.

- 4393 Carters Empress of India.—This has been justly described as a sensational variety. Foliage dark bluish green, with flowers of an intense crimson scarlet. Raised at our seed farms. and awarded the First Class Certificate of the Royal Horticultural Society.
- 4697 Carters Scarlet King.-Fine dark foliage; brilliant scarlet flowers, well thrown up above the leaves
- 4698 Carters Vesuvius.-Dark leaved, with salmon-pink flowers with dark spot on base of upper petals.
- (6.)9 Carters Dark Leaved Varieties, Mixed.

GREEN FOLIAGE.

- 4702 Carters Lilliput.-An extra dwarf, floriferons variety. All colours mixed.
- 4703 Tom Thumb Crimson.—Deuse maroon crimson.
- 4704 Tom Thumb Crystal Palace Gem.-Pale sulphur, with a carmine spot.
- 4705 Tom Thumb Pearl.-Light cream, nearly white.
- 4706 Tom Thumb Rose. Rose colour, with a bluish tint.
- 4707 Tom Thumb Scarlet.—The freest bloomer of all this section.
- 4708 Tom Thumb Spotted.—Dark orange, with chocolate spot.
- 4709 Tom Thumb Yellow.-Fine, clear yellow. Good bedder.
- 47t0 Carters Dwarf Mixed (Tom Thumb).—All the best colours.

GREEN SHADED FOLIAGE.

- 4713 Chameleon.-Flamed, and beautifully marked.
- 4714 Golden King.-Beautiful rich dark gold colour.
- 4715 King Theodore.—Intensely dark crimson or chocolate.
- 4716 Ladybird.-Golden colour, with searlet spot.
- 4717 Ruby King.-Ruby rose, novelty in colour,
- 4718 Spotted King.—Rich golden yellow with crimson spot.
- 4719 Terra Cotta, -A rich salmon-brown flower; nice habit. Bright green foliage.

The above are packed in 6d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly order by number and price only,

Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

NASTURTIUM -Continued.

CLIMBING NASTURTIUMS AND TROPÆOLUMS.

The Climbing Nasturtium has long been a popular annual flowering plant, as when once the seed is sown it requires no further attention. It is invaluable for covering musightly spots, as when the position does not admit of its climbing, it is equally at home as a creeper. The seed must not be sown until all chances of frost are over.

- 473) Crimson.—A very attractive colour.
- 4731 Searlet.-Dazzling brightness.
- 4732 Spotted.-Golden, with dark spot.
- 4733 Yellow.-Rich and shining.
- 4735 Carters Choice Mixed -- All shades.

ORDINARY

- 4739 Dark Varieties.
- 4740 Light Varieties.
- 4741 Mixed Tall. -All shades.

TROPÆOLUMS.

- 4744 Defiance.—A new variety. Deep crimson-scarlet; leaves blue-
- 4745 Brilliant, -Crimson-scarlet.
- 4746 lvy-leaved .- Effective scarlet flowers.
- 4747 Speciosum (Flame Flower).-Hardy climber. (This is also sold in dormant tubers.)
- 4748 Tricolour. Greenhouse climber. (This is also sold in dormant tubers.)
- 4751 Firehall.-Scarlet.
- 4752 Lobbianum, Mixed.
- **NEMESIA.**—Half-hardy annual. Nearly related to the Linaria. Free blooming dwarf bushes for pot culture and open borders. Sow in spring under glass, and transplant; or sow out of doors in May, in patches, where they are intended to flower.
- 4678 Carters Large-flowered Mixed.—The finest strain of this most popular flower yet introduced, both for size and massive build of the individual flowers, also for the richness and variety of colours. Ht. I ft.
- 4879 Blue Gem.-Although rather small flowered, one of the best blue annuals for bedding.
- 4682 White Gem .- An excellent companion to above.
- 4680 Strumosa,-A variety of colours. 1 ft.
- 4681 Nana compacta grandiflora, Orange Prince,-Gained an Award of Merit of the Royal Hocticultural Society. Ht. 6 to
- NEMOPHILA.—Hardiest of annuals, and of the easiest culture. Makes a very effective front row to a bed or border, and should be sown out of doors in spring, in patches, where they are to flower. 4684 Holborn Blue Bell.—Ultramarine, white throat.—Ht. 6 in.
- 4685 Atrocærulea .- Bright blue, with minute spots. 11t. 6 in.
- 4687 Insignis.—Blue. A popular hardy annual for pots or borders.

NERTERA.-Sow in spring, in light sandy soil,

- 4769 Depressa.-Covered with small scarlet berries. For pots. 111, 2 in.
- NICOTIANA (Tohacco). Stately half-hardy perennial. Grown as foliage plants for sub-tropical garden. Sow in pans, in heat, prick off into boxes, harden off, and plant out when frosts are gone.
- 4755 Affinis.-The beautiful white species, deliciously scented in the evening. Ht. 2 ft.
- 4756 Affinis hybrida.—It is one of the most valuable introductions, and can be recommended to all. Finest mixture of all colours, as white, rose, pink, red, crimson, violet, light blue, dark violet, &c.
- 4757 Sylvestris, White blossoms, drooping in bunches like Fuchsia fulgens, Ht. 3 ft.
- 4758 Colossæ.-Grand deep green foliage. 6 ft.
- 4759 Atropurpurea.—Dark mibrib to leaves. Ht. 6 ft.
- 4760 Havana,-Delicate foliage. Ht. 3 ft.
- 476] Madrophylla, Grand foliage; makes a hold specimen. 11t. 6 ft
- 4762 Virginian.-Popular; for general use. 6 ft.
- 4763 Sanderæ,-Dark pink flowers. Ht. 3 ft.
- 4765 Carters Mixed Varieties (Tobacco).

NIEREMBERGIA.-Half-irurdy perennial. For hanging baskets. Sow in spring, and pot off.

4772 Gracilis.-Delicate silver lavender, like miniature Petunias.

NIGELLA .- Sec Love-in-a-Mist.

NIGHT-SCENTED STOCK .- Sec Mathiola.

CENOTHERA. - See Evening Primrose.

PÆONIA. (PÆONY.-Hardy tuberous perennials. Sow in autumn, in pots or pans of sandy soil in cold frame, and plant out in spring.

4788 Carters Choice Mixed.—Saved from the best varieties

PANSY.—Pansies will succeed in any soil that is not too hot and dry, and if a special compost is made for them it should consist of one-third rich loam, one-third leaf mould, and one-third well-decayed dung. In early spring the seed should be sown in frames or in boxes for summer or autumn blooming. be sown in frames or in boxes for similar or authinin blooming, and later on sowings may be made about July out of doors in a partially shaded place, transplanting in October or November where they are intended to flower the following season. The final position should be an open one, and the plants not less than 6 in, apart. There should be no check in their progress either by cold winds, very hard frosts, or long dronglits. Nor should they be watered during the hottest months with very world write.

4798 Carxers International Prize. A superb mixture of the largest and best types in every class. Will produce enotumous blooms in all the richest colourings and markings. As the name suggests, it is the best of all strains grown under our personal supervision, Per pkt., -/6, 1/-, 1/6, and 2 6

PANSY1

PANSY—Continued.

4791 Carters Giant Curled.—Large flowers of striking form and immense fullness, giving them the appearance of being somewhat double. They are variously coloured in all the richest shades, markings, and lacings. Quite a new class of the greatest beauty.

4792 Carters Péacock.—The only variety possessing the true peacock blue colours. Introduced by us.
4793 Carters Fancy Striped.—Elegantly striped, splashed, and mottled, a very enrious combination of colours that cannot fail to elicit astonishment. The flowers are large and freely produced, plants dwarf and compact.
4794 Silver Edged.—Deep maroon, with pure white margin; very

effective and profuse bloomer, but not so large in size as Carters

International Prize.

4795 Carters Prize Show-The Largest BLOTCHED AND RICHLY

4795 Carters Prize Show.—The LARGEST BLOTCHED AND RECHLY BELTED TYPES.—Very fine for exhibition or entitivation in pots.
4796 Lord Beaeonsfield.—A lovely Pansy, the lower petals being a rich dark velvet blue and the upper ones a silvery blue.
4797 President Carnot.—One of the prettiest grown. All-blue flower with a wide belt of white round the onter edges. Very effective in beds and borders.
4799 Fairy Queen.—Rich lavender blue, edged with white. Very effective and profuse bloomer.
4500 Brilliant Bedding.—A dwarf strain of neat habit. The blooms are of large size in the brightest and most telling shades, no dull coloured types being present.

no dull coloured types being present.

The following selection includes all the largest of the self-coloured varieties, and have been selected by us as the most meritorions and desirable varieties for bedding in separate colours. Of the highest state of perfection.

4886 Cartors Blue.—'True blue; distinct shade; very large.

4896 Cartors Jet Black.—'The first and best; rich velvet texture,

4807 Carters Pure White .- A lovely flower, without eye; very

4808 Carters Rich Yellow.-Bright, rich, and pure; a very effective shade

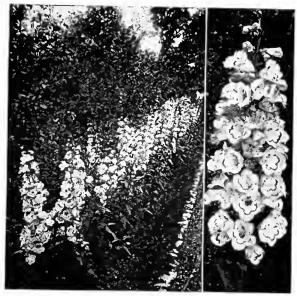

4809 Carters Rich Purple.—Large and showy; bold massive flowers; very fine.

flowers; very fine, 4811 Mixed Pansy.—Free flowering,

PAPAVER.-See Poppy.

PELARGONIUM .- See Geranium.

PENTSTEMON.— Hardy herbaceous plants. Brilliant flowers, somewhat like Foxglove, mostly with white throats. Continual bloomers. A fine border flower. Average ht. 2 to 3 ft. Sow in a pan of light soil in early spring, and transplant. All will bloom the first year from seed.

4817 Carters Annual Flowering Mixed.-Saved from a prize collection, which includes all the best colours. Some of the blooms may be expected to measure quite 2 in, across

PENTSTEMON—Continued.

4819 Gloxinioidos.—All shades mixed.

4821 Murrayanus. - Unique species; amber - scarlet tubes. Perennial.

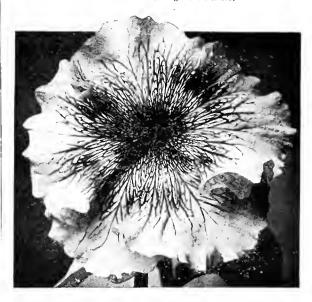

4822 Perennial Mixed.

PERILLA.—Ornamental foliaged hardy annual. Raise seedlings in heat, prick off into boxes, harden off, and plant out in June.

5094 Compact Curled.-Rich colour; dark purple foliage. 11t.

5095 Nankinensis, -Metallic purple bronze leaves. Ht 12 ft.

PETUNIA.—Carters grand strains of Petunia, as exhibited, and awarded highest honours.

4834 Carters Empress - (Reduced Photograph). Blooms 6 in. neross. For conservatory or bedding. We have been many years perfecting this magnificent type, which originated from our *Emperor* strain, and now embraces many delicate shades of colour, in pink, rose, and curmine. The elegant pencilling in the throat is the feature of this fine introduction. Per pkt., 1/-, 1/6, and 2/6

4835 Queen of Roses.-Rich cerise; very chaste.

Per pkt., 1/-, 1/6, and 2/6

4836 Purple Prince.—Rich velvety, with scalloped edge.
Per pkt., 1/-, 1/6, and 2/6

4837 Crimson King.—Very showy; rich. Per pkt., 1/-, 1/6, and 2/6

4838 Clematis Blue.—Rare shades of light and dark blue. Per pkt., 1/-, 1/6, and 2/6

4839 Cartors Emperor Strain.—Single, for conservatory or bedding. A great improvement upon the old-fashioned Petunia. Flowers twice as large, and containing every range of colour found in Petunias. All colours, mixed, per pkt., 1/-, 1/6, and 2/6

4840 White Pearl.-Very pure and fragrant; free blooming. Per pkt., 1/-, 1/6, and 2/6

4841 Green Bordered.—A very curious combination of purple and green. Per pkt., 1/-, 1/6, and 2/6

4842 **Laced and Fringed.** – Very pretty, deep fringed edges. Per pkt., **1/**-, **1/6**, and **2/6**

4813 Striped. Effective and showy. ... Per pkt., 1/-, 1/6, and 2/6

4844 Carters Splendid Double Petunia.— Superb mixture, 25 to 40 per cent, double flowers. Per pkt., 1/-, 1/6, and 2/6

The above are packed in 6d. 1/- and 1/6 packets.

farters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

PETUNIA -Continued.

BEDDING VARIETIES. PRODUCING FLOWERS IN GREAT PROFUSION.

4851 Carters Marbled.—Largest blossoms of great beauty: in four colours beautifully blended. Per pkt., 1/6 and 2/6

4852 Carters Holborn Star.—New and attractive; white star on a background of richest purple crimson. Compact and floriferous.

4853 Countess of Ellesmere,-Rose with white throat.

4854 Compacta grandiflora.—A mixture of delicate shades.

4856 Crimson.

4857 Dark Violet.

4858 Striped.

4859 White.

4863 Mixed ordinary varieties.

PHACELIA.-Hardy annual. Sow in spring in open air and transplant.

5104 Campanularia. - Ultramarine blue; a most showy deep blue flower, beautiful for beds and edgings.

PHLOX DRUMMONDI.—The great advance recently made in both the size and colonrings of this popular annual should ensure its

the size and colonrings of this popular animal should ensure its again becoming a favourite for growth in beds and borders. It makes a most effective edging if the growths of the taller types are kept pegged down. Another point of importance in the enture of this pretty flower is the fact that it does not like being watered with cold pipe water, especially overhead; it spoils the foliage and rains the truss. This section may be expected to reach the height of I ft.

No. 4946 Carters Large Flowered Annual Phlox. Sec next column.

PHLOX DRUMMONDL Continued.

CARTERS LARGE FLOWERED ANNUAL.

4936 Carmine.-Bright and effective.

4937 Pink -Soft and delicate.

4938 Marbled. -A curious combination.

POLYANTHUS]

POLYANTHUS -Continued.

No.
5070 Munstead Strain.—We have been honoured with the distribution of the re-selected stock of Miss Jekyll's famous strain of Munstead Polyanthus Primrose. Every possible shade of white, cream, yellow, and orange is represented. We strongly recommend this Munstead strain for bedding purposes, or for growing in woodland walks and other such shady positions. The raiser has made such strides with this strain that quite a number of distinct and new colours, especially among the orange shades, are now represented.

Per pkt.—/6, 1/,-1/6, and 2/6

5071 Bfuo Shades.—A very wide range of shades is contained in this mixture, from pale lavender through all gradations of clear and deep blue to rich royal blue.

5075 Carters All Colours Mixed.—A unique strain, in which every shade and colour found in Polyauthus Primroses is represented, including a number of new orange and terra-cotta forms.

Great care is exercised to prevent any particular colour predominating.

Per pkt., -/6, 1/-, 1/6, and 2/6

5076 Mixed Ordinary.—This well-selected strain is of very hardy constitution, but the plants do not exhibit the wide range of colour found in the more choice strains.

CARTERS GARDEN PRIMROSE.

5082 Blue,—To obtain the best results seedlings should be raised each year, sowing in March, as the blue is more intense the first season than in subsequent years.

5083 Yellow .- The lovely Old English Primrose of the woods.

5085 Carters Choice Mixed.—Contains every obtainable colour. New shades are constantly occurring as the result of our continuous hybridisation.

POPPY.

SINGLE ANNUAL VARIETIES.

NOVELTY.

Shirley Poppy, Raynes Park Hybrids.—A unique strain of very robust habit, which contains a large range of smoke, blue, and slate variations, which are quite new among Shirley Poppies. A number of very beautiful new jecteedged forms, including shades of tangerine and orange, also give distinction to the strain. There is also a pecular graining in most of the pink and red shades which evokes admiration from all who have seen these Poppies growing in our trial grounds.

4871 Peacock (Pavonium or Umbrosum).—Charming miniature blossom; crimson with black spot. III, I ft,

4872 Tulip (Glaucum).-A bijon variety.

4873 Vietoria Cross.—A variety of remarkable beauty; scarlet with broad white cross.

No.
4869 Carters Shirley Poppy (Silk or Ghost Poppy).—This lovely garden annual Poppy has received its various names from its delicate texture and almost shadowy forms. Shades are endless; a strain of municual beauty.

DOUBLE ANNUAL VARIETIES.

Hints on Culture.—Sow thinly in patches, rows, or beds in spring where the plants are intended to bloom during early summer. When used as ent flowers they should be picked early in the morning before opening out.

PÆONY-FLOWERED GIANT.

4880 Rieh Searlet.

4881 Bright Lilae.

4882 Pure White.

4883 Pink.

4384 White, striped Searlet.

4887 Cartors Choice Mixed.

Munstead Cream Pink.—A lovely double form selected by Miss Jekyll.
The variety requires no better recommendation than the high opinion of this eminent horticalturist.

We shall be extremely obliged if enslowers will kindly order by number and price only.

The above are packed in 6d. 1/- and 1/6 packets.

4893 White.

4894 Light Rose.

4895 Salmon Rose.

- 4900 Double Carnation.—Rich pink. A very beautiful type.
- 4901 Double Carnation.-Mixed colours.
- 4902 Carters Searlet Cardinal.—Magnificent; petals deuse and delicately cut. Rich scarlet.
- 4903 Carters Rose Cardinal.—A lovely rose shade, elegantly fringed.
- 4904 Cardinal Hybrids.-New variations of colour.
- 4907 Double Mixed.—A bed of these makes a grand display.
- 4909 French (Papaver Rhaes fl. pl.).—Known as the Ramunculus Poppy. 11t, 12 ft.
- 4911 Mikado.—Double scarlet, with white edgings. Ht. 12 ft.
- 4012 White Swan.—Double. Pure white. Delicately cut and fringed.
- 4913 Carters Superb Annual.—This mixture never fails to attract attention in our trial grounds; contains every form and colour.

PERENNIAL VARIETIES.

- 4019 **leeland, Carters Choice Mixed.**—The merits of this species are great; of easy growth, adapted for pot or garden work, first class as cut flowers, and neat in appearance. Sow in patches where plants are to bloom, or in prepared seed bed, and transplant. They make good rockery plants. A superb mixture of all colours, 1Rt, 1 ft.
- 4920 Iccland, Golden.—Pale golden.
- 4921 lecland, Orange.—Terra-cotta.
- 4923 leeland, White.—Pure white.
- 4926 **Oriental, Searlet** (*Papaver orientale*).—This is the gorgeons Perennial Poppy of the carriage drive and shrubbery; scarlet and black. Ht. 2 ft.
- 4928 Oriental, Mixed.—Different colours.
- 4930 Bracteatum.-Orange searlet. 11t. 2 ft.
- PORTULACA.—Half-hardy annuals. Both the double and single are specially adapted for rockwork and covering the groundwork of large beds. These plants delight in a sunny aspect, and are extremely useful for edging purposes. Sow seed in drills on a warm border about the end of April, or in pans or boxes in spring, in warm frame, prick off, and plant out when frosts are over. 1H. 6 in.
- 4829 Carters Large flowered Mixed Single. Specially saved.
- 4831 Carters Large flowered Mixed Double, High-class,
- POTENTILLA (CINQUEFOIL).— Hardy herbaceous perennials. Average ht. 1 ft.—Sow in prepared seed sed and transplant.
- 5118 Double Varieties.-Novel colours.
- 5119 Single Varieties.—Mixed.

PRICKLY POPPY. - See Argemone.

PRIMROSE. - See Polyanthus.

- PRIMULA.—Sow in pans of finely-sifted soil in spring, and pot off singly into thumb pots when large enough to handle. They require to be raised in heat and kept growing in cool house or frame through the summer. A cool bottom for pots to stand on is essential. Use a compost of leaf mould and rich fibrons loam when shifting into larger pots.
- 5004 Carters Princess May.—A dainty pink colour, with enormous blooms of great substance, fine truss, and a robust grower. Princess May, Carters Coral, and King Edward are the three finest Primulas.
 Per pkt., 1/6, 2/6, 3/6, and 5/-

PRIMULA -Continued.

5005 Carters Giant Coral.—This Giant Primula is the result of a cross between Princess May and Holborn Salmon. The trusses of rich coral red flowers of immense substance and size, with a beautiful light green eye, together with a strong habit and dark green foliage, make it a very valuable addition to our Giant Primulas.

Fer pkt., 2/6, 3/6, and 6/5.

5006 Carters Holborn Crested.—A very distinct and beautiful Prinnula of the Giant section, the result of a cross between King Edward and Holborn Ruby. The large pink flowers, beautifully fringed, carried on a fine truss thrown up well from the vigorous green crested foliage, make it unique among Prinnulas.

Per pkt., 2/6, 3/6, and 6/-

Greatly reduced Photograph of Carters Prize Single Mixed Primula. Individual Blooms 3 in, across.

5016 Carters Prize Single Mixed.—This spleudid mixture contains all the finest varieties and most beautiful forms of this popular greenhouse annual, for which our House has long been famous. New seedling forms and art shades are introduced, in addition to the choicest standard varieties. All varieties not of the highest merit are rigorously excluded, with the result that this mixture will be found unsurpassable for the compactness and vigour of the plants and the beauty and variety of the individual blossoms. When pricking out the seedlings, take care not to discard the smaller plantlets, these frequently produce the newest and most delicate shades.

Per pkt., 2/6, 3/6, and 5/-

- 5007 Carters King Edward.—The finest White Primula we have yet seen. The flowers possess inunense substance, well thrown up. Per pkt., 2/6, 3/6, and 5/-
- 5011 Carters Crimson.—Excellent habit and brilliant colour. Per pkt., 1/6, 2/6, 3/6, and 5/-
- 5012 **Carters Blue.**—The First Class Certificate of the Royal Horticultural Society was granted to our House for this grand break.

 Per pkt., 1/6, 2/6, 3/6, and 5/-
- 5013 Carters White Elaine.—Grand truss, dark palm foliage; robust. Per pkt., 1/6, 2/6, 3/6, and 5/-
- 5014 **The Duehess.**—White with zone of rosy carmine. Per pkt., 1/6, 2/6, 3/6, and 5/-
- 5023 Single mixed eolours Per pkt., 1/6
- 5024 Carters Prize Fern-leaved Single, Mixed. Per pkt., 1/6 and 2/6

The above are packed in 6d. 1/- and 1/6 packets.

PRIMULA -Continued.

No. 50.15

PRIMULA Malacoides "King Albert."—Much larger and more free-flowered than the type. The beautiful which greatly adds to the value of this variety as a decorative plant. This beautiful Primula is not by any means a difficult subject to entitivate. The seed should be sown in succession, making say three sowings during July and August, in finely sifted soil, and kept moist until thoroughly germinated. A cool shady frame kept close is the best place in which to raise the seedlings, gradually giving more air as the seedlings grow. They should be pricked oni into boxes as soon as they are large enough to handle, and still kept in frames. As growth is very rapid, they should be potted into 60% pots as soon as possible, repeating this operation as soon as the pots are full of roots, into 48%. The soil for this potting should be two parts loam, one part sifted leaf mould, and a good addition of sand, while a little crushed brick or old morter rubble is very helpful. A cool pit or frame is the very best place until November, when the plants may be placed on a shelf place until November, when the plants may be placed on a shelf in a cold house, and not kept too moist, as damping is very liable during the dull months. As soon as the buds are seen pushing upward, a very slight feeding of manner may be given and also a warmer atmosphere. Keep Award of Merit, D. H. S. 1016.

R.H.S., 1916.

the greatest care.

Per pkt., 2/6, 3/6, and 5/-

CARTERS STELLATA (Star Primula).

This is both delightful and graceful when in flower, and it makes a useful decorative plant on the conservatory stage in spring. Free flowering. Treatment for *Primula sinensis* will suit this species flowering. well

NOVELTY. Fairy Queen (Duchess Type).—We consider this a great advance in the Stellata section. The plants are particularly profusion. A batch is a splendid sight. The individual blooms are creany white and have a pale rose centre, which gives a

very light and pleasing effect when seen in a mass.

Per pkt., 1/6, 2/6, 3/6, and 5/

SANVITALIA1

RANVITALIA.-Hardy annual.

5176 Procumbons, fl. pl.—Bright effective edging plant: vellow.

SAPONARIA.-For edging, rockeries, &c. Sow where intended to

5189 Searlot Queen.-Hardy annual. Rich rose colour, dark

stems, Ht. 6 in.

5190 Calabrica.—Hardy annual. Rose.

5191 Calabrica alba.—Hardy annual. White

5192 Ceymoides.—Perennial rock plant. Pale pink; trailer.

5193 Vacaria.—Hardy annual. Valuable for cutting; used for decoration with Sweet Peas. A beautiful soft pink flower, most graceful in vases. Also makes a nice pot plant for the green-

SCABIOUS.—This bright-flowering plant is usually recent years it has been greatly improved both in habit and range of colours, and is fast becoming one of the most popular of border flowers. When given plenty of room and the seed-vessels are kept regularly picked off, it will last through the whole of the summer. Owing to its sweetness the bees are very found of it, and its floral favours also attract all the most beautiful types of butterflies in the neighbourhood. Sow the seed in heat in February and March in a pan or small box, and transplant the seedlings 3 in, apart in larger boxes; harden off as spring advances, and set out in the border towards end of May. They may also be sown where intended to grow during as spring advances, and set out in the border towards end of May. They may also be sown where intended to grow during March and April.

5396 White.-Excellent trass.

5399 Splendid Mixture.—All colours.

EARLY LARGE-FLOWERED WINTER.

We very highly recommend this class of Stocks to all who have not grown them. They were first brought into prominence by the advent of that charming pink variety Beauty of Nice. The following varieties all resemble this variety in habit and profusion of bloom. We know of few Stocks which produce such a high percentage of double flowers. Although usually treated as winter varieties, they are admirably suited for summer bedding if treated as ten-week varieties. Sow in July and August for winter flowering, and in February and March for summer displays.

5380 Beauty of Nice.—Plant of robust growth. Very free flowering. Flowers very large, fine double, fragrant, and delicate fleshy-pink colour. Extremely valuable for decoration. 111, 2 to 2½ ft.

5381 Crimson King.—Brilliant fiery crimson.

5382 Queen Alexandra.-Delicate rosy lilac.

STOCK, SPRING FLOWERING.

Sow in July and August and plant out in early spring. The young plants are best wintered in cold frames.

blooming forms; extremely useful for pot work. The large spikes of bright carmine flowers are borne with great profusion. CARTERS QUEEN. -Perennial. One of the hardiest. Average ht

5409 Mixed.-Great variety.

HARDY'S PERPETUAL.

5412 Pure White.-A perfect bloomer.

CARTERS PERPETUAL WHITE STOCK.

5415 Carters Perpetual White.—Producing a large percentage of double blooms all the year round. Splendid deep green foliage, and most deliciously secuted. Extremely valuable for decorative work. Ht. I ft.

STONECROP (SEDUM).—We may safely say that no rockery is complete without the Sedim. We offer, as under, seed best adapted to the general convenience.

5314 Blue.-Annual. A pretty plant for edges and rockery.

5316 Mixed. Carters Varieties.—Perennial kinds for general garden and rockwork.

STREPTOCARPUS.—Perennial. A novel race of free-blooming greenhouse pot plants, in universal demand; bright, cheerful, lasting. The mixture we offer is a carefully fertilised strain, containing all the best colours, including a very large and rich blue. Sow in pans of rich soil in early spring, in heat, and pot off into small pots when large enough to handle. Keep the seed pans moist.

5293 **Carters Choice Hybrids.**—Superb mixture, the latest type in all colours, Included in our Gold Medal flowers, R.H.S., Chelsea Exhibition. Per pkt., 1/-, 1/6, and 2/6

5294 Carters Large-flowered Blue.—Very showy.
Per pkt., 1/-, 1/6, and 2/6

[SWEET BRIAR

SUNFLOWER (Ilelianthus). Sow all varieties in spring. Only transplant if necessary. The annual small-blossomed Sunflowers now compare favourably for freedom of bloom and elegance of habit with the perennial kinds. For cutting they are extremely valuable. All the varieties offered below are equally suited for garden decoration and producing large quantities of cut flowers.

CARTERS MINIATURE AND MANY-FLOWERED VARIETIES.

5420 Carters Orion.—Has very pretty quilled petals, free habit; most attractive for decoration.—III, 3 ft.

5421 Carters Miniature Flowered.—Single Nosegay Sunflower: Gold, dark centre. Very handsome when seen in borders; quite welcome flowers for cut purposes. 1H, 3 ft.

5422 Miniature-flowered Double.—Annual. Ht. about 2 fr.

5423 Pleiades.-A grand mixture of small decorative Sunflowers, in various shades of gold and sulphur. Ht. 3 ft.

5424 **Perkeo.** A miniature variety of exceptional interest. Of bushy habit. 11t. 1 to 1½ ft.

5425 Stella.—Favourite, select miniature variety. Ht. 4 ft.

5426 **Carters Dwarf.**—Fine bold flowers, thrown well above a very compact growth. 11t. I ft.

LARGE-FLOWERED, TALL AND DWARF.

5427 NOVELTY. Wine and Primrose.-A very handsome variety of medium height, bearing

numerous flowers about 5 in, in diameter on long stalks. This variety has none of the coarseness of the original Red Symflowers, the refined blossoms being a delightful combination of claret and deep cream,

5428 NEW.

Giant Red.—A highly-selected stock of the original Chestunt Red Sunflower. Splendid for the back of wide borders or in isolated beds on lawns.

5432 **Caetus or Sun's Eye.**—A grand double Sumflower of attractive form. Its fine habit and intense doubleness of flowers have seemed for it great popularity. Blooms 6 in. across. 11t. 6 ft.

5433 Carters Primrose.—A delicate-coloured single Sunflower Its black centre forms a beautiful contrast in combination with the pure-coloured crimson florets. Ht. 4 ft.
5434 Carters Leviathan.—The largest single-flowered variety.

We have had heads sent us measuring 13 ft. across. 11t. 6 to 10 ft.

5435 Henry Wilde.—The best for all cut single flowers. Colours bright yellow with dark centre. Int. 4 ft.
 5436 Californian.—Spleudid variety, with magnificent heads of double blossoms; rich colour. Int. 6 ft.
 5437 Double Dwarf.—Fine rich orange colour. Int. 3 ft.
 5438 Dwarf.—The old-fashioned dwarf garden variety; single. Int.

5439 Tall. Common or Garden. 11t. 6 ft.

5440 Perennial (Harpalium).-Mixed. Best distinct varieties,

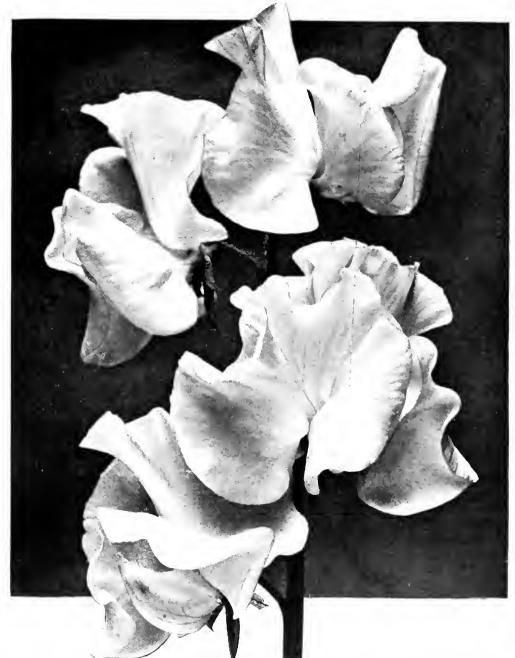

SWEET ALYSSUM. See Alyssum.

SWEET BRIAR (EGLANTINE).-Hardy shrub. 5319 Scented. Delicions odour; for hedges, &c. Ht. 3 ft.

We shall be extremely obliged if customers will kindly order by number and price only,

The above are packed in 6d. 1/- and 1/6 packets. Carters Seedsmen to H.M. the King, RAYNES PARK, LONDON, S.W. 19.

ISWEET PEA

CARTERS SELECTED LARGE-FLOWERED SWEET PEAS.

With a view to assisting those of our customers who are not quite conversant with Sweet Peas in their now extremely numerous varieties, we ofter our selection of large-flowered varieties as under.

Although all good for exhibition, we chiefly have in mind their suitability for garden decoration and enting purposes. With this end in view, we have selected giant-flowered types borne in threes and fours on very long stems. All are bright colours and pleasing shades, which do not scored in the sun. The plants are of robust habit and if the bloom is judiciously cut will produce large quantities of beautiful flowers until late antumn

TAGETES.—Brilliant Dwarf Single Edging Marigold. annual. Sow in spring, and transplant into beds or borders. Extremely showy.

5755 Pumila.-Orange yellow. 9 in.

5756 Pumila, Golden Ring.—A great improvement. 11t. 6 in.

The above are packed in 6d. 1/- and 1/6packets.

CARTERS TESTED SEEDS—BEAUTIFUL FLOWERS.

The following are packed in 6d. 1.- and 1/6 packets.

TECOMA1

TECOMA.—Greenhouse. Sow in early spring, in heat, and pot off.

5759 Smithi.—First-class plant for autumn and winter greenhouses Golden blossoms. Ht. I ft.

Per pkt 1/6 THUNBERGIA.—Half-hardy climber. Annual. Sow under glass

in spring, pot off, and plant out when hardened, 5765 Alata. - Choicest mixed. Orange-yellow and white, some flowers having black centres.

TOBACCO .- See Nicotiana.

TORENIA.—Beantiful greenhouse annuals. Desirable as pot plant and for hanging baskets. Sow in early spring in pans of light soil, prick off, and pot on.

5768 Bailloni.-Golden yellow, red throat. 11t. 1 ft.

5769 Fournieri.-Sky blue, spotted indigo. Ht. 1 ft,

5770 Fournieri White Wings.-White; handsome. Ht. 1 ft.

TRACHELIUM CŒRULEUM.-Hardy herbaccons perennial. most popular plant for greenhouse decoration, having large heads of pale blue flowers.

5773 11t. 2 ft.

TRITOMA (RED-HOT POKER PLANT OR KNIPHOFIA). - Tuberous perennial. Of great value in the mixed border in the late summer. Sow in cold frame in spring, transplant as soon as seedlings can be handled.

5776 Uvaria grandiflora.—Garden favourite.

5777 Carters Annual.—A very interesting novelty. For the first time the old garden favonrite, known as the Red-hot Poker, can be grown from seed as a half-hardy annual. Colours, red and yellow; also both colours in the same flower.

TROPÆOLUM.-See Nasturtium.

VERBASCUM (MULLEIN), - Hardy perennial, Sow seeds summer, and transplant in antumn to bloom following year.

5841 **Pannosum.**—White foliage, dense spikes of yellow flowers silver white in centre. 1H, 6 ft. Crop failed Crop failed.

VERBENA.—Percunial. Few plants are more generally liked than the Verbena, as it makes a first-class bedder, hrilliant in colours, excellent habit, and of long duration in bloom. Sow in heat in spring, prick off into boxes in cool frame, harden off and plant out. It may be also grown as a pot plant from seeds sown in summer for flowering in the arresplance the following prices. greenhouse the following spring

5784 **Cartors Mammoth.**—Choice mixture of all shades. Per pkt., -/**6**, 1/-, 1/**6**, and **2 6**

5786 Mammoth, Searlet Shades.-Magnificent blossom.

5787 Mammoth, Brilliant Rose.

5788 Carters Dark Blue.-Large-flowered.

5789 Carters Pink-Large-flowered.

5790 Carters Searlet.—Large-flowered.

5791 Carters White.-Large-flowere 1.

5792 Carters Auricula-eyed. - Choice mixed.

5794 Carters Hybrids,-Mixture of sorts. Excellent bedder.

5795 Drummondi.—Hardy perennial; blooming the first season.

5796 Venosa.-Hardy percunial; blooming the first season; rosy purple.

5797 Lemon-scented (Aloysia).-Half-hardy shrub.

DWARF COMPACT VERBENAS.

These require no pegging down. The erect bushy habit renders them most snitable for bedding, borders, and also pots. The colours are brilliant in the extreme,

5803 Defiance.-Beautiful fiery scarlet.

5804 Searlet with white eye.

5805 Cœrulea.—Deep blue.

5806 Cœrulea with white eye.

5807 Carters Compact.-Mixed.

[WALLFLOWER

VIOLA.—Hardy perennial, Every large extent of bedding includes one or more of the Violas, and their enlivening effect is remarkable. Sow seeds in spring, in pans of light sandy soil in a cold frame, prick off and plant out in May or June. Ht. 6 in.

Extreme care is taken in saving all the superb shades below, which come fairly true from seed.

5813 Carters Purple Bedding.

5814 Carters Light Blue Bedding.

5815 Carters Golden Bedding.

5816 Carters White Bedding.

5820 Cornuta, Mauve Queen.-The original Viola, smallflowered

5821 Cornuta, Purple Queen.—The original Viola, smallflowered.

5824 Carters Choicest Mixed.—Superb flowers of all shades.

5826 Odorata-Sweet Violet.

5827 Odorata alba.—White Violet.

5828 Odorata, The Czar.

5829 Carters Sweet Scented Violet (Princess of Wales).—
Award of Merit, R.H.S. This plant produces large flowers of a rich blue shade on long, vigorons stems. Popular for its fragrance, and makes a charming buttonhole.

VIOLET. See Viola.

VIRGINIAN STOCK.-Annual. The hardiest of annuals; adapted for edgings. Sow in spring.

5847 Crimson King.-Rich rose crimson.

5848 Red.-Ordinary variety.

5849 White.

5850 Carters Mixed.

VISCARIA.—Hardy annual of brilliant colour and effect. Sow in spring where plants are to bloom.

5853 Cardinalis.-Vivid Carmine Lake. Ht. 1 ft.

5854 NEW.

Carters Lilac .- A charming pale filac variety which cannot fail to become popular, as the shade is one which is all too rare among annuals.

5855 Oculata.-Metallic lilac.

WALLFLOWERS.—Carters Largo-flowered.—For real usefulness we recommend

For real usefulness we recommend our selections below, of uniform height and hubit, broad petalled, and decisive colours. They flower early, last well, and are of the ground in convenient time for snumer bedding. The seeds may be sown from April to August in a partially shaded but airv place. If sown on poor firm soil plants of stubby growth and hardy nature will be produced, whilst those sown later in rich ground are often killed in winter. All may be transplanted to blooming quarters from August to November, according to circumstances. circumstances.

Our new varieties, Carters Winter Blooming Deep Red and On new varieties, Carters winter blooming Diem Red and Colden Yellow, bloom two months earlier than the standard kinds when sown at the some time. They are true harbingers of spring, and we ficked quite a nice bunch of these varieties a few days before Christmas. Filen Willmott is another variety we bighly recommend, and is equally valuable for outdoor or greenhouse callivation. Our strain is large flowered and well fixed.

The above are packed in 6d. 1/- and 1/6 packets.

We shall be extremely obliged if customers will kindly order by number and price only.

WALLFLOWER1

WALLFLOWERS -Continued.

[ZINNIA

WALLFLOWERS—Continued.

5874 Carters Tall Golden. - An excellent bright golden companion to our Blood-Red.

5875 Carters Tall Primrose.-Deep primrose; an excellent contrast to the dark varieties.

5883 Carters Tall Purple.-Large flowered. Rich ruby; a particularly telling shade for bedding.

5884 Carters Tall Salmon Pink.-A beautiful combination of salmon-pink and Apricot.

5885 Carters Mixture of Tall Varieties.—Contains all the best colours and shades found in our named varieties and many delightful seedling forms not yet fixed.

5872 Ellen Willmott.—This is a recent introduction, of which we have an extremely high opinion. The very large flowers are of a rich shade of ruby, very distinct from existing forms of this colour. Ht. 14 ft.

5876 Blood or Dark.-Selected stock of this old favourite. Ht.

5877 Eastern Queen.-Salmon, shaded deep apricot. Makes an effective bed

5878 Graham's Perfection.-Pale Gold. Very large-flowered free variety.

5879 Harbinger.—The well-known carly-flowering market variety. Colour mahogany brown.

5880 **Old Gold.**—Deep golden yellow. Compact in habit and very free flowering. Ht. $1\frac{1}{4}$ ft.

5882 **Fire King.**—A brilliant fiery red. The colour is so intense that beds of this variety in the sunshine have almost the appearance of being on fire.

5886 Primrose.—Delicate colour.

5887 Purple or Violet.-A good stock of the original variety.

5888 Yellow.-For borders. A free-flowering strain of the old yellow.

5889 Carters May Day.-All colours. Ht. I ft. to 2 ft.

DOUBLE WALLFLOWER.

5895 Carters Tall.-Large, variously coloured spikes. Ht. Il ft. to Iå ft.

5896 Carters Dwarf.—Large branching growth, all colours. Ht. 9 in. to I ft.

5897 Double Mixed.-Magnificent spikes of blossom, Ht. 1 to 2 ft. Doubles should be planted closer together than Singles.

WHITLAVIA.—Hardy annual. Sow in open border in spring.

5903 Grandiflora.-Rich deep purple. Ht. I ft.

WIGANDIA.-Ornamental foliage.

5906 Caraceasana,-Grand foliage. IIt. 6 ft.

5907 Imperialis.—Sub-tropical. Ht. 6 ft.

WINTER CHERRY.-Perennial.-See also Physalis.

5910 Red Fruited.—For winter bouquets.

XERANTHEMUM. -- See Everlasting Flowers.

ZEA MAYS (Japanese Maize).-Annual. Sow in slight heat in May and plant out in June.

5919 Variegata.—Beautifully striped.

5920 Perfection.-Foliage striped rose, crimson, cream, and yellow Very compact and ornamental. One of the most effective plants for sub-tropical and other bedding. IIt, 3 ft.

ZINNIA.—When well grown, the Zimnia is one of the showiest of the half-hardy Annuals, its treatment being similar to that of the Aster.

DOUBLE.

- 5923 Carters Mammoth Double Mixed.—A giant-flowered strain, containing only the most pleasing colours. Ht. 1½ (t. Per pkt., -/6, 1/-, 1/6, and 2/6
- 5924 Carters Large-flowered Dwarf Double.—Choicest mixed. Ht. 1 ft.
- 5925 Carters Fireball. -The plant is of neat habit, throwing up a large number of small, fiery scarlet, perfectly double ball-like flowers. 11t. 14 ft.
- 5926 Carters Lilliput Varieties.—Bushy plants; profuse bloomers. Mixed.

CARTERS DWARF SWEET SCENTED LARGE FLOWERED.

For beds and borders. Ht. 9 in, to 1 ft. Plants to stand 1 ft. Excellent in a bed to themselves or as a front to the taller apart. varieties.

5858 Carters Dwarf Golden.-A very select stock of good habit

and bright colour.

5859 Carters Dwarf Blood-Red.—Large flowered. An excellent deep-coloured companion to the above.

5860 Carters Dwarf Purple.—Large flowered. This variety

should be more grown; it forms a pleasing combination with

should be more grown; it forms a pleasing combination with pale yellow Tulips.

5861 Golden Tom Thumb.—Superior bedding. A splendid stock of this popular variety. IIt. 9 in.

5862 Ruby Gem.—Fine colour. A little taller than our Decarf Ruby, and more suitable for entting. IIt. 9 in.

5863 Vulcan.—A dwarf, neat-habited, maroon-flowered variety. Makes a splendid bedding plant. III. 9 in. to 1 ft.

5864 Carters White.—A large-flowered variety, with long spikes of increasing the flowers. III. 1 ft.

of ivory white flowers. Ht. I ft. 5865 Carters Mixture of Dwarf Varieties.—In this strain

the various shades and colours are carefully blended. All the plants are of very neat habit and free-flowered.

CARTERS TALL SWEET-SCENTED LARGE FLOWERED.

The tall strain is very effective planted in front of shrubberies, along borders, or in the centre of beds edged with the dwarf varieties above. Ht. 1½ ft. except where otherwise stated. The varieties are above. Ht. 1\frac{1}{2} ft, except where others giant flowers and re-selected strains.

giant flowers and re-selected strains.

5871 Carters Winter Blooming Deep Red.—A brilliant Wallflower, and should be greatly appreciated for its early flowers when blooms in the garden are scarce. Ht. 1½ ft.

5881 Carters Winter Blooming Golden Yellow.—Makes a beautiful contrast when associated with our Winter Blooming Deep Red. Ht. 1½ ft.

5873 Carters Tall Blood-Red.—A very rich-coloured strain, large flowered, and of good habit.

large flowered, and of good habit.

THE SWEET FRAGRANCE OF OLD-FASHIONED FLOWERS.

CARTERS PERFUMES are the concentrated essences of old-time favourite English garden flowers extracted with such skill and care that the perfumes contain unimpaired the delicate and odoriferous constituents of the petals. They subsequently undergo a special process of concentration and refinement which renders them unique in their permanence and the naturalness of their odour—they do not become stale, or stain the fabric.

CARTERS NIGHT-SCENTED STOCK PERFUME is exquisitely reminiscent of the marvellously perfumed little flower *Mathiola Bicornis*, which fills the garden on a summer's eve with its entrancing fragrance.

Carters favourite perfumes of English Garden Flowers are:

Gardenia Heliotrope Honeysucklo

Jasmin Lilae Lily of the Valley Mignonetto Night-scented Stock Red Rose

Wallflower Violet

Sweet Pea

1/9

Carters Perfumes are supplied in bottle, each being in a single dainty but inexpensive box (the value being in the perfume), at the following prices:

CASH PRIZES FOR 1919.

JAMES CARTER & Co.. Seedsmen to His Majesty the King, Raynes Park, London, S.W., undertake, upon being furnished with certified evidence, to duplicate First, Second, or Third Money Awards made to the exhibitors who show the products of Seeds and Potatoes from purchases made by the exhibitor from this Catalogue above 10½ in value, and obtained from Messrs. Carters establishment during the twelve months ending June 30th, 1919. The said duplication will be limited to the value of the purchase, but exhibits of exceptional merit will be treated with liberality at the option of Messrs. Carter.

The products to be of the exhibitor's own growth, and in case of any dispute as to purchase, &c., an invoice of the seeds purchased must be produced if required, and the specimens are to be staged in accordance with the regulations of the Society. This offer does not apply to Special Prizes offered by Firms and other Patrons.

Customers intending to claim the advantages of the Special Prizes must welfully be feet to the second supply to Special

Prizes offered by Firms and other Patrons.
Customers intending to claim the advantages of the Special Prizes must notify the fact to us a week before the day of the Show, stating the names of the Vegetables. Potatoes, or Flowers they intend to stage, when we will send neatly-named cards, which must be exposed to view on the exhibits during the whole time of the show, or if not we may withhold the prizes.

We shall also send the applicant a sheet on which to record his prizes to save the Secretary nunccessary work.

These Prizes are open to Messrs, Carters Customers, but not available to Market Growers, Seedsmen, Nurserymen, or Horticultural Traders,

TERMS OF BUSINESS.

Except in cases where the cost of Carriage on the parcel, through being munsually bulky in proportion to value, absorbs the profit on the transaction, when we reserve to ourselves the right to send unpaid.

We deliver Potatoes, Seeds, Bulbs, and Plants, Carriage Paid to any Railway Station in England and Wales, Ireland, and Scotland, where practicable, also Free by Parcel Post to Purchaser's door where possible. Glass and other Goods liable to breakage are sent out securely packed, but beyond that we cannot be responsible for damage in transit. Notice of damage should be at once made to, and compensation claimed from, the Carriers. FREE CARRIAGE OF GOODS.

THE TESTING OF SEEDS ORDER. 1918.

Tests made since the commencement of the last harvest. August, 1918, prove that the germination of the Vegetable Seeds offered in this Catalogue is in every case equal to, if not higher, than the Government standard, for those kinds to which the Order refers, and the analytical purity not less than 97 per cent. We shall advise our customers of any exceptional cases that may occur.

CONDITIONS OF GUARANTEE OF QUALITY.

All our Seeds have been carefully grown, selected, cleaned and tested, but we cannot give any warranty, expressed or All our Seeds have been carefully grown, selected, cleaned and tested, but we cannot give any warranty, expressed or implied, as to description, purity, productiveness or any other matter connected with the crop beyond the analysis required in accordance with the Testing of Seeds Order, nor can we be in any way responsible for the crop. The goods are sold on the express condition that when they have been accepted no claim for damages or otherwise can be made against us for any breach of obligation.

Please write your name and address in full, also nearest Railway Station or Shipping Port to which the goods are to be forwarded. Under our new system it is only necessary to quote the number in Catalogue and price; quantity may also be inserted, but is not always necessary. All letters are opened under the direction of one of our principals, and the orders are given out for execution under personal supervision.

PLANTS.

ORDERS.

As regards shrubs, trees, and other goods that are liable to die or get diseased or blighted by improper management or unfavourable weather, soil, or situation, whilst we will take every care to see that all plants, shrubs, trees, &c., are healthy, and free from disease, our liability ceases with their acceptance. Plant orders are sometimes delayed by severe or hot weather, and they at all times take longer to execute than Bulb or Seed orders, in consequence of the time required in lifting and packing, especially in antumu.

NEW CUSTOMERS. We beg respectfully to state that on opening an account it is necessary for us to receive Cash with the order, or a reference to a Banker or someone known to our House.

CASH DISCOUNT.

We allow 5 per cent. (1/- in the \pounds) discount off the total amount of invoice, of 20/- value and over, on all goods paid for with order, or within fourteen days from the date of invoice (but at no lator period), unless other terms are specified or arranged.

TERM OF CREDIT. Our fullest Term of Credit is Three Months from date of Invoice, and without Discount, and our books are made up quarterly—i.e., March 1st, June 1st, September 1st, and December 1st. Five per cent, interest will be charged upon overdue accounts.

REMITTANCES.

Postal Orders, Post Office Orders, or Cheques on any Bank are acceptable, and should be drawn in favour of **James** Carter & Co., and crossed "Barelay's Bank, Limited, Raynes Park Branch."

Sacks, Bags, &c.

EMPTYPACKAGES, Full price will be allowed when returned immediately, carriage paid, and in good condition. These should be in every Hampers, Boxes, case marked—" Empties from——": a letter by post informing us of their despatch is also necessary. Booking charges run pace win be anowed when returned numediatery, carriage paid, and in good condition. These should be in every case marked—"Emplies from——"; a letter by post informing us of their despatch is also necessary. Booking charges must be prepaid, and a receipt should be taken, so that the value may be recovered if they are lost or mis-sent. Coin, other valuables, or important communications should on no account be enclosed with returned empties. On receipt of a post-eard we will send labels.

CHANGE OF ADDRESS.

Please notify to us any change of Permanent Address, in order that we may be able to forward our Catalogues with regularity. The favour of your kind recommendation of our House to those of your friends requiring Seeds for the Garden or Farm, or Plants and Flower Roots for the Garden or Conservatory, is respectfully solicited. We shall be pleased, at all times, to forward our Catalogues to any address we may be favoured with.

CONTRACT WORK. Subject to special terms on application.
